

Hansen Planetarium Historical Records

VI. Star Shows

Series: PL – 030. Star Show Administration

Boxes: SA – 1 to SA - 3

Description: This series contains records generated during the creation and administration of the Hansen Planetarium's star shows. Included are grant applications/awards for the production of various star shows.

Administration of the star show "Fate of the Universe" was not originally part of this series, but was added by the processor as additional star show administrative material.

Arrangement: Arranged alphabetically by star show title.

Related Series:

- Education: Lectures, Special Events, Projects, Series PL – 019. This series contains additional records about the star show "Fate of the Universe" with Stephen Hawking. Stephen Hawking combined his visit to present a lecture for the Planetarium with his work on the star show.
