

Boards and Commissions
Diversity Statement

The Mayor wants to increase the diversity of members on boards and commissions so that as many residents of Salt Lake County are represented as possible. Before making an appointment, he takes into consideration who is already on the board and how the new member(s) would complement the group in terms of skills, knowledge, and diversity.

The questions below ask about diversity on the board. Having this information from the Board Coordinator (BC) makes it easier for the Mayor's Community Outreach Team (MCOT) to advocate on the BC's behalf.

1. What membership requirements should MCOT and the Mayor be aware of for your board that might impact the diversity of its members? For example, some boards require participation of a person in a certain leadership position (such as Mayor or Councilmember) or a certain education background (such as physician or lawyer).

2. We strive for geographic diversity on boards. Please list the total number of board members who live in each County District. (Note: These should reflect home addresses)

County District 1: _____

County District 2: _____

County District 3: _____

County District 4: _____

County District 5: _____

County District 6: _____

3. There are many other types of diversity such as, but not limited to, age, gender, national origin, and ethnicity. How does this applicant (or these applicants) complement the existing make-up of the board?
