

“Access to Opportunity” is defined as how many valued destinations – such as jobs, shops, schools, or parks – individuals can reach in a given period of time.

Examples

- Job centers and how many skilled laborers can reach these centers within 30 minutes
- Affordable housing and how many education, blue collar jobs, and healthcare opportunities can be reached within 30 minutes without having to own a car

Today's Assignment

*Prioritize Top Three **Barriers** to Overcome in Housing, Transportation & Economic Development*

Focus on barriers that, if able to overcome, will:

- Provide the biggest impact
- Are feasible to address in relatively short timeframe
- Are most realistic to yield successful results
