Lead Safe Salt Lake Housing Program

Homeowner Eligibility and Requirements

Does the following information apply to your home?

1. Built prior to **1978**
2. Potential lead-based paint hazards (deteriorating lead paint, worn windows, etc.)
3. Household income is at or below 80% of the area median adjusted for family size (see table below)
4. Ownership of home can be verified
5. Child/children under six years of age live in or frequently visit (at least 6 hours per week or 60 hours per year) and/or a pregnant woman lives in the home

2020 Household Income Adjusted for Family Size								
	1	2	3	4	5	6	7	8+
80%	\$51,650	59,000	66,400	73,750	79,650	85,550	94,450	97,350

If you answered "yes" to questions 1-5 - you are eligible. Please continue.

This Grant application includes:

- ✓ Income disclosure and verification forms.
- ✓ Certification forms for resident children under the age of six and children under the age of six who visit often, at least 6 hours per week or 60 hours per year.
- ✓ Release forms for lead testing of children.

Please review this packet carefully and fill out and sign the grant application if you are interested in pursuing a grant from Salt Lake County to have the lead-based paint hazards in your home controlled.

Steps:

1. After we receive the completed Grant Application, we will review it for eligibility. You will be notified whether you are eligible to receive assistance.
2. If eligible we will schedule a site visit with you. When we visit your home, we will do a visual assessment for cracked, peeling paint and potential lead-based paint hazards.
3. If the visual assessment identifies potential lead-based paint hazards, we will schedule a lead-based paint inspection. The consultant will use an XRF machine to determine if lead based paint is present.
4. If the risk assessment identifies lead-based paint hazards, subject to completing the LSSL program process, your project will be eligible to receive assistance through the LSSL program.
5. Based on the risk assessment, a scope of work will be prepared. Upon your acceptance of the scope of work, a bid packet will be prepared. LSSL will coordinate in scheduling a bid walk-through by LSHP qualified contractors and will review bids for reasonableness.
6. Your application for funding will be reviewed by an LSSL grant approval committee. The funding amount may be approved, changed, or denied based on the program requirements and the need of the project. If you do not meet the program requirements you may be turned down.

This document may need to be shared with partner organizations to enable you to get as much assistance as possible. We will ask for your permission BEFORE sharing any information with another organization.

The County does not discriminate based on race, color, national origin, sex, or religion. No qualified individual with disabilities shall, based on disability, be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination under any program or activity conducted by this agency. The County will also provide meaningful access to services for Limited English Proficiency (LEP) persons. be subjected to discrimination under any program or activity conducted by this agency. The County will also provide meaningful access to services for Limited English Proficiency (LEP) persons.

Your Lead Safe Housing Application Checklist

Required Documents- these must be completed, signed, and submitted

Provide copies of:

- Income verification (for all household residents 18 years of age and older)
*2 months (8 checks stubs weekly pay or 4 check stubs biweekly) of most recent paycheck stubs for all household residents.
Note: Any adult who is living in the house and is not working, please sign the zero-income certification form. We verify income through third party verification; please sign the third-party verification form giving us permission to contact your employer to verify your income.
- If anyone in the household receives Social Security or Disability:
*submit a copy of the annual letter
- Homeowner's insurance certificate or other verification of homeownership

Watch the "Lead Safe Housing Program Process" Video:

- Click [here](#) or type in this link:
<http://slco.org/lead-safe-housing/how-the-program-works/>

Return:

Copies of income verification (check stubs, etc.)

ALL Application forms signed and dated:

- Home Owner Application – LH 1.0 (requires signature)
- Income Disclosure Form – LH 1.1 (requires signature)
- Homeowner Testing and Remediation Agreement – LH 1.2 (requires signature)
- Blood Lead Testing Information – LH 1.3 (requires signature)
Or if there is a child who visits, but does not live in the home have parent or guardian sign
Blood Lead Testing Information for Non-Resident – LH 1.4 (signature if applicable)
- Radon Gas Testing Release Form – LH 1.5 (requires signature)
- Race and Ethnic Disclosure Information – LH 1.6 (does not need signature)
- Certificate of Zero Income – LH 1.7a (requires signature)
- Care management form – LH 1.8, if additional services are needed, please sign, and submit
- Oral Income Verification – LH 1.9 for office use only

Please note that your application can be returned if not submitted with all the above documentation.

Lead Safe Salt Lake Housing Program

LH-1.1

Income Disclosure

Household Name: _____

The goal of the Lead Safe Salt Lake Housing Program (LSSL) is to provide grants to property owners to reduce lead poisoning by controlling lead-based paint hazards that may exist. With a grant from LSSL, your house may qualify for new windows and/or repair/repainting of chipped and peeling paint surfaces.

Lead based paint may be found in buildings built before 1978 and can poison children. Paint chips can peel from the walls and windows and find their way into your child's mouth. Your child can also inhale dust particles from the paint. This can lead to health, behavior, and learning problems for young children especially under the age of six.

INSTRUCTIONS:

This form must be completed by the occupants of any house for which assistance to reduce paint hazards is being requested from Salt Lake County.

Please provide:

1. a copy of pay stubs of the past 2 month's income for all employed occupants of home over the age of 18.
2. documentation of any other household income (Social Security income, Disability/SSI, etc.).
3. name & phone number of contact / supervisors to verify employment

List all occupants living in the household over the age of 18 years:

Name:	Annual Income \$	Supervisor Name:	Phone#
Name:	Annual Income \$	Supervisor Name:	Phone#:
Name:	Annual Income \$	Supervisor Name:	Phone#
Name:	Annual Income \$	Supervisor Name:	Phone#:

I certify under penalty of law that the information contained in this declaration is true, accurate, and complete to the best of my knowledge. I understand that there are significant penalties for submitting false information, including the possibility of fines and imprisonment for knowing violations.

Lead Safe Salt Lake Housing Program

LH-1.2

Release/Waiver

The undersigned hereby makes a preliminary application to the Lead Safe Salt Lake Housing Program ("LSSL") for aid for residential lead paint abatement. The undersigned acknowledges that this application is made pursuant to a program offered by LSSL and that the methods for abating lead paint, cost of such abatement and other permitted costs will be determined by LSSL. The undersigned further agrees to permit the abatement of lead paint in the property by a LSSL approved contractor.

I understand that LSSL or Salt Lake City Corporation will undertake lead-based paint testing on my home. If the test results reveal lead-based paint hazards, I understand that the scope of work will include the work necessary to make my home lead safe. Lead safe means that lead based paint hazards in my home have been stabilized and that my home passed a certified lead clearance test upon completion of work. For my home to remain lead safe, I understand that I must properly maintain the treated areas in the future and monitor the non-treated areas containing lead that were identified. I will receive a copy of the risk assessment and clearance test upon their completion.

The applicant(s)/owner(s) agree that LSSL or Salt Lake City Corporation can perform an inspection of the premises to determine the presence of lead-based paint hazards. Performing the inspection does not obligate Salt Lake County to award the grant. The applicant(s)/owner(s) will be informed of the results of the inspection. I understand that the results of the lead-based paint inspections and lead hazard control work must be disclosed if the home is sold or leased.

The applicant(s)/owner(s) further agree that Salt Lake County will not be held liable for any damages that may occur as a result of the said inspection and subsequent disclosures.

I have read and agree with the above information regarding lead inspections/risk assessments, clearance testing, disclosure, lead hazard control, and ongoing lead hazard monitoring. The undersigned understands that failure to comply with LSSL requirements may result in repayment, by landlord/ property owner for monies advanced.

WAIVER

The undersigned acknowledges the role of Salt Lake County in connection with LSSL is that of a funding source, and that Salt Lake County is not responsible for the selection, supervision, or performance of firms or persons not employed by County who provide lead abatement and mitigation services at the undersigned's property. The undersigned agrees to release and hold Salt Lake County and its officials, agents, servants, and employees and any of their successors harmless from and against all claims arising from the performance of lead mitigation and abatement services on the undersigned's property, and releases Salt Lake County and its officials, agents, servants, and employees and any of their successors from any such claims. The undersigned understands and agrees that Salt Lake County is an intended beneficiary of undersigned's agreement to waive and release claims as set forth herein and that undersigned's agreement is a condition precedent to the use of funding provided by Salt Lake County.

The undersigned certify under penalty of law that, to the best of their knowledge, all statements made in this application and supporting documentation are true and accurate, correct, and complete.

Homeowner Signature: _____ Date: ____/____/____

Lead Safe Salt Lake Housing Program

LH-1.3

Blood Lead Testing Information

If your house is determined to have lead hazards, the Lead Safe Salt Lake Housing Program (LSSL) will provide blood lead testing for children under the age of 6 (six) before work begins, and again after the work is completed. The test can be done by appointment in the convenience of your home by LSSL. There is no charge for these tests, which consist of a collection of a drop of blood from a pinprick on a finger. The results of these tests will be discussed with the parent/guardian of the tested children.

If the homeowner or other resident of the household is the parent/legal guardian of a child under the age of 6 (six) who is also a resident of the household, they must sign below and indicate whether or not they agree to allow the child or children under 6 (six) years of age to have their blood tested for lead poisoning. There is no cost for this test, which consists of the collection of a drop of blood from a pinprick on a finger.

List Children under the Age of 6 Who Reside in the House

5.					

AUTHORIZATION TO SHARE PERSONALLY IDENTIFIABLE INFORMATION AND BLOOD LEAD POISONING RESULTS

Salt Lake County ("County") will keep any personally identifiable information and blood lead test results confidential and will use the data for legally authorized purposes. County may disclose personally identifiable information and blood lead test results for research and statistical purposes. Under Utah law, County Health Department is required to report all blood lead test results above 10 micrograms per deciliter (mcg/dL) and certain personally identifiable information. County may also share any personally identifiable information and blood lead test results with other public agencies in a confidential manner.

The LSSL program works collaboratively with other programs within County; and public health nurses; nutritionists; educators; epidemiologists and environmental health specialists/sanitarions. The LSSL staff also works with the Utah Department of Health, Utah Department of Environmental Quality, Migrant Head Start Program, and federal agencies such as: Centers for Disease Control and Prevention, Environmental Protection Agency, Housing and Urban Development, and the Agency for Toxic Substances and Disease Registry. Information sharing will be used to document a completed home visit, assess the developmental status, and determine the services needed.

Prior Blood Lead Poisoning Testing:

LH-1.3 Cont.

My child or children under 6 (six) years of age has/have been tested for lead poisoning within the last 6 (six) months:

- Yes No (If yes, please attach a copy of the test results to this contract.)
Test results must be submitted before lead hazard control work can begin.

Agreement to Blood Lead Poisoning Testing (Check One):

- I WOULD like to have my child or children under 6 (six) years of age tested for lead poisoning.
- My child or children under 6 (six) years of age has/have been tested for lead poisoning. I DO NOT WISH to disclose the test results.
- I am aware that the above property may contain lead-based paint hazards and I DO NOT WISH to have any child or children under 6 (six) years of age tested for lead poisoning.
- My child (children) is under one year of age and IS NOT eligible for testing for lead poisoning.

Waiver

Parent/Guardian agrees to release and hold County and its officials, agents, servants, and employees and any of their successors harmless from and against any and all claims arising from the blood tests, and releases County and its officials, agents, servants and employees and any of their successors from any such claims. Parent/Guardian understands and agrees that County is an intended beneficiary of Parent/Guardian's agreement to waive and release claims as set forth herein and that Parent/Guardian's agreement is a condition precedent to the use of funding provided by County.

Program Information

The owner of the property listed above has applied for funding from Salt Lake County ("County") to control lead-based paint in their home/apartment. Your child has been identified as one who visits this home/apartment on a regular basis or for a significant period. Because deteriorating lead-based paint can have significant impact on a young child's development, federal regulations require that we receive your consent to test children under age six for lead poisoning before the lead hazard control work is performed. There is no charge for these tests, which consist of a collection of a drop of blood from a pinprick on a finger. The results of these tests will be discussed with the parent/guardian of the tested children.

List all children under the age of 6 (six) that visit (visit means at least two days a week, at least six hours a week, and at least 60 hours a year):

Radon Gas Testing Release Form

LH-1.5

Radon is a Cancer-Causing, Radioactive Gas

People cannot see, taste or smell radon. But it may be a problem in your home. Radon is estimated to cause many thousands of deaths each year. That's because when you breathe air containing radon, you can get lung cancer. In fact, the Surgeon General has warned that radon is the second leading cause of lung cancer in the United States today. Only smoking causes more lung cancer deaths. **If you smoke and your home has high radon levels, your risk of lung cancer is especially high.**

Radon Can Be Found All Over the U.S.

Radon comes from the natural (radioactive) breakdown of uranium in soil, rock and water and gets into the air you breathe. Radon can be found all over the U.S. It can get into any type of building - homes, offices, and schools - and result in a high indoor radon level. But you and your family are most likely to get your greatest exposure at home, where you spend most of your time.

How Does Radon Get into Your Home?

Radon is a radioactive gas. It comes from the natural decay of uranium that is found in nearly all soils. It typically moves up through the ground to the air above and into your home through cracks and other holes in the foundation. Your home traps radon inside, where it can build up. Any home may have a radon problem. This means new and old homes, well-sealed and drafty homes, and homes with or without basements. Radon from soil gas is the main cause of radon problems. Sometimes radon enters the home through well water. In a small number of homes, the building materials can give off radon, too. However, building materials rarely cause radon problems by themselves.

Radon gets in through:

- Cracks in Solid Floors
- Construction Joints
- Cracks in Walls
- Gaps in Suspended Floors
- Gaps Around Service Pipes
- Cavities Inside Walls
- The Water Supply

You Can Fix a Radon Problem

Radon reduction systems work, and they are not too costly. Some radon reduction systems can reduce radon levels in your home by up to 90%. Even very high levels can be reduced to acceptable levels.

Should You Test for Radon?

Testing is the only way to know if you and your family are at risk from radon. The EPA and the Surgeon General recommend testing all homes below the third floor for radon. The EPA also recommends testing in schools. Testing is inexpensive and easy - it should only take a few minutes of your time. Millions of Americans have already tested their homes for radon (see [How to Test Your Home](#)).

For more information about radon gas, you can go to the State of Utah Radon Gas webpage.

http://www.radon.utah.gov/more_info.htm A radon gas test can be performed as part of the Lead Safe Salt Lake Program Assessment of your home.

ACKNOWLEDGEMENT: Homeowner understands that the LSSL Program's control of test conditions is limited to the actual placement of a testing device. Changes in heating and ventilation may raise or lower radon levels. Inclement weather such as storms or high winds can contribute to unreliable test results. Since radon level can vary greatly from season to season as well as from room to room, this screening measurement only serves to indicate the potential for a radon problem. Changing soil conditions can also affect results from year to year. The test results are only an average of radon concentrations in the area tested during the period the measurement device was exposed. Due to the above variables, together with the fact that the LSSL Program is conducting radon testing as a service and without compensation, Homeowner agrees that the LSSL Program, its agents, employees and inspectors, shall not be liable in any way connected with the radon testing, nor shall they be liable if Homeowner chooses not to have the LSSL Program conduct radon testing, or if Homeowner chooses not to remediate radon gas after the LSSL Program conducts radon testing.

The homeowner chooses to have their home tested for radon gas: (Please answer) Yes _____ No _____

Salt Lake County Adult and Aging Services

2001 S State Street, SLC, UT 84114 385-468-3200

Salt Lake County Adult and Aging Services can provide the following services:

- The **Caregiver Support** program provides information & assistance, free classes, events, support groups, and consultations to all family and informal community caregivers. Unpaid caregivers may also apply for short term respite services.
- The Aging & Adult Services **Ombudsman** supports and protects the rights of people living in long-term care facilities.
- The **Rides for Wellness** program provides rides for adults aged 60 or older with no other means of transportation to vital medical appointments including dialysis, chemotherapy, and others.
- The **Retired and Senior Volunteer Program** (RSVP) works with adults aged 55 or older to strengthen communities by volunteering with community organizations.
- Salt Lake County **Senior Centers** offer opportunities for learning, socializing, volunteering, community engagement, and wellness for participants. Senior Centers are open to people aged 60 or older.
- The **Senior Companion Program** works with volunteers to help frail and isolated older adults age at home rather than in long term care.
- Aging & Adult Services contracts with **Utah Legal Services' Senior Citizen Law Center** for legal assistance to seniors aged 60 and older who live in Salt Lake County. Call (801) 328 - 8891 for assistance.
- **Volunteer Opportunities** provide people of all ages the chance to make a difference in our community. Support a Senior Center, deliver Meals on Wheels, offer friendship to an isolated senior, and more.
- **Health Promotion & Education** offers evidence-based classes to empower participants to stay physically active, manage their chronic conditions, avoid falls, and remain socially connected.
- **Veteran Directed Home & Community Based Services** assists veterans who want to remain in their home, but need skilled home care services, case management, and assistance with activities of daily living.

Servicios para adultos y ancianos del condado de Salt Lake

2001 S State Street, SLC, UT 84114 385-468-3200

Salt Lake County Adult and Aging Services puede proporcionar los siguientes servicios

- Nuestro **Programa de Servicio de Ayuda a la Comunidad** responde preguntas sobre cuestiones relacionadas con el envejecimiento, lo ayudará a inscribirse en nuestros servicios, brinda referencias a otros proveedores de servicios y ayuda con la inscripción, las preguntas y la resolución de problemas del Programa de Seguro de salud para Adultos Mayores.
- El **Servicio de Comidas a Domicilio** ofrece alimentos calientes al mediodía a adultos débiles y aislados de 60 años o más.
- Los **Abuelos Adoptivos** son voluntarios con niños en riesgo en una variedad de entornos en el condado de Salt Lake.
- El programa **Atención de Transición** brinda servicios en el hogar a personas que deseen permanecer en casa.
- El programa **Apoyo al Cuidador** brinda información y asistencia, clases gratuitas, eventos, grupos de apoyo y consultas a todos los cuidadores de la familia e informales de la comunidad. Los cuidadores no remunerados también pueden solicitar servicios de relevo a corto plazo.
- Los **Servicios del Programa de Defensoría** para el Adulto Mayor apoyan y protegen los derechos de las personas que viven en centros de cuidado a largo plazo.
- El programa **Recojo para el Bienestar** ofrece viajes para adultos de 60 años o más sin otro medio de transporte a citas médicas vitales, que incluyen diálisis, quimioterapia y otras.
- El **Programa de Voluntarios Jubilados y Mayores** trabaja con adultos de 55 años o más para fortalecer las comunidades haciendo trabajo voluntario con organizaciones comunitarias.
- Los **Centros Comunitarios para Adultos Mayores** del Condado de Salt Lake ofrecen oportunidades de aprendizaje, socialización, voluntariado, participación comunitaria y bienestar para los participantes. Los Centros comunitarios para Adultos Mayores están abiertos a personas de 60 años o más.
- El **Programa de Compañía para Adultos Mayores** trabaja con voluntarios para ayudar a los adultos mayores débiles y aislados en casa, en lugar de en una atención a largo plazo.
- Los Servicios para el Adulto Mayor trabaja con el **Centro de Servicios Legales para Adultos Mayores de Utah** para brindar asistencia legal a personas mayores de 60 años que viven en el Condado de Salt Lake. Llame al (801) 328 – 8891 para asistencia.
- Las **Oportunidades de Voluntariado** brindan a personas de todas las edades la oportunidad de marcar la diferencia en nuestra comunidad. Apoye a un Centro para Personas Mayores, brinde Servicio de comidas a domicilio, ofrezca amistad a un adulto mayor aislado y mucho más.
- El programa **Promoción de la Salud y Educación** ofrece clases basadas en la evidencia para capacitar a los participantes a mantenerse físicamente activos, manejar sus condiciones crónicas, evitar caídas y mantenerse conectados socialmente.
- Los **Servicios basados en los Veteranos para el Hogar y la Comunidad** ayudan a los veteranos que desean permanecer en sus hogares, pero necesitan servicios de atención domiciliaria especializados, administración de casos y asistencia con las actividades de la vida diaria.
