

Calculating the Unmet Need for Homeless Housing in Your Community Using Point-In-Time and Housing Inventory Data

Community: Salt Lake Continuum of Care

Instructions For each group ask the question what percent need (insert housing type) to end their homelessness
 I.E. What percent of unsheltered individuals who are in households of no Children need emergency shelter to end their homelessness? (record answer in cell C11)
 Each row should total 100%
Correct - totals 100%
Incorrect - does not total 100%
 The HUD report is outlined in **BLUE**.
