How SPAYghetti & No Balls Helps the Community:

Salt Lake County Animal Services is the largest life-saving municipal shelter in Utah. We offer a variety of programming to the community to help maintain a healthy pet population. Each year our Outreach team attends over 200 community events and hosts Humane Education presentations at schools in Salt Lake County.

SPAYghetti & No Balls helps pay for the spay/neuter surgeries of 700+ owned animals each year that come from low-income homes. By sterilizing a pet, we prevent hundreds of homeless pets from entering the shelter each year.

Join us for the best party of the year and help sponsor life-saving programming. As a business, you will receive recognition throughout the year for your generosity and support of pets in the community. Sponsor benefits are on the following page.

For additional information contact our Development Coordinator, Jami Johanson at jjohanson@slco.org or call 385-468-6042.

SPAY/NEUTER FACTS:

- An average cat has 1-8 kittens per litter and 2-3 litters per year. During her life, one female cat could have more than 100 kittens.

- A female dog can have up to three litters in a year with an average litter size of seven puppies. One female and her offspring can create 67,000 puppies in six years.

- 10,000 humans are born every day in the U.S. and each day 70,000 puppies and kittens are born. If these birth rates continue there will never be enough homes for all the pets.
