

2018 Salt Lake County Homeless Point in Time Count

Help make a difference in the lives of those experiencing homelessness on the streets. We need to find these individuals, let them know we care, and that help is available!

WHAT IS THE POINT IN TIME COUNT

The Point in Time Count is an annual count of homeless persons that takes place over the course of four sequential days from Wednesday, January 24 through Saturday, January 27. The goal is to find homeless persons living on the streets and gather information in order to connect them with available services. There are several ways you can be a part of the Salt Lake County Homeless Point in Time Count. For this effort, we anticipate needing upwards of 100 volunteers, most of whom will search out and conduct surveys with persons experiencing homelessness who are living on the streets. In order to more broadly connect with people throughout the Salt Lake valley, we are expanding the geography of the count this year and will have three home base locations for volunteers to meet and start out from each day of the early morning count. These locations will be in downtown Salt Lake, Riverton and Murray.

OUTREACH VOLUNTEERS: We need 100 or more volunteers to work in teams to seek out and interview homeless individuals who are living on the streets. This is a four-day event. On the evening of day one volunteers will receive training related to approaching and interviewing persons experiencing homelessness and be organized into teams. On the mornings of days 2-4 each team will have the opportunity to thoroughly explore a designated geographic area to outreach to homeless persons for the three days of the Homeless Point in Time Count.
