Swim Testing Procedures

Description

Super Sport has a variety of swimming rules and instructions that must be followed. However, all of our swimming policies are based on two rules:

1. Children 5 years old and younger will be required to wear a coast guard approved life jacket. They will also be required to swim with a program instructor. There are no exceptions to this policy.
2. Children 6 and older may swim without a life jacket, only if they pass a swim test. If the child fails the test, or if they are a boarder-line case, they must wear a life jacket in the pool.

Swim Testing requirement:

As mentioned above, we will be performing mandatory swim tests for all children 6-12 years old. Children in the age range must take the swim test in order to swim.

At the beginning of each month, all children will be required to take a mandatory swim test. If a child comes for the first time later in the month, they too will be required to take the swim test. Once a child passes the swim test they will be issued a GREEN rubber wristband. They must wear this wristband to swim anywhere in the pool. They will be required to bring the wristband each time they come to Super Sport. If they lose the wristband they will have to take the swim test over again, no exceptions. If a child can swim, but not well enough for the deep end or the diving boards they will be issued an ORANGE wristband. This means they must stay in the leisure pool. All child 5 and those needing life jackets will be issued a YELLOW wristband.

To pass the swim test, the child will have to demonstrate the following skill:

- **Swim the length of the 4' portion of the leisure pool, down and back, unassisted and without stopping.**

The swim test is administered by program instructors, with one or two instructors IN THE POOL. This is to ensure safety during the test. Immediately send those needing life jackets to the instructors outside of the pool for life jacket fitting.

Remember these guidelines:

- Ages 5 and under: Must wear a lifejacket. Must swim within an instructor's reach at all times, no exception.
- Ages 6-12: May swim without a lifejacket and instructor, if they pass a swim test. If a child does not pass, they must wear a lifejacket and swim with an instructor.
