Scope and Content Note

The maps in this series may have been part of the preparations made for the construction of Copperton. The maps plot out the Bingham Townsite, and they list the current owners of property, including the locations of buildings like the schools and firehouse. Some of the maps show the proposed locations of improvements, for example Item # 15 in container # 2 shows the proposed extension of the water system and item #16 shows the location of the new water system and connections as well as proposed new concrete sidewalks.
