Star Display

This Star Display is an old school presentation board. Using Velcro pads/strips, people can attach posters, signs, etc. It also has enough pieces to construct makeshift walls, even to divide office space (panels can be stacked) or create cubicles or something. Pieces slide together to attach and come in a variety of shapes and sizes!

We have two separate sets, each with about 6 large panels and plenty of interconnecting pieces. Each set comes with a box (as seen in the pictures) for transportation. Each box with a set inside weighs about 60 pounds.
