

# 2014 Salt Lake County Watershed Symposium Field Trip

## Jordan Basin Water Reclamation Facility Tours

### Friday, November 21, 2014

**Trip 1: Morning Tour, 10:00am-12:00pm**

**Trip 2: Afternoon Tour, 1:00pm-3:00pm**

#### Overview

The Jordan Basin Water Reclamation Facility (JBWRF) began construction in 2009. Two years of planning and design preceded its construction in order to facilitate the needs of the continuous growth of the southern end of the valley. The JBWRF was designed with future needs in consideration. The facility utilizes state-of-the-art membrane technology in order to ensure the facility will maintain the ever improving standards of water quality in Utah. The GE Zenon technology allows the JBWRF to produce water that is ready for use in secondary irrigation systems. Also, we utilize Ultra Violet light as a safe means of disinfection of all the water that passes through the facility. The construction of the plant accounted for future growth, eliminating the need for costly expansion in the near future.

#### Trip Leader

Gordon Evans, JBWRF | [gordone@jordanbasin.com](mailto:gordone@jordanbasin.com) | (385) 202-2769

#### Meeting Place

Meet at 10am/1pm in the JBWRF Administration Building lobby.

Directions from I-15:

- Take Exit 289, head west on Bangerter Highway
- Drive 2 miles, then turn right at "Maintenance Entrance" sign
  - will see a large straw bale wall along the entrance road
- Drive through gate (will be open), follow road north to the Administration Building

*NOTE: the physical address of the facility is 13826 South Jordan Basin Lane, Riverton UT, but if you search for that in Google Maps it will send you to the wrong place. If you want to use Google Maps, search for "Jordan Basin Lane, Riverton UT", which will get you in the vicinity.*

#### Notes

- The tour is both indoors and outdoors; please dress appropriately.
- Please be mindful that tours are conducted by JBWRF personnel who are taking time out of their regular work schedule. JBWRF reserves the right to stop a tour in progress if safety or other issues arise.
- Bring your own food and drink
- Salt Lake County requires all field trip attendees to sign a waiver form.

Questions? Contact Lynn Berni, [lberni@slco.org](mailto:lberni@slco.org), (385) 468-6643
