

# Salt Lake County Dog Park Implementation Plan Matrix

August 2017

Reading this matrix: The numbers imbedded within the Matrix correspond with project goals (see below).

Environmental Considerations											Public Input	SCORE
G7	G7	G7	G7	G7	G7	G7	G7	G7	G7	G7	G8	
Site Topography	Is an endangered species habitat present on the site?	Is there a wetland on the site?	Would the dog park be adjacent to open water?	Is there a protected watershed on the site?	Would stormwater discharge from the dog park into a natural water body?	Does the site have a conservation easement or wildlife reserve?	Is the site within a 100-Year Flood Zone?	Is the site within a Flood Mitigation Zone?	Does the site require environmental remediation?	Is there strong public support or opposition for the site?

### VISION STATEMENT

The Salt Lake County Dog Park Implementation Plan will build upon the 2008 Salt Lake County Off-Leash Dog Park Master Plan to identify, rank and prioritize 2-3 sites for community dog park sites to serve Salt Lake County.

### GOALS

- GOAL 1: Identify sites large enough to accommodate a 5 to 10-acre community dog park, as defined by the 2008 Dog Park Master Plan (DPMP), while minimizing development costs.**
- Objective 1: Identify sites between 5-10 acres.
  - Objective 2: Prioritize sites owned by Salt Lake County/ local municipality.
  - Objective 3: If site is not owned by the County, prioritize sites with the lowest
  - Objective 4: Prioritize sites designated by the County or municipalities for dog parks.
  - Objective 5: Prioritize sites with a suitable shape for a dog park.
- GOAL 2: Prioritize sites clearly visible to the public.**
- Objective 6: Identify sites visible to passersby and adjacent users.
- GOAL 3: Identify sites adjacent to compatible land uses.**
- Objective 7: Prioritize sites within Commercial or Industrial Zone and discourage sites within neighborhood zones
- GOAL 4: Prioritize sites with existing infrastructure such as utilities.**
- Objective 8: Prioritize sites that can utilize existing improvements.
- GOAL 5: Prioritize sites evenly distributed across county that touch existing parks/open space while not overlapping their service area with other existing community dog parks.**
- Objective 9: Distribute sites evenly across County so not to overlap with 5-mile service area.
  - Objective 10: Prioritize sites touching existing parks/ open space.

- GOAL 6: Consider ease of vehicular and pedestrian access to the site.**
- Objective 11: Prioritize sites that can be directly accessed by an arterial or collector road.
- GOAL 7: Determine if there are any environmentally sensitive resources and, if so, identify if the resource can be sustainably protected or managed**
- Objective 12: Prioritize sites with rolling/ varied terrain.
  - Objective 13: Prioritize sites that don't have endangered/protected species.
  - Objective 14: Prioritize sites with no wetlands present.
  - Objective 15: Prioritize sites that do not have direct access to water bodies.
  - Objective 16: Prioritize sites not within a protected watershed.
  - Objective 17: Prioritize sites that will not discharge storm water runoff.
  - Objective 18: Prioritize sites not within a conservation easement or wildlife preserve.
  - Objective 19: Prioritize sites outside of the 100-year flood zone or Flood Mitigation Site.
  - Objective 20: Prioritize sites that don't require environmental remediation.
- GOAL 8: Prioritize sites with public support and minimal public concern or opposition.**
