

Fees for Tires and Refrigerators

Tires*:

With rims: \$3.00 ea.

W/o rims: \$2.00 ea.

Items containing freon:

\$12 per unit

**These fees will be implemented
beginning July 1st, 2016**

*Limit of 4 tires per load

Why?

We have to recover our costs.

Tires: We currently recycle the tires brought to us in order to keep them from damaging the landfill.

Refrigerators: The EPA requires us to remove the Freon from refrigerators, freezers, etc.

The new fees cover our costs from these services and do not financially benefit the landfill.

We appreciate your business.
