2017 COMMUNITY NEEDS ASSESSMENT EXECUTIVE SUMMARY

Salt Lake County awards over \$5 million in federal funding annually through grants aimed to improve communities. To better understand the greatest needs of the residents throughout Salt Lake County and to ensure resources are allocated to address the greatest community needs., Salt Lake County and the division of Community Resources and Development conducted a community needs assessment.

Goals

- Seek input from individual community members, with a focus on those who may have the greatest needs.
- Better understand the needs of the communities throughout Salt Lake County.
- Help inform the allocation of resources to best address the needs of Salt Lake County residents.

Past Federal Funding Allocations

Strategy

Building upon the historic funding decision process of reviewing literature, which included hosting a public needs hearing, and committee review of the Request For Proposals (RFP) process, the following strategies were implemented:

- Expanded literature review of 13 assessments, reports, and research
- Created survey (feedback collected February – April 2017)
 - Designed questions specific to top needs identified in literature review
- Mapping of underserved communities and members of protected classes.
 - Identified priority communities based upon mapping results
 - Midvale, Kearns, Salt Lake City, South Salt Lake
- Implemented additional outreach strategies to seek input from priority communities and through providers that serve protected classes

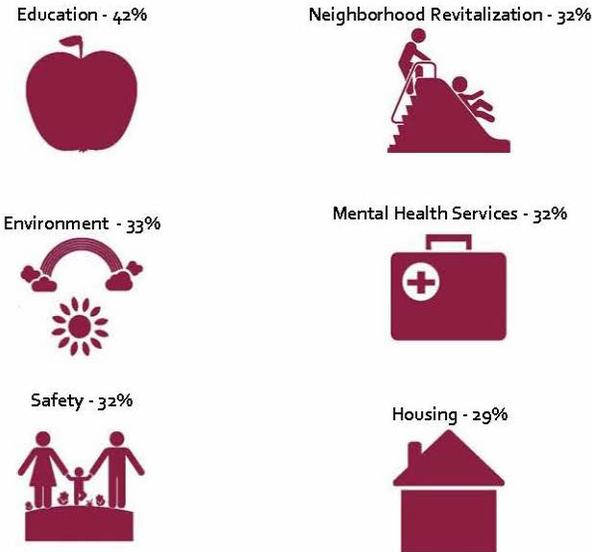

Who Took Survey

870 individuals competed the survey, **representing 90% of Salt Lake County** communities. Of those who competed the survey:

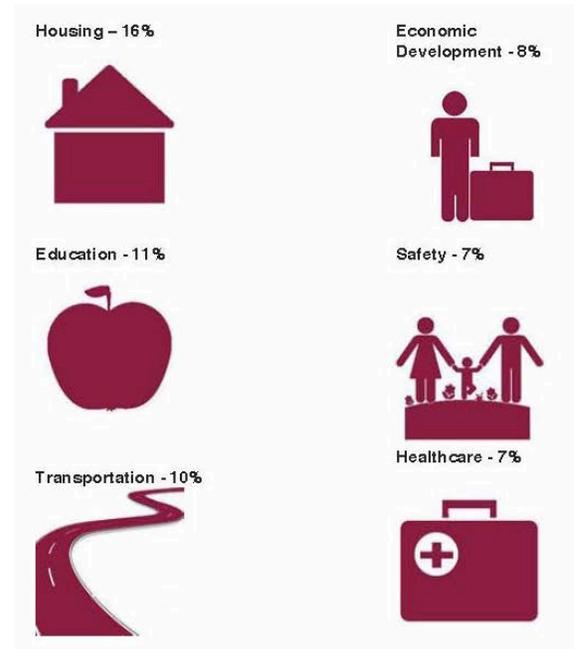

- 11% identified as disabled
- 8% were completed in Spanish
- 7% identified as having served in the United States military

Survey Highlights

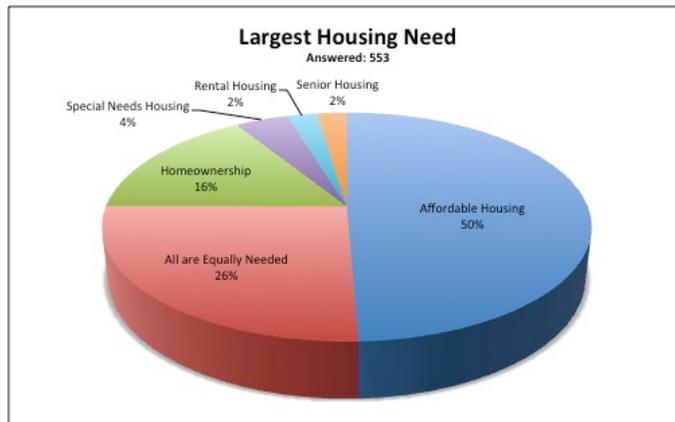

Top Issues: Identified as Needing The MOST Improvement by 869 survey respondents. Respondents selected up to five issues.

Greatest Needs Identified Over Next 5-10 Years by 843 survey respondents.

Housing Needs - 54% of 859 survey respondents indicated that they feel there is a need for additional housing opportunities in their neighborhood.

Conclusions

- **Education** and **Environment** were identified as the top current needs, Countywide.
- **Housing** and **Education** were identified as the top needs in 5-10 years.
- **Safety & Stability** and **Housing** were identified as top needs in the literature review, as well as the survey results.

More information regarding the process and results can be found at www.slco.org/community-resources.

INTRODUCTION

BACKGROUND

Salt Lake County is committed to utilize data and a variety of methods to gather information to identify the most critical need(s) facing our communities. As part of the effort to use resources efficiently and through partnership, the Community Resources & Development (CRD) division conducted a community needs assessment in 2017.

CRD aims to strengthen families and neighborhoods by helping fund organizations that provide essential programs and services to individuals and areas of the county that need them most.

PURPOSE

1. To seek input from individual community members, with a focus on those who may have the greatest needs.
2. To better understand the needs of the communities throughout Salt Lake County.
3. To help inform the allocation of resources to best address the needs of Salt Lake County residents

Past CRD Funding Allocations

During the past five years, Community Development Block Grant (CDBG), HOME Investment Partnership Program (HOME), and Community and Support Services (SSBG & ESG) funding has been allocated to organizations addressing the following issues:

- Housing – 64%
- Infrastructure / Neighborhood Revitalization – 16%
- Safety and Stability - 7%
- Economic Development – 6%
- Access to Crisis Services – 4%
- Legal Services – 2%
- Education – 1%
- Healthcare - 0.2%

Funding Decision Process

Historic:

CRD has incorporated several factors in the decision making process, including:

- Literature review of prior needs assessments
- Public needs hearing
- Responses to request for proposals (RFP) from providers
- RFP review committee input

2017 Additions to the Process:

The following steps were added to the process to make a more comprehensive and informed approach to understand and address community needs:

- Expanded literature review of 13 assessments, reports, and research
 - 2016 Comprehensive Economic Development Strategy
 - Wasatch Choice 2040
 - Utah's Economic Development Plan
 - Partnership for Greater Salt Lake
 - Mayor's Future We Choose
 - Salt Lake County Consortium Consolidated Plan
 - 211 Referral Report (July-Sept 2016)
 - United Way Calls (July-Sept 2016)
 - Fair Housing Equity Assessment and Regional Analysis of Impediments

- Intermountain Health Care Area Deprivation Index
- Pam Perlich Demographic Future Data
- Salt Lake County Housing Moderate Income Housing Plan
- Created on-line survey (feedback collected February – April 2017)
 - Designed questions specific to top needs identified in literature review
 - Transportation
 - Safety/Stability
 - Economic Development
 - Housing
- Mapping of underserved communities and members of protected classes.
 - Underserved
 - Low Opportunity Area
 - Medically Underserved
 - Low Job Access
 - Health Care Shortage
 - Refugees
 - Food Desert
 - Protected Classes
 - Race
 - Color
 - Religion
 - National Origin
 - Gender Identity
 - Sources of Income
 - Familial Status
 - Disability
 - Veteran Status
 - Age
- Identified priority communities based upon mapping results
 - Kearns
 - Midvale
 - Salt Lake City
 - South Salt Lake
- Implemented additional strategies to seek input from priority communities and through providers that serve protected classes:
 - Kearns
 - Religious leaders
 - Midvale
 - Seniors
 - Salt Lake City
 - Community councils & other organizations
 - South Salt Lake
 - Youth & families

Survey Responses

Total # of survey participants: 870

- # of surveys taken in English: 800
- # of surveys taken in Spanish: 70
- # of on-line surveys taken on-line: 737
- # of paper surveys completed: 133

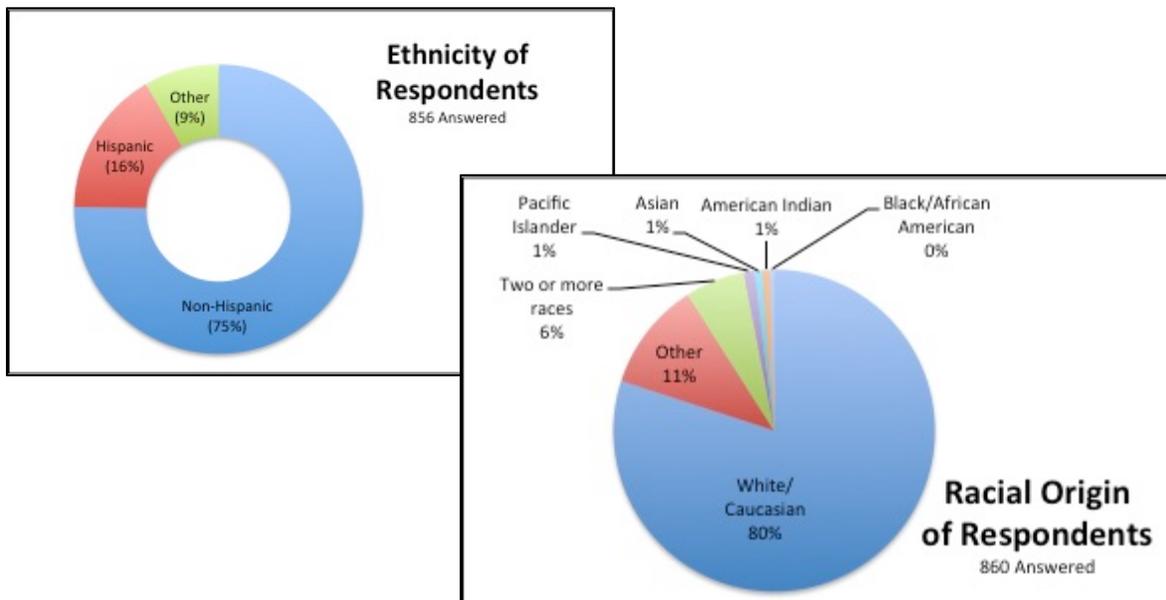

Of the 870 participants from around the county that took the survey, the breakdown of participants based on residency was as follows:

- Salt Lake City - 34%
- West Valley City - 10%
- West Jordan - 7%
- South Salt Lake - 6%
- Magna - 6%
- Kearns - 6%
- Taylorsville - 5%
- Sandy - 5%
- South Jordan - 4%
- Millcreek - 4%
- Holladay - 2%
- Murray - 2%
- Midvale - 2%
- Riverton - 2%
- Copperton - 1%
- Cottonwood Heights - 1%
- Draper - 1%
- Herriman - 1%
- Bluffdale - 0.5%
- White City - 0.12%
- Emigration - 0%
- Alta - 0%

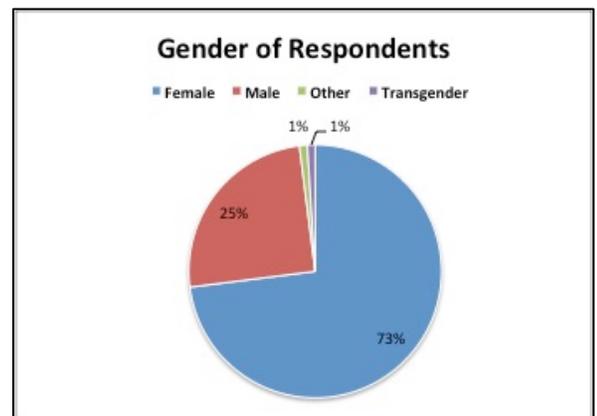

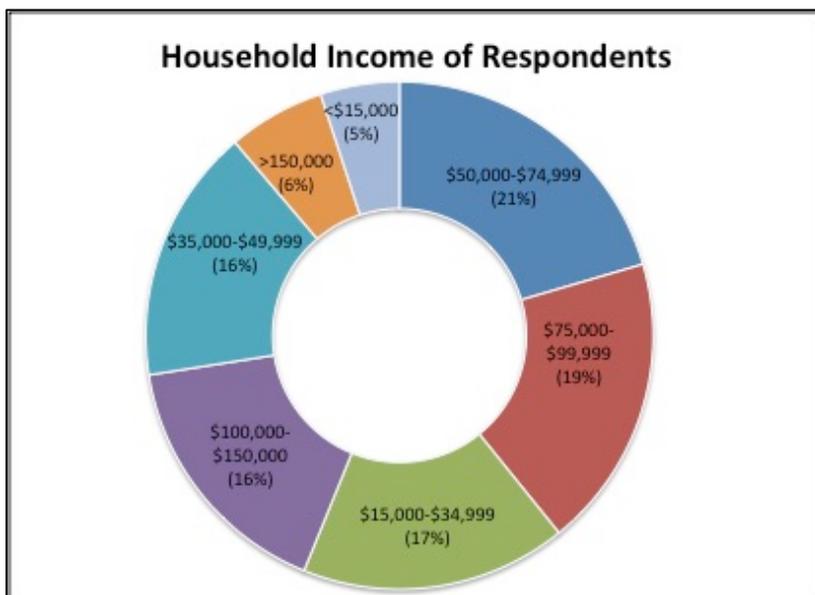

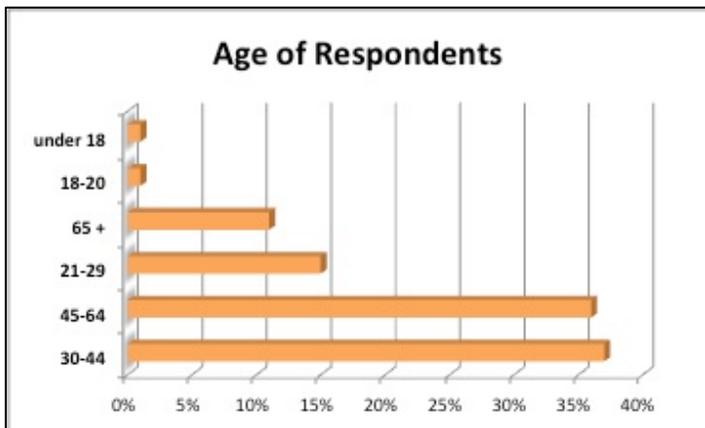

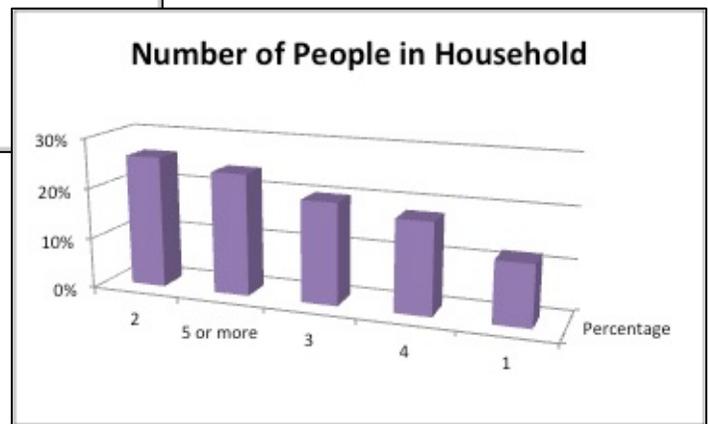

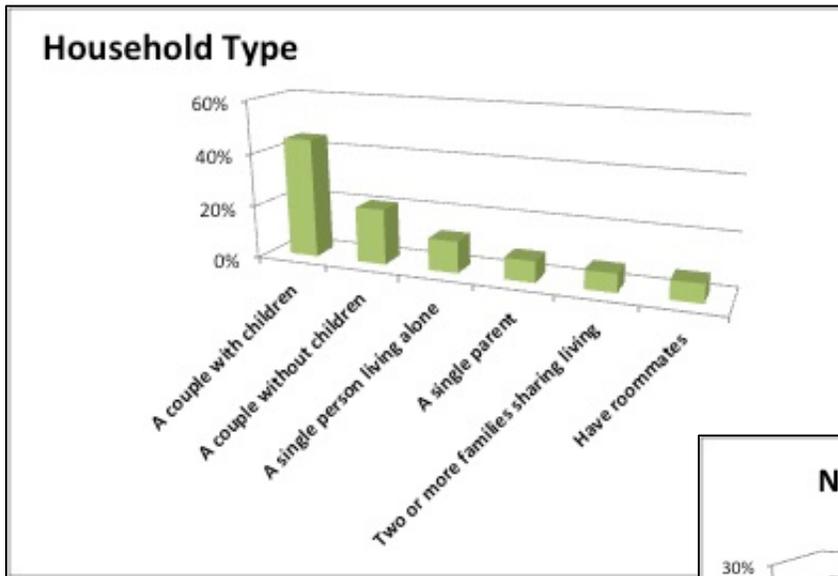

The majority of survey respondents (82%) of the 851 who answered, indicated that they have wanted to change something or address a problem in their community.

- **25%** wanted to address **infrastructure** and **neighborhood revitalization** issues.
- **15%** wanted to address **crime, safety, stability,** and **enforcement** issues

DEMOGRAPHICS OF SURVEY RESPONDENTS

DEMOGRAPHICS OF SURVEY RESPONDENTS (cont.)

SURVEY RESULTS – N=870

Top Issues Identified as Needing The MOST Improvement - The percentage of 869 survey respondents who identified these issues as one of the top needing the most improvement in their community. Respondents selected up to five issues.

Education - 42%

Neighborhood Revitalization - 32%

Environment - 33%

Mental Health Services - 32%

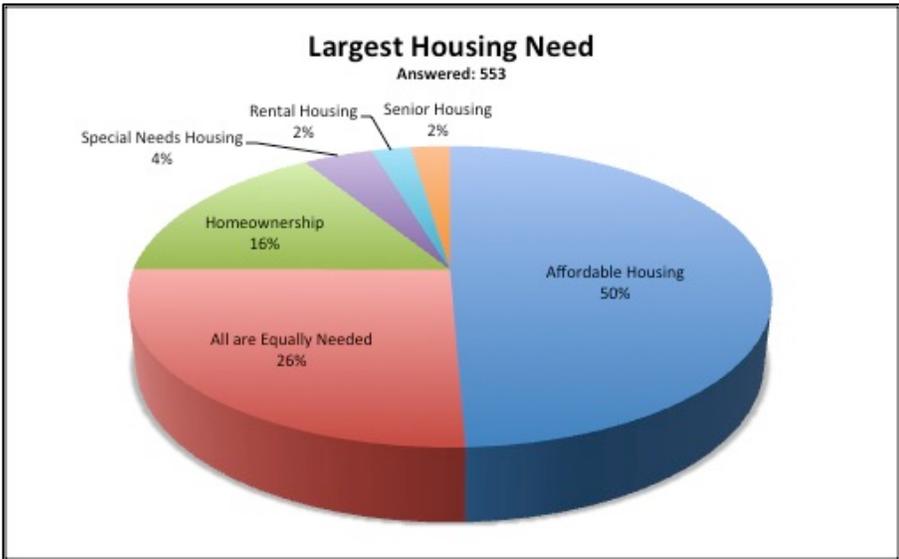

Safety - 32%

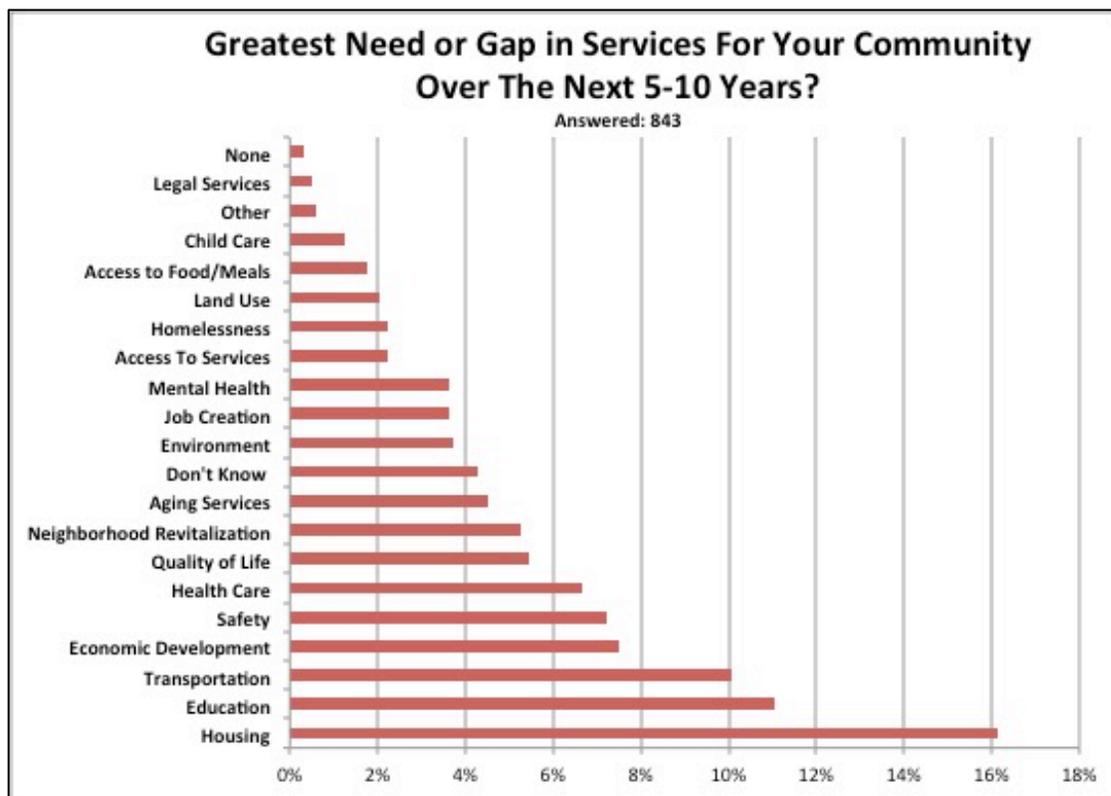

Housing - 29%

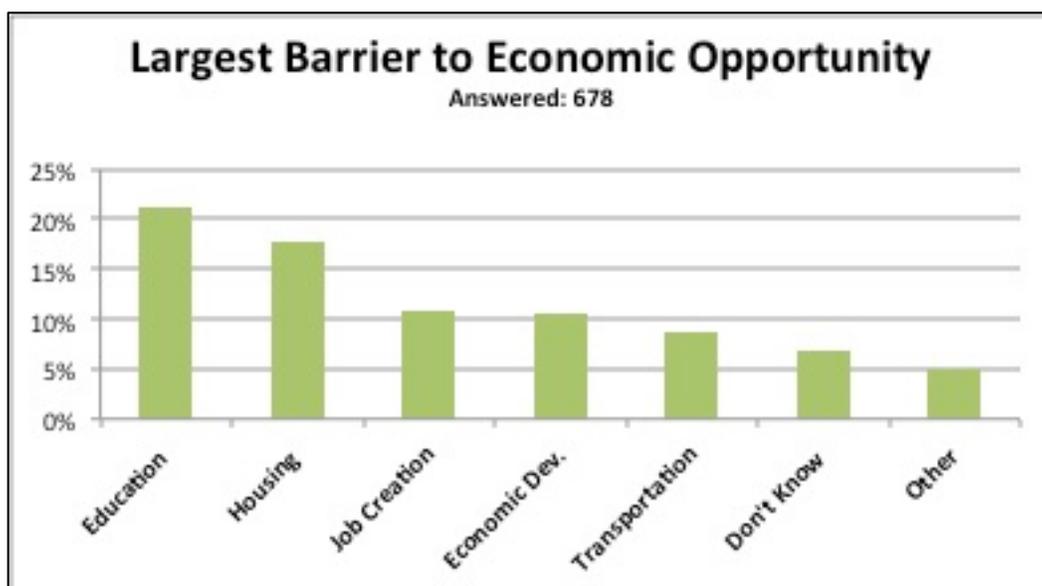

Housing Needs - 54% of 859 survey respondents indicated they thought there **IS A NEED** for more housing opportunities in their neighborhood. Additionally, respondents indicated the **single largest housing need** in their area as affordable housing.

Greatest Community Need in 5-10 Years – 16% of survey respondents identified housing as the greatest need in their community over the next 5-10 years. Education was identified by 11% as the second largest need.

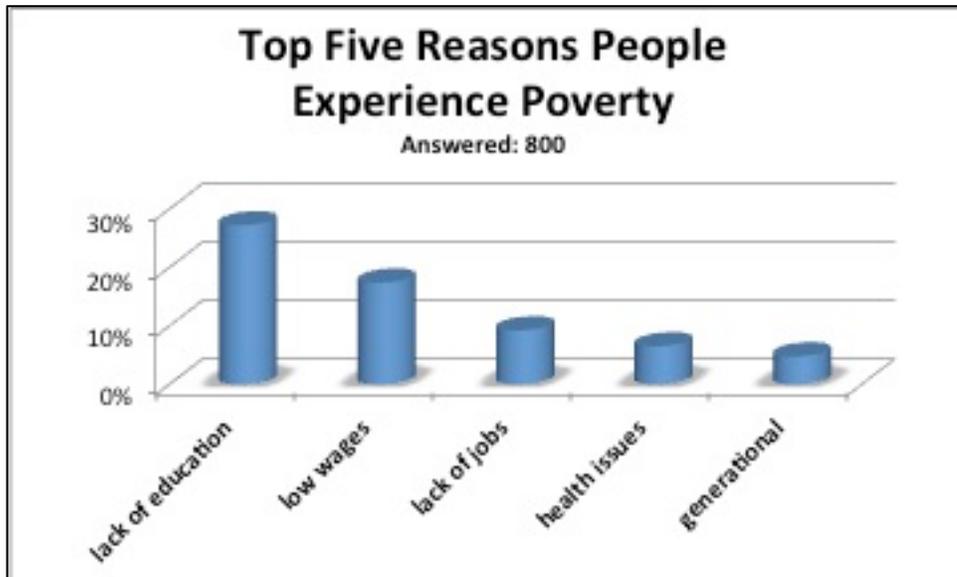

Barrier to Economic Opportunity – Of the 678 respondents that answered this question, **21%** indicated that education is the largest barrier to economic opportunity for residents in their community. **18%** feel that housing is the largest barrier to economic opportunity.

Barrier to Safety and Stability – Of the 668 respondents who answered, **22%** felt indicted that crime is the largest barrier to residents feeling stable and safe in their community.

Top Responses: Barriers to Safety & Stability	Number	Percentage
Crime	169	22%
Lack of Enforcement	86	11%
Homelessness	68	9%
Infrastructure	59	8%
Lack of Housing	48	6%
Not Enough Community Policing	34	4%
None	34	4%
Unsure	24	3%
Education	20	3%
Jobs/Income	28	4%

Reason People Experience Poverty – 27 % of respondents indicated that a lack of education is the single most common reason people experience poverty.

RESULTS: FOCUS COMMUNITIES

To best align with federal funding requirements, four priority communities were identified based upon population of underserved and under represented populations, including protected classes. The communities, and the survey highlights for each are listed below.

Kearns: n= 48

Top Five Greatest Needs –

Percentage of respondents who indicated these issues as one of their top five needing improvement.

Education – 49%

Neighborhood Revitalization – 47%

Safety – 43%

Mental Health – 24%

Economic Development – 24%

Greatest Need Over The Next 5-10 Years -

Percentage of respondents who indicated these issues will be the greatest need in 5-10 years.

Transportation – 16%

Education – 12%

Safety – 12%

Neighborhood Revitalization – 12%

Housing – 10%

Housing Need – 35% of respondents indicated there is a need for more housing in their community. 45% indicated there is not a need for more housing. 20% were unsure.

Of those who feel that more housing is needed, **48% feel affordable housing is the largest housing need in their community.**

"I think the greatest gap will continue to be in school and making more ways for the school to become a place for families to feel comfortable in going and being involved." – Kearns Resident

Midvale: n= 20

Top Five Greatest Needs –

Percentage of respondents who indicated these issues as one of their top five needing improvement.

Education – 45%

Health Care – 35%

Safety – 35%

Environment – 30%

Housing – 25%

Greatest Needs Over The Next 5-10 Years -

Percentage of respondents who indicated these issues will be the greatest need in 5-10 years.

Housing – 22%

Education – 16%

Quality of Life – 11%

Environment – 1%

Health Care – 1%

Housing Need – 50% of respondents indicated there is a need for more housing in their community. 10% indicated there is not a need for more housing. 40% were unsure.

Of those who feel that more housing is needed, **62% feel all types of housing are equally needed** in their community.

"Neighborhood revitalization, especially helping our elderly population in our neighborhood." – Midvale Resident

Salt Lake City: n= 291

Top Five Greatest Needs –

Percentage of respondents who indicated these issues as one of their top five needing improvement.

Housing – 42%

Environment – 42%

Mental Health Care – 38%

Education – 34%

Neighborhood Revitalization – 34%

Greatest Needs Over The Next 5-10 Years -

Percentage of respondents who indicated these issues will be the greatest need in 5-10 years.

Housing – 22%

Safety – 11%

Health Care – 7%

Transportation – 7%

Education – 6%

Housing Need – 70% of respondents indicated there is a need for more housing in their community. 18% indicated there is not a need for more housing. 12% were unsure.

Of those who feel that more housing is needed, **52% feel affordable housing is the top housing need in their community.**

*"Mental health services have been woefully underfunded for years and years. If this doesn't improve then this will be the continued greatest gap and the fall-out from that is tremendous and manifested in many negative effects."
– SLC Resident*

"Keeping housing affordable and creating employment opportunities with living wages for people of all education levels, even as SLC's population continues to grow." – SLC Resident

*"Needs more commercial space, more walkability/bikeability and more emphasis on arts and environmental health."
– SLC Resident*

South Salt Lake: n= 56

Top Five Greatest Needs –
 Percentage of respondents who indicated these issues as one of their top five needing improvement.

Neighborhood Revitalization – 55%

Environment – 50%

Economic Development – 48%

Safety – 43%

Education – 39%

Greatest Needs Over The Next 5-10 Years -
 Percentage of respondents who indicated these issues will be the greatest need in 5-10 years.

Housing – 22%

Economic Development – 15%

Neighborhood Revitalization – 10%

Land Use – 10%

Safety – 8%

Housing Need – 59% of respondents indicated there is a need for more housing in their community. 20% indicated there is not a need for more housing. 21% were unsure.

Of those who feel that more housing is needed, **40%** feel home ownership is the top housing need in their community.

"Affordable housing as our population is growing " – South Salt Lake Resident

CONCLUSIONS

NEEDS OF THE COMMUNITY

- **Education** and **Environment** were identified as the top current need of the survey respondents.
- **Housing** and **Education** were identified as the greatest needs in the next 5-10 years.

Literature Review Compared to Survey Results

While the survey findings reflected some of the findings identified in the literature review, there were also some additional issues identified.

- **Housing** was one of the top needs identified by the literature and survey respondents.
- **Safety & Stability** was identified as a need by the literature review and survey respondents.

Ranking	Literature Review	Survey Results – Current	Survey Results 5-10 years
1	Housing	Education	Housing
2	Economic Development	Environment	Education
3	Stability and Safety	Safety & Stability	Transportation
4	Transportation	Neighborhood Revitalization	Economic Development
5	Economic Independence	Mental Health	Safety & Stability
6	Job Creation	Housing	Health Care

Past CRD Funding Compared to Survey Results

Over the past five years, Salt Lake County has awarded over half of federal funding (CDBG, HOME, Community & Support Services) towards housing issues. This is in line with the needs that were identified by survey respondents; addressing BOTH current needs as well as future needs.

Ranking	Past County Funding	Survey Results Now	Survey Results 5-10 years
1	Housing	Education	Housing
2	Neighborhood Revitalization	Environment	Education
3	Stability and Safety	Safety & Stability	Transportation
4	Economic Development	Neighborhood Revitalization	Economic Development
5	Access to Crisis Services	Mental Health	Safety & Stability
6	Legal Services	Housing	Health Care

RECOMMENDATIONS

- Salt Lake County and other key stakeholders should **consider the findings from this community needs assessment as one piece of an informed strategy** to better understand and address the needs of communities throughout Salt Lake County.
- While the assessment demonstrated that the past and current allocations of funding through Salt Lake County's CRD division have been allocated to address the greatest needs of the community, **a long-term strategy to address future housing, and economic development needs to be considered.**
- Based upon the survey results, a gap in funding exists to address identified mental and health care needs. CRD should **consider allocating additional funding to address immediate and growing mental health and health care needs** among community members.
- CRD should further **examine how existing resources can be leveraged with other Salt Lake County and stakeholder resources to address issues including education, environment, and transportation.**
- Building off of these efforts, **additional outreach to seek community member input should be made** utilizing additional county assets and community volunteers.
- To better coordinate efforts, and in an attempt to increase efficiencies, **an inventory should be created of additional (private and public) funding and other resources available to address the top community needs** identified through this and other efforts.

CONSIDERATIONS

- **Survey Respondents:**
 - The goal was to reach Salt Lake County residents. While the percentage of countywide residents reached is low, we anticipated this due to the outreach efforts being focused towards underserved and under-represented populations.
 - Overall, we were pleased to receive responses from a diverse set of individuals, representing a variety of populations throughout Salt Lake County.
- **Number of Survey Responses From Salt Lake City:**
 - While Salt Lake City represents the largest portion of residents in Salt Lake County, it is still important to note that 34% of survey respondents indicated they were residents of Salt Lake City. According to the US Census Bureau, Salt Lake City residents make up 17% of Salt Lake County's population, which would indicate that Salt Lake City residents are over represented in the survey responses.
- **Homelessness Issues:**
 - Homelessness issues (primarily in Salt Lake City) and the site selection for new homeless resource centers were coming to a head at the time that the survey was released.
- **Legislative Issues:**
 - The survey was administered during the same time as the 2017 Utah legislative session. Survey results mirrored topics that were considered during the legislative session, including education, housing, and the environment.
- **Air Quality/Environmental Issues:**
 - Salt Lake City was experiencing an increased number of "red" quality air days during the time the survey was released.

ABOUT THE SURVEY

Salt Lake County Community Needs: A Literature Review

Authored by: Katherine Fife | Consultant | Philanthropy Matters, LLC. | May 2017

Executive Summary

This review of literature is one component of a comprehensive community needs assessment conducted by the Community Resources & Development (CRD) Division of Salt Lake County. This assessment is an effort to better understand the needs of the community and a demonstration of Salt Lake County's commitment to utilizing data and a variety of methods to gather information to identify, and address, the most critical needs facing our communities. Information gleaned from this review helped to inform the larger needs assessment process and was used to design a survey, which was distributed to Salt Lake County residents, seeking their input regarding community needs.

According to the U.S. Census, Utah's population is rapidly growing, and with that growth comes increasing and evolving needs of residents. As the largest County in the state¹, Salt Lake County needs to be strategic and thoughtful in how community needs are identified and addressed today, and in the future. Several community stakeholders have conducted research, surveys, and engaged in other efforts to better understand the needs of residents of Salt Lake County and to ensure the County, and entire State, are well positioned to meet the needs of its' residents and support the anticipated growth.

A matrix was created to show the issues discussed through the literature review², which find the issues that were identified the most in the literature to include: 1) housing, 2) economic development, 3) stability& safety, and 4) transportation.

This literature review builds upon the work of other organizations and partners, further examines community needs, and helped to create a more comprehensive needs assessment, which was conducted by Salt Lake County. Ultimately, this assessment effort will help inform the strategic direction of Salt Lake County and other stakeholders and partners in allocating resources to best address community issues.

Utah Issues

On both a national and statewide level, there is a focus on furthering the economic development efforts, especially of Tooele, Davis, Morgan, Salt Lake, and Weber Counties, which is referred to as the Wasatch Front Economic Development District³. While the **2016 Comprehensive Economic Strategy** put together by the

¹ U.S. Census Bureau, Vintage 2016 Population Estimates

² See Appendix for matrix of issues

³ According to the Wasatch Front Regional Council, *Comprehensive Economic Development Strategy*, June 2016

Wasatch Front Economic Development District focuses on these four counties, including Salt Lake County, the goals were developed in a strategic way and align with statewide priorities. Issues identified through regional goals include economic development, job creation, entrepreneurship, innovation, transportation, and quality of life.

The Wasatch Front Regional Council, which is comprised of government and nonprofit partners, recently updated the decade old planning effort of **Wasatch Choice 2040**, and published Wasatch Choice 2050, which builds upon a public input process that included thousands. Based upon that community input, Wasatch Choice offers a road map for growth that supports a well-functioning economy, improves air quality, and enhances the overall quality of life for Utahns living across the Wasatch Front. It includes plans for housing, economic development, the environment, stability & safety, transportation, infrastructure, health care, and focuses on regional development.

Governor Gary Herbert released **Utah's Economic Development Plan** in 2010, and as part of the plan, he identified four objectives: job creation, education, entrepreneurship, and innovation. Ultimately, these objectives were created to help achieve the goal to "...lead the nation as the best performing economy and be recognized as a premier global business destination."

Salt Lake County Community Needs

The **2016-17 Salt Lake County Consortium Consolidated Plan** is a comprehensive effort to address the needs of residents throughout Salt Lake County. Not only does it lay out a five-year plan to meet the needs of residents, but it also details how approximately five million dollars in federal funding has been allocated through Community Development Block Grant (CDBG), HOME Investment Partnership Program and Emergency Solutions Grant (ESG) funds. The plan identified housing as one of the greatest needs throughout the County. Other top needs include quality of life, infrastructure, neighborhood revitalization, and economic independence and development. In addition, as part of a nationwide effort, ending homelessness is also an issue that Salt Lake County has committed to address.

Consistent with other research, Salt Lake County's most recent **Moderate Income Housing Plan** projects significant population growth. Completed in August 2016, the plan calls for more affordable housing for the growing population, as well as transportation and other support services and economic opportunity that reduce barriers to housing.

In 2014, the Bureau of Economic and Business Research at the University of Utah, led by James Wood, released the **Regional Analysis of Impediments to Fair Housing Choice: Salt Lake, Utah, Davis, and Weber Counties** report that included the culmination of extensive data collection and analysis of demographics, housing, and economic trends, mapping of community attributes, and the completion of a narrative identifying regional impediments to fair housing choice for each entitlement jurisdiction. While this comprehensive analysis of Salt Lake, Utah, Davis, and Weber Counties was created to provide an understanding of the status of fair housing at the local and regional levels, the information gleaned can be used for purposes beyond housing. The myriad of issues identified as impediments to housing include economic development, transportation, safety & stability, job opportunity, education, access to food and services, health care, and job creation. This information can help inform strategies by jurisdictions, as well as nonprofit and private sectors, to increase opportunity and improve communities throughout Utah.

Research conducted by Pamela Perlich, PhD., confirms the recent and projected population growth throughout Salt Lake County and the state⁴, although that growth as well as housing and demographic changes varies

⁴Perlich, P. S., Young, N. B., Van Noy, E., Mohammed, M., & Hollingshaus, M. (2016).

greatly by neighborhood, as shown by the 2010 Census. In Perlich's ***Salt Lake County Small Area Estimates: 2010-2014*** publication, she concludes that more detailed examination needs to be done, looking at smaller geographic areas throughout Salt Lake County.

In 2014, with an eye towards the future, Salt Lake County put forth a plan to be one of the healthiest places to live in America. The goals of the original ***The Future We Choose*** were to: 1) enhance Salt Lake County's quality of life; 2) facilitate collaborative partnerships to realize regional opportunities; and, 3) deliver excellent customer satisfaction through personalized service. With this plan, Mayor Ben McAdams aimed to enhance Salt Lake County's quality of life by encouraging job growth, increasing educational opportunities, and fostering healthy families. The plan, which was updated in May of 2016, expands on the needs of the community and the County's plan to address those needs and include housing, transportation, innovation, aging, criminal justice, and more.

Additionally, Salt Lake County's Mayor Ben McAdams started an initiative, ***Partnership for a Greater Salt Lake***, in an effort to bring people together from both the public and private sectors to develop common sense solutions to some of our community's biggest challenges. Partnership for a Greater Salt Lake focus areas are: criminal justice, early education, aging population, and regional development.

Partner Data On Community Needs

United Way of Salt Lake tracks all calls and requests for referrals that come in through 2-1-1. During the months of July through September 2016, 850 calls came in seeking a connection with resources. While the needs of those that called were varied, basic needs such as food, housing, utilities, economic independence, etc., were the majority of needs among those who called. Mental health and health care were other issues callers were seeking assistance with. When considering all calls that come into United Way of Salt Lake during that three-month timeframe, housing was the greatest need for callers.

In 2016, **Intermountain Healthcare** published a ***Community Health Needs Assessment***, which was produced to guide a strategy to address significant health needs of adults in their hospital community, includes Salt Lake County. The results of the assessment, which will be reexamined every three years, identified the top priority health needs of the community as: prevention of pre-diabetes, high blood pressure, depression, and prescription opioid misuse. An assessment was also completed for youth, and identified prevention of depression and prescription opioid misuse as the top health needs.

Realizing that income, education, and other economic and social risk factors affect individual health and well-being, as part of the assessment, Intermountain Healthcare created the ***Area Deprivation Index (ADI)***, based upon Utah census data. Considering census data and characteristics of patients living in more deprived neighborhoods, Intermountain is taking a closer look at patient-level risk factors not tracked in clinical information systems and beginning to evaluate condition-specific interventions that may improve the lives, and overall health, of many individuals. Issues considered through this effort include: housing, safety & stability, economic independence, and education.

Salt Lake Community Action Program serves families throughout Salt Lake and Tooele Counties. As part of their federal funding requirements, they conduct a community needs assessment annually. Although a variety of needs were identified through their assessment, the top three needs identified by community members included: 1) health and dental care, 2) housing, and 3) food security.

Conclusion

While a myriad of issues were identified through reviewing recent literature and other efforts regarding the greatest needs of the community, the following issues were identified more often than others:

- 1) housing,
- 2) economic development,
- 3) stability& safety, and
- 4) transportation.

Based upon the literature reviewed, there has been quite a bit of research and analysis done utilizing census and other demographic data. Diving deeper into this data and taking a closer look at the neighborhood level would offer additional insight on specific needs of communities throughout Salt Lake County.

Seeking additional input and feedback from community residents, especially those who reside in areas of high deprivation and those that have been identified as having the greatest potential needs, is another way in which future efforts could be strengthened.

To be most successful, stakeholders need to be aware of existing efforts such as those identified through this review, prior to starting their own research efforts. It is useful to see what other organizations and partners are doing to identify needs.

It is the hope of Salt Lake County that this effort spurs more knowledge and support of partner efforts, identifies opportunities for more strategic partnerships, and encourages well informed, efficient, and consistent efforts to best address the top concerns and greatest needs of communities throughout Salt Lake County, and the entire state.

Media Alert For June 5th Event

MEDIA ADVISORY

Contact: Samantha Sedivec

Salt Lake County, Department of Regional Transportation, Housing & Economic Development

Phone: (385) 468-4866 | Email: ssedivec@slco.org

EVENT: SALT LAKE COUNTY PRESENTS INPUT RECEIVED FROM RESIDENTS REGARDING COMMUNITY NEEDS
Pamela Perlich, Ph.D. to respond to results and share future demographic research findings

WHEN: Monday, June 5th
2001 South State Street
North Building/County Council Chambers, 1st Floor
4:00-6:00pm

WHO: This event is free and open to the public. Residents, providers, and community leaders will be among those who attend.

WHAT: Earlier this year, Salt Lake County's Community Resources & Development Division conducted a community needs assessment to better understand the critical needs facing our communities. The results of this effort will be presented, and the issues Salt Lake County residents identified as needing the most improvement in their community will be presented.

Additionally, **Pamela Perlich, Ph.D., Director of Demographic Research at the Kem C. Gardner Policy Institute, will join us to offer reaction to the needs assessment process and survey results.** She'll also share some of the latest demographic research she and others have conducted, specific to the future of Salt Lake County and Utah.

ADDITIONAL INFORMATION:

Salt Lake County is committed to utilize data and a variety of methods to gather information to identify the most critical needs facing our communities. As part of the effort to use resources efficiently and through partnership, the division conducted a community needs assessment in 2017. The assessment included a survey in which Salt Lake County residents were asked to share their input by taking an on-line survey. Survey results can be found at <https://slco.org/community-resources/community-needs-assessment/>.

The results of the survey will be shared with those who help to award federal funds through several grant programs administered by Salt Lake County. In addition to this event, the results will also be shared with community leaders, stakeholders, etc. Ultimately, this effort builds upon the County's desire to better use resources to address some of our community's biggest challenges.

About The Department of Regional Transportation, Housing & Economic Development

The Department of Regional Transportation, Housing & Economic Development works collaboratively with state and local governments, businesses, and community organizations to accomplish goals today so we can have the future we choose for our families and our home. For more information, visit www.slco.org/regional-development or call (385) 468-4900.

About Pamela Perlich, Ph.D.

Pamela Perlich, Ph.D. is Director of Demographic Research at the Kem C. Gardner Policy Institute at the University of Utah where she leads the newly formed DemographyUTAH Team. In this role, she and her team are responsible for developing and producing population estimates and projections, neighborhood indicators, and demographic analyses focusing on Utah. She has researched, published, and taught on a wide range of topics over the course of her career. Although trained as an economist, she applies a multidisciplinary approach to develop data, modeling, and analysis that identifies ongoing demographic, economic and cultural transformations. The focus of her work is to illuminate these trends and the associated implications for the future, especially as they impact Utah. For more information, visit <http://gardner.utah.edu/> or call (801)581-3358

###

SUMMARY & HIGHLIGHTS

COMMUNITY NEEDS ASSESSMENT 2017 SURVEY RESULTS

Background: Salt Lake County (SLCo) is committed to utilize data and a variety of methods to gather information to identify the most critical needs facing our communities. As part of the effort to use resources efficiently and through partnerships, the Division of Community Resources & Development conducted a community needs assessment in 2017.

Needs Assessment Purpose:

- ▶ To seek input from individual community members, with a focus on those who may have the greatest needs.
- ▶ To better understand the needs of the communities throughout SLCo.
- ▶ To help inform the allocation of resources to best address needs of SLCo residents.

Total # of Survey Participants: 870

Top Issues: Identified as Needing the MOST Improvement by Survey Respondents

Education 	Neighborhood Revitalization 
Environment 	Mental Health Services 
Safety 	Housing 

Looking Ahead: Greatest Needs Identified Over the Next 5 - 10 yrs. by Survey Respondents

Housing 	Economic Development 
Education 	Safety 
Transportation 	Healthcare 

Type of Housing Identified as Needed Most

Affordable Housing - 49%	All Types Equally Important - 26%	Home Ownership - 16%
Special Needs Housing - 4%	Rental Housing - 2%	Senior Housing - 2%

Two-Page Survey Results (cont.)
 Page 2 – A Closer Look at Priority Communities

A CLOSER LOOK 		COMMUNITY NEEDS ASSESSMENT 2017 SURVEY RESULTS RESPONSES FROM 4 PRIORITY COMMUNITIES				
To best align with federal funding requirements, four priority communities were identified based upon population of underserved and under represented populations, including protected classes. The communities, and the survey results are shown below.

Encuesta de Necesidades Comunitarias 2017

Gracias por su tiempo y por su disposición a compartir su valioso aporte.

¿Por qué es importante su aporte?

El Condado de Salt Lake otorga anualmente más de \$5 millones en financiamiento federal a través de subsidios dirigidos a mejorar nuestras comunidades.

Para ayudar a asegurarse de que este financiamiento sea asignado a atacar las necesidades más grandes de la comunidad, el Condado de Salt Lake y la división de Recursos y Desarrollo de la Comunidad buscan el aporte público.

¿Qué es la División de Recursos y Desarrollo de la Comunidad (CRD)?

La CRD por sus siglas en inglés, busca fortalecer a las familias y vecindarios al ayudar a financiar organizaciones que proveen programas y servicios esenciales a los individuos y las áreas del condado que más lo necesitan.

Encuesta de Necesidades Comunitarias 2017

Sección 1: Necesidades de Su Comunidad

Survey – English (cont.)

Section 1: Needs of Your Community

* 1. Where do you live?

- | | | |
|--|--------------------------------------|--|
| <input type="radio"/> Alta | <input type="radio"/> Midvale | <input type="radio"/> South Jordan |
| <input type="radio"/> Bluffdale | <input type="radio"/> Millcreek | <input type="radio"/> South Salt Lake |
| <input type="radio"/> Cottonwood Heights | <input type="radio"/> Murray | <input type="radio"/> Taylorsville |
| <input type="radio"/> Herriman | <input type="radio"/> Riverton | <input type="radio"/> West Jordan |
| <input type="radio"/> Holladay | <input type="radio"/> Salt Lake City | <input type="radio"/> West Valley City |
| <input type="radio"/> Kearns | <input type="radio"/> Sandy | <input type="radio"/> Draper |

2. Have you ever wanted to change something or address a problem in your community?

- Yes
 No

3. If yes, what was the issue?

* 4. Which of the following do you think needs the MOST improvement in your local community? (Select up to 5).

- | | | |
|--|--|--|
| <input type="checkbox"/> Access to crisis services | <input type="checkbox"/> Housing | <input type="checkbox"/> Safety |
| <input type="checkbox"/> Access to food/meals | <input type="checkbox"/> Job creation | <input type="checkbox"/> Services for aging population |
| <input type="checkbox"/> Economic development | <input type="checkbox"/> Legal services | <input type="checkbox"/> Transportation |
| <input type="checkbox"/> Education | <input type="checkbox"/> Mental health services | <input type="checkbox"/> None of these |
| <input type="checkbox"/> Environment | <input type="checkbox"/> Neighborhood revitalization | <input type="checkbox"/> Don't know |
| <input type="checkbox"/> Health care | <input type="checkbox"/> Quality of life | |
| <input type="checkbox"/> Other (please specify) | | |

5. What is the largest barrier to economic opportunity for residents in your community?

Survey – English (cont.)

6. What is the largest barrier to transportation for residents in your community?

7. What is the largest barrier to residents feeling stable and safe in your community?

8. Do you think there is a need for more housing opportunities for residents in your neighborhood?

- Yes
 No
 Unsure

9. If you answered yes above, in your neighborhood, what is the *single largest need*?

- Affordable housing
 Rental housing
 Homeownership
 Senior housing
 Special needs housing
 All are equally needed

10. What do you think is the *single most common* reason people experience poverty?

* 11. What is your *single greatest need* that is not currently being address in your community?

Survey – English (cont.)

- * 12. What do you think will be the greatest need or gap in services for your community over the next 5-10 years?

Section 2: Tell Us About You

- * 13. How would you describe your household? Are you:

- A couple with children Have roommates
 A couple without children A single person living alone
 A single parent Two or more families sharing living quarters

14. How many people currently live in your household?

- 1 4
 2 5 or more
 3

- * 15. What is the total yearly income of your household, from all sources?

- <\$15,000 \$50,000-\$74,999 >150,000
 \$15,000-\$34,999 \$75,000-\$99,999
 \$35,000-\$49,999 \$100,000-\$150,000

- * 16. What is your current age?

- under 18 30-44 65 +
 18-20 45-64

- * 17. Do you identify as:

- Male Female Transgender
 Other (please specify)

Survey – English (cont.)

* 18. Do you consider yourself to be disabled? (e.g. you have a physical, sensory, or mental impairment which has substantial and long-term adverse effect on your ability to carry out normal day-to-day activities.)

- Yes
 No

* 19. How would you describe your racial origin?

- White/Caucasian Asian American Indian
 Black/African American Pacific Islander Two or more races
 Other (please specify)

* 20. How would you describe your ethnicity?

- Hispanic Non-Hispanic
 Other (please specify)

21. What is your religion or belief?

- The Church of Jesus Christ of Latter-day Saints Evangelical Protestant
 Baptist Jewish Unaffiliated
 Buddhist Methodist Agnostic/atheist
 Catholic Muslim
 Other (please specify)

22. How would you describe your sexual orientation?

- Heterosexual Lesbian or Gay Bisexual
 Other (please specify)

Survey – English (cont.)

* 23. Have you served in the United States military?

Yes

No

2017 Community Needs Survey

Thank you again for your time, and your willingness to share your valuable input.

The findings of this survey will be shared with community leaders and nonprofits, to help best address the needs of communities throughout Salt Lake County.

| <input type="radio"/> Holladay | <input type="radio"/> Salt Lake City | <input type="radio"/> West Valley City |
| <input type="radio"/> Kearns | <input type="radio"/> Sandy | <input type="radio"/> Draper |

2. ¿Ha deseado alguna vez cambiar algo o abordar algún problema en su comunidad?

- Sí
- No

3. Si respondió sí, ¿cuál era el problema?

* 4. ¿Cuál de los siguientes considera usted que necesita el MAYOR mejoramiento en su comunidad local? (Seleccione hasta 5).

- | | | |
|---|--|--|
| <input type="checkbox"/> Acceso a servicios de crisis | <input type="checkbox"/> Viviendas | <input type="checkbox"/> Seguridad |
| <input type="checkbox"/> Acceso a alimentos/comidas | <input type="checkbox"/> Creación de empleos | <input type="checkbox"/> Servicios para la población anciana |
| <input type="checkbox"/> Desarrollo económico | <input type="checkbox"/> Servicios legales | <input type="checkbox"/> Transporte |
| <input type="checkbox"/> Educación | <input type="checkbox"/> Servicios de salud mental | <input type="checkbox"/> Ninguno de éstos |
| <input type="checkbox"/> Ambiente | <input type="checkbox"/> Revitalización de vecindarios | <input type="checkbox"/> No lo sé |
| <input type="checkbox"/> Atención médica | <input type="checkbox"/> Calidad de vida | |
| <input type="checkbox"/> Otros (favor especificar) | | |

5. ¿Cuál es el mayor obstáculo para las oportunidades económicas de los residentes de su comunidad?

Survey – Spanish (cont.)

6. ¿Cuál es el mayor obstáculo para el transporte de los residentes de su comunidad?

7. ¿Cuál es el mayor obstáculo para que los residentes de su comunidad se sientan estables y seguros?

8. ¿Piensa usted que se necesitan mayores oportunidades de vivienda para los residentes de su vecindario?

- Sí
- No
- No estoy seguro(a)

9. Si respondió que sí, ¿cuál es la más grande necesidad en su vecindario?

- Viviendas económicas
- Viviendas para alquilar
- Vivienda propia
- Viviendas para los ancianos
- Viviendas para necesidades especiales
- Todas se necesitan por igual

10. ¿Qué piensa usted sea la mayor y más común razón de que la gente experimente pobreza?

* 11. ¿Cuál es su mayor y más grande necesidad que no se esté abordando actualmente en su comunidad?

Survey – Spanish (cont.)

- * 12. ¿Cuál piensa usted que será la más grande necesidad o brecha en los servicios para su comunidad en los próximos 5-10 años?

Sección 2: Háblenos de Usted

- * 13. ¿Cómo describiría usted su unidad familiar? Es usted: 2

- Una pareja con niños Tener compañeros
 Una pareja sin hijos Una sola persona que vive sola
 Un padre soltero Dos o más familias comparten habitación

14. ¿Cuántas personas viven actualmente en su hogar?

- 1 4
 2 5 o mas
 3

- * 15. ¿Cuál es el ingreso total anual de su unidad familiar, de todas las fuentes?

- <\$15,000 \$50,000-\$74,999 >\$150,000
 \$15,000-\$34,999 \$75,000-\$99,000
 \$35,000-\$49,999 \$100,00-\$150,000

- * 16. ¿Qué edad tiene usted actualmente?

- menor de 18 30-44 65 +
 18-20 45-64

- * 17. ¿Se identifica usted como:

- Masculino Femenino Transgénero
 Otro (favor especificar)

Survey – Spanish (cont.)

* 18. ¿Se considera usted discapacitado? (ej. tiene un impedimento físico, sensorial o mental con efectos adversos sustanciales y a largo plazo en su habilidad para llevar a cabo actividades normales del día a día.)

Sí

No

* 19. ¿Cómo describiría usted su origen racial?

Blanco/Caucásico

Asiático

Indio Americano

Negro/Afroamericano

Isleño del Pacífico

De dos o más razas

Otro (favor especificar)

* 20. ¿Cómo describiría usted su etnia?

Hispano

No-Hispano

Otro (favor especificar)

21. ¿Cuál es su religión o creencia?

La Iglesia de Jesucristo de los Santos de los Últimos Días

Evangélico

Protestante

Judío

Sin afiliación

Bautista

Metodista

Agnóstico/ateo

Budista

Musulmán

Católico

Otro (favor especificar)

Open Ended Question Responses

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Bluffdale	doesn't seem to be one...	distance from uta	not much of one	money management	helping people learn financial literacy - I know several that live month to month because they don't understand how not to.	same
Bluffdale	Jobs	for older residents there is almost none once they don't drive.	Income to pay the bills	lack of jobs, good paying jobs, more training needed in trades	keeping bluffdale horse friendly - linked trail systems	senior services
Bluffdale	We have no retail ie grocery stores	There is no public transportation out here	Lack of sidewalks on 14600 on the south side east of Jordan river and there are none at all on the north.	Lack of education	Lack of any kind of activities for kids. No library, nothing	Unsure
Bluffdale	Transportation	Lack of reliable transportation options, even a frequent bus to front runner would do a lot!	Don't know	Lack of gainful employment and a living wage	Affordable Housing	Transportation
Copperton	There are no businesses in Copperton that contribute services for our township.	There is no access to public transportation at all. As adults, if we don't have a vehicle then we are stuck. The walk to the closest bus or trax station is too dangerous. For kids there's only a park to enjoy in town. There's no public transportation or programs for tweens and teens in town.	Because we are further out of "town" and have a number of low cost housing, we have had a problem with drug dealers and thieves.	Lack of support in the form of family, friends or services.	Access to public transportation	Public transportation access
Copperton	Low salaries	No mass transit close. UTA used to have buses come here but they do not any longer.	Rising crime--mostly drugs.	Low paying jobs.	Good paying jobs	Healthcare/wages
Copperton	Intergenerational poverty		Drug use	Lack of education	Lack of access to affordable dental care	Income disparity
Copperton	access to jobs	no UTA service	unwanted growth surrounding the community	stable daycare, housing, and transportation = access to jobs	stable community budget MSD	Development regulations and protection
Copperton	most of the community consists of housing. You have to drive longer distances to get to stores, and there isn't much commercial space available for small businesses.	UTA only runs every 1/2 hour or 45 minutes, unless it's a ski bus. It takes just as long to drive to the Trax station from my house as it does to actually drive to work.	the rising drug problem and crime.	lack of access to good PK-12 education	housing that goes on the market is purchased by people that flip the homes for profits. This prevents families that truly want to live in the neighborhood from being able to afford a home. Then, these homes turn into rentals, and yards aren't kept up, thus decreasing neighborhood values.	affordable housing
Copperton				too big families	dont have one	blight

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Copperton	Not many barriers	UTA	Not much. Safety is good		Air quality	Air quality
Copperton	I've no idea.	Is UTA service adequate to connect to other parts of the valley?	Unsure	Unsure - probably lack of training for increasingly technical jobs, and perhaps unwillingness to do "menial" service work. Also mental health issues and drug dependence.	I think lack of health care, which breeds all manner of other problems for those not covered.	Given the record of the current Trump Administration and Congress' first 2 months, I think health care, and MANY other city, county, and state services previously provided, will be decimated or cut completely.
Copperton	In my community, I think it is affordable housing. Rent has increased tremendously and housing for ownership also has very high rates. Hard to have affordable housing in our community as well as everywhere in the county.	Lack of bus routes. To ride the bus, you often have to transfer 3 or 4 times to get where you need to go. Seniors have trouble accessing bus services or medically needed bus service.	Health insurance--inability to get health insurance and high rates of medical services and insurance.	Intergenerational poverty	Rental rates	Services for Seniors--already an issue but will get worse in the next 5-10 years.
Copperton	Access to healthcare and education	Many roads have fallen into disrepair, but when construction comes, it's not quick and becomes just as inconvenient and as big of a barrier as the pothole filled roads were to begin with.	I don't know about other families, but it seems we are just one paycheck away from homelessness or away from not being able to afford life saving medications	Healthcare related expenditures	Healthcare costs	Healthcare cost increases, esp in insurance premiums and prescription drugs.
Copperton	Access to loan capital, navigating regulations, education.	Public transit lines are limited from cottonwood heights to SLC. People don't use it because it's not accessible.	I think overall residents in my neighborhood are safe and stable.	It's generational and in many cases it's because they can't meet basic needs before you can find ways to move out of poverty.	Walkable space	Public transit and affordable housing
Cottonwood Heights	cost of housing, cost of everything	public transportation is not convenient	cost of everything including taxes	lack of education and drug addiction	drug addiction	drug rehab
Cottonwood Heights	High price of housing	Reliable times to get places. Too far East to really use TRAX system	Lack of enough Police for the large area and dense housing areas	The wages in Utah do not equal the cost of living including homes and apartments	Affordable Housing	Low wages and Affordable Housing
Cottonwood Heights	Lack of training and education for workers	Public transit is failing to provide for the needs of people.	Property theft and lack of room in the county jail to hold misdemeanor offenders.	Education	Transportation issues seem to be slow to be addressed.	Housing and open space retention.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Cottonwood Heights	in the winter its definitely snow plows on more side streets where older people live. my street barely ever gets plowed till late in the night after a snowstorm has passed	i work in american fork and i could definitely use a better way to get to my work... they supply a shuttle bus but only from 8am-430pm and i usually work 530am-200pm....driving from cottonwood height to american fork is alot of gas money but i work in af	i always feel safer if i see more cops around so any of that would be better....	i am a single mom raising 3 of my kids and raising my infant neice but i am living with my parents right now bcoz i cant afford to rent and pay for babysitter... i think for me is pricing on rent is going up and gas is going up... but right now i know there r some people that are honestly trying to be good decent people but not making it on their own but then we got lazy people that just want free everything on a silver platter. my thing is if people can show you their working and doing there best those are the people that the government should help because that is the people that are not going to stay on it long term.	to help those people that are caring for their relatives and there needs to be more activities that they can bring these children that some have gone thru so much trama and are trying to have a better. life.....i am currently guardian over my neice that is 18 months old and i am a single mom with 3 kids under 9 and i wish their was more activities that i could take my kids to... i already try and do alot of activities with them but i think if there was more group stuff i could meet more people in my situation with a infant that was born on drugs that is supper hyper and that doesnt act like a calm baby she is also gluten free and dairy free so that right there if i could get more ideas of how to help her in that way that would be so helpful for her.	to help with grandfamilies and support them more. they have helped me over the years.. but they had their limits on how to answer some question about infant needs so if you could help support them...they will be able to support us further.
Draper	Lack of mental health resources and addiction accessible services.	Not enough buses, or access to traxx . You need a car to live and get around easily.	Affordable Housing, accessible and free mental health services, educational opportunities,	Mental health and addiction are hand in hand and they both need to be treated for free and offered affordable housing that is kept up, clean, and safe.	Homeless/ seems they have mental health issues.	Homeless, mental health, affordable housing. Rest homes can offer free or reduced rent to college students (qualified w background checks), they need to spend 5-7 hours a week with residents. It will help both quality of life of rest hm residence and students.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Draper		Bus schedules.		Income wages	Social & community activities for singles 50 & older.	Increase in wages. Senior Housing. Special Needs Housing. Affordable Housing. Headstart Program. Community Center.
Draper			Development	Lack of good paying jobs for non college educates people	Frontrunner UTA putting their station directly behind homes.	Neighborhoods being surrounded by businesses
Draper				High cost of living & generational poverty	Preservation of open spaces (too much development) and lack of community/county recreation center	Education, Mental health services, and aging population services
Draper	Next to no supportive housing options	This is a diminishing concern as services have continued to expand and improve.	Fear of loosing current supportive services since these are not receiving supportive funding from HUD.	Histories of trauma that have often led to addictions that impair preparations for the present and future. Breaking out of this cycle requires desire and support.	Funding for supportive housing for those who are desirous of breaking out of their poverty cycle.	This will continue to be a need unless addressed, supported, and funded at higher levels.
Draper		Bus routes being unclear and very complicated to review. More people would take the bus and tracks if it wasn't so complicated to plan.	Being educated that sexual predators and most likely people you know. NOT some stranger on the street that looks shady. Education about who commits crimes and opening that conversation.	Mental illness. The waiting list to get in with a Pyschiatrist is sometimes months out. Also, access to healthcare so they can get the help they need.	Education opportunities about the political process and how citizens can get more engaged.	Sexual abuse, Rape, Domestic Violence and Trauma. The funding to 1. Help victims and 2. To prevent the incidents from occurring needs to therapy increase. The conversations need to happen and not sweep this huge issue under the rug because it is "uncomfortable to talk about."
Draper	Lack of diversity	Non stop road work. Ripping up the same roads over and over again.	Drug rehab companies buying residences and converting them.	Drug addiction	Unsafe and busy streets with no sidewalks.	Overcrowding
Draper	Transportation	It just is not out this far. Para transit does not come this far. This is critical for the disabled community	I feel safe	For us medical problems..loss of job hours & Pay. Need new work skill, loss of transport. It's a cascade...	Affordable housing. There are developments everywhere. No affordable ones.	Transportation. Lots of housing complexes with little public transportation

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Draper	Lack of skill or education	Personal funds		Lack of education	Mental health/drug abuse	Not sure
Draper	Clean air	Overdevelopment	None	Lack of education	Deal w traffic	Transportation
Herriman	Lack of experience of the local representation	money and inter-local cooperation	High property taxes (we are thinking of moving...probably out of state, certainly out of Salt Lake County)	Lack of interest/support by government officials.	Experienced planning for growth.	don't know what you mean by gap in services....
Herriman	Lack of retail services in Herriman	Lack of access/egress roads in Rosecrest development	Low visibility of police presence	Lack of jobs	Unknown	Lack of retail in area
Herriman		distance from key hubs		mental health,	lack of infrastructure	overcrowding, lack of infrastructure
Herriman			Need for more police to investigate home robberies and traffic violations like running red lights		transportation due to growth	police
Herriman	Bad schools, not good at all. I dont see barriers for older people.			Bad addiction, cigarettes, drugs and alcohol	Dog and cats going to bathroom anywhere and people hiding the poop under the snow and NEVER cleaning after. I cannot open my balcony since flies will enter after ve been on dogs waste, is disgusting, I live in ex farmgate Apts.	The road in 11400 south from 6000 south goin down to day reak is bad. More law enforcement. More sexual education in high schools, std and hiv education as well.
Herriman	Our property taxes are very high.	We live far west of I-15.	Lower income residents are moving in with the addition of multifamily dwellings.	A hardship, such as a health crisis, robs people of their financial security.	My neighbors and I would like to see the expansion of secondary water resources to our area of Herriman.	Lack of quality education. Herriman has many young residents who will be attending public schools.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Herriman	Most business is fast food. Not sure why Herriman stopped plans to build the large shopping area that had been advertised approx. six to seven years ago.	No public transportation. No bus routes etc. Road always busy.	People speeding on roads in residential areas.	Benefits are too easily obtainable through government. Why work if you can live off the government/tax payers. Have learned how to cheat the system. Need to limit time to be on any system. Make them work for their keep.	Funding for more schools. We don't need elaborate schools, just safe places to learn. Majority of kids have zero respect for anything, they will just trash it. Safe and clean is all they need. Pay the good teachers more. A bonus program based on parent and student feedback.	Shortage of schools.
Herriman	Low quality education. Low-paid teachers. High classroom numbers.	Streets not planned for long-term. An example is the Mountain View Corridor which continues to add more traffic lights instead of off-ramps in-between existing lights. The West side of the valley is already lacking access to I-15 and I-215.	Too little police presence.	Grew up in poverty; lack of education	Education	Education and well planned roadways
Herriman	Unsure	It would be nice if Trax (red line) extended further south.	I believe that the continuing development of low income housing will bring more crime.	Job loss	Unsure	Unsure
Holladay				Disabilities	equal opportunity - retention of "Middle Class"	Ability to live affordably, inclusion (of everyone different from the "Norm" - white, heterosexual, mormon)
Holladay	High cost of higher education, and not enough jobs for college grads.	Too few stops for buses. No easy access to Trax.	Shared police jurisdiction with neighboring communities. Home/property theft.	Lack of education	Job development	Increase in environmental strains, such as clean air and water.
Holladay	Not sure	Probably in OK shape.	I think crime is on the rise.	Probably education	Not sure	Safety

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Holladay	Education	Lack of light rail		Lack of proper education and educational opportunity. This is a good public school system with no vouchers or other money grabbing schemes to deplete public education	Grants for entrepreneurship and business development	Strong public schools
Holladay	The ability for immigrants and refugees to apply their current or willing to be train skills in meal preparation to be come restaurant entrepreneurs, and/or provide meals through government funding to feed other refugees/immigrants a meal they enjoy from their cultural background.			Job loss	The opportunities for immigrants and refugees to flourish when their cooking skills can be utilized for feeding their culture and provide a new cuisine to the Salt Lake County communities.	The greatest need would be to expand the opportunities for training in entrepreneurship in the State of Utah and Salt Lake County for immigrants. This will help aid their placement in the coming years to be citizens of this country because they have a skill that can be recognized.
Holladay	Citizens resistance to change.	Lack of convenient scheduling.f	Fear and lack of positive communication.		Housing for people who need to move out of their homes and into quality 1 level residences in locations that are walkable.	Housing, medical care, entertainment and shopping located in convenient and attractive neighborhoods.
Holladay	Failure to produce 'good' jobs in sufficient numbers	No large barriers	No large barriers	Loss of hope that the future will bring meaningful opportunity and stable progress toward a better quality of life... people give up	Education funding	Education
Holladay	Wedges	Not enough public transportation and rout don't run long enough.	Low Incomes and rent prices are too high for a safe area.		Affordable housing.	Mental health care.
Holladay	its expensive to live here	not enough public transit	none	education	affordable housing	not sure

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Holladay	Diversity of Housing Options	Bus lines are not used		Education	Diversity in recreation opportunities	Transportation access and road maintenance
Holladay	Financial Literacy	money	unknown. I feel very safe here	financial literacy and low wages	Support for children not in their natural homes	educating our children in healthy coping skills and embracing cultures and diversity
Holladay	Costs of living (basic necessities).	Proximity to public transportation.	Street lighting. Basic improvements and/or maintenance to housing.	Housing rental rates are too high, and continue to increase.	More affordable housing.	Unsure.
Holladay	Funding	Road Maintenance	Crime - Drugs	Poor planning. Lack of saving. "I want it now attitude".	Strengthening Families - Most homes have both parents who need to work to pay their bills	Road maintenance - Redevelopment as communities go for older to younger homeowners
Holladay	Housing costs	Lack of bus routes	Lack of police service	Lack of decent paying jobs	Money disparity	Same
Holladay	income class segregation, community doesn't embrace lower middle class residents	public transportation schedule (no late buses) and fare	not sure	not enough opportunity to learn a trade relying on government assistance programs that urge you to obtain employment, but, when you start receiving an income they decrease your benefits so you continue struggling and have an inability to begin saving an emergency fund so as not to need government assistance should a hard time fall on the family in the future	emergency food resource, jobs	primary schools (k-12) need to adjust to students' needs and individual learning set backs, they also need to make extracurricular activities more accessible to lower income students

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Holladay	Poverty	Senior transport	Increased traffic from development	Wages haven't kept up with inflation	Food insecurity	Open space
Holladay	Many low income throughout high income	Sidewalks	Ease of getting around	Medical bills. Long term illness	Helping people from after crisis to self sufficiency	New shops that are expensive, need a blend of price ranges
Holladay	There are no stores, mall has been gone for years	there isn't any	cost of housing	lack of high paying jobs	no retail, no grocery, too many people	affordable housing
Holladay	Taxes and lack of government help.	Not having enough	thievery	Job loss, medical expenses, addiction	Community programs	Affordable senior care
Holladay				Not enough education, cost of living vs. Job pay	Poverty	Jobs
Kearns				under paid.	clean air	home ownership
Kearns		Bus needs to go down 6200 S to 5600 W to all the way down to airport and factories	Feel safe	Lac of education Parents stuck, need motivation	Affordable child activities	Streets crowded
Kearns	Money	?	Domestic violence or any violence	Education, job opportunities	Housing	Housing, public safety
Kearns	Access to retail	Road conditions and access to retail. The bus does not stop at store for old fokes	Speeding traffic in residential areas. Hand out tickets, please before someone gets hurt or killed	Opportunity, fair pay.	Maintenance, signs, street lighting	Upkeep
Kearns	lower quality of education in public schools leading to lack of opportunity for higher education	None	Lack of police presence, as well as economic opportunity	lack of opportunities/education for jobs that pay enough to support a family	poverty as a result of poor education opportunities	education

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Kearns	Apartment complexes popping up everywhere, leaving no room for businesses or road wide enough to accommodate the increase in traffic. That or the ridiculously large amount of money a business has to shell out for a county business license and taxes.	Either the potholes or all of the stupid projects putting barriers in the roads in strange places to, I guess, make things prettier for the new residents in the ridiculously large apartment complexes.	All of the newly approved apartment complexes.	They are taxed to death to pay for new curbs that line the pothole filled roads.	Did I mention the stupid potholes?	An escape from the county government and their silly spending habits.
Kearns	Housing costs	N/A	Gangs, poverty	Lack of higher education	N/A	Aging services of all kinds
Kearns	getting jobs	bus stops are to far apart	gangs street light	low pa ying jobs insufficient health care high property taxes my taxes are more than three house payments	I don't know	I don't know
Kearns			Gangs	High prices	Lack of police present in the neighborhoods	More police presence

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Kearns	Not having some kind of program in place that isn't intimidating to the PEOPLE that need the economic opportunities. A program designed to find those truly in need but able to spot those that will try to get help but DON'T actually need it!!!	I am not up to speed on this question because I hardly ever use any transportation besides my 2 cars for which I am truly grateful to have. I would guess that people aren't aware of how to access the transportation and maybe feel uneasy about receiving hand outs. Those are just guesses on my part.	More street lights near their houses. I have a street light very close to my house. It helps me to feel more safe. Also the residents need to know that a couple of lights on the outside of their house turned on at night will make their houses more safe. Also keeping an eye out for suspicious activity at their house and neighbors houses help to make them more safe.	Not being qualified for higher paying jobs.	Being in a township instead of a city.	Affordable, safe housing.
Kearns	Money	Money	Money	Laziness	Keeping it clean	Fixing delapidated houses.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Kearns	Lack of HS/College education.	Kearns only has a few buses that run within Kearns, rather than on the outskirts. On weekends buses only run every hour. Weekdays, until 6pm, buses run every 15 minutes. After 6pm they run every hour.	Gang presence.	Lack of education	Housing weatherization. The homes in Kearns are from the 1950s, and they are made of cinderblock. There is NO insulation in the outside walls of these houses because there is nowhere to put it. The inside the houses, the outside walls are made of cinderblock, covered with chicken wire, and then plastered over. That's it. We have replaced all of the windows in our home, gotten new front and back doors, replaced the old furnace with a Lennox 85% HE gas furnace, and added insulation to our attic. Our home is still cold in the winter. When the thermostat is set to 68 degrees F, there will be rooms in the house that are 60 degrees F. We have to supplement the heat from the furnace with electric space heaters.	Education and neighborhood revitalization.
Kearns	Lack of good, cheap transportation	Limited times/routes through public transportation	High rental to homeowner ratio. Rentals aren't invested... attracts problem people	Lack of education on financial and professional planning	Updated schools staffed with competent teachers	Public transportation or teachers
Kearns	Lack of work in the local area especially for the younger generation. My kids and their wives all have to go 10 miles or more to find work other than fast food or Walmart.	unk	Lack of adequate law enforcement.	Low wages.	unk	Law enforcement. There is entirely too much drugs and too many shootings.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Kearns	we are west side. the county doesn't fund things here, unless it has to do with the olympic oval	bus routes not user friendly, cant get where you want to go without multiple transfers at times.	there are no street lights in the neighborhoods, leading to an increase of crime. we were promised lights by our community council 3 years ago, and even voted on them, but never saw anything happen.	language barriers, lack of higher education opportunities due to cost	reducing crime rates, cutting gang related issues	crime prevention, community involvement
Kearns	Education, better pay, community pride	Access to transit, east west thoroughfares	Pride, cleanliness, effective programs that establish a public health and education policy that creates sustainable positive outcomes for our youth and community.	Lack of access to healthcare, Education and economic opportunities	Mental health and substance abuse youth/adult	Healthcare/mental health
Kearns						
Kearns	No resources near our city. They're all a bit far.	Information on how to use UTA or trax.	Stable- a sense of belonging and community.	Lack of resources	Community involvement within the community.	I think the greatest gap will continue to be in school and making more ways for the school to become a place for families to feel comfortable in going and being involved.
Kearns	Culturally Relevant delivered entrepreneur education, resources, incubator and oppurtunities	Affordable transportation, convenience of public transportation schedule	Feeling included in the community i live in	Deliver services, education, resources using culturally relevant methods	Let the ethnic and or underserved communities lead and services support them not the present way its done	Assist communities to take care of themselves by letting them lead with service provides, government etc in support the way that they know will work
Kearns	Run down businesses	Not enough transit through the community	Street lighting	Fixed income seniors and unexpected costs.	Street lighting in all areas.	East/West transportation and street lighting!
Kearns	No respected businesses. All a bunch of fly by night dirty Mexican places. An ugly place to be.	No trax line for this community. Mostly all on the east side.	Drugs and meth houses all over.	Education is very poor in Kearns.	Pride in our neighborhoods.	Elderly

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Kearns	There is a lot of poverty in our neighborhood - and few business.	Transportation seems to work ok.	There is poor street lighting in our neighborhood (literally 0 streetlamps on my street alone). The one time I tried to go to the police station for an issue the door was locked and it didn't appear that anybody was present.	Lack of living wages. People are hard workers - and want to work - but they have difficulty making ends meet with low wages and a lack of benefits (such as health insurance and retirement savings).	Poverty.	Accessible housing - services to assist low wage workers make ends meet.
Kearns	Kearns is landlocked and cannot expand	na	Increasing gang violence	Poor family management	Poor family management	After school programs or programs designed to increase the life skills of youth who live in Kearns
Kearns	lack of education or training	cost of owning a vehicle, and difficulty in using public transportation when multiple adults with multiple jobs are in the same household.	lack of education and skills makes getting a job that pays enough very difficult.	Lack of opportunity, education, skills	A way for people to gain job skills when they're already living paycheck to paycheck	Job skill acquisition
Kearns	Job opportunities	UTA services	Jobs	Employment opportunity and low pay	Jobs	Aging services
Kearns	School programs	Public transportation/bus stops	Gang violence or gang activity	Childcare expensive	Speeding	Police patrolling
Kearns	People standing up together	Not enough help for the elderly who rapist drug addict children	Not enough police patrol	Need more high paying jobs	Neighborhood cleanup	People being made to upkeep their yard
Kearns	Just newly developing. Mountain view corridor is being worked on.	Crossing 5400 s and 5600w	Street lights in neighbor hoods	Lazy	Business, things to do on the west side	Trax along 5600 w
Kearns	Cities have annexed most of the businesses in the area. So there isn't much left. What is left it run down and not kept up by the owners so it looks terrible.	Roads are busy and congested. Stupid no left turns! Cannot get any where. Speed of traffic in cross streets.	Street lighting.	Government welfare. Lack of their willingness to get an education or get a job.	Traffic	Elderly needs.
Kearns	Lack of information, business development		Have better contact with the police and programs that integrate the participation in the neighborhood	Education, personal development, proper documentation	Integration of representation of the Hispanic community	Transportation

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Kearns		not enough public transportation	the drug traffic and gang violence	the landlords are raising rents because it is a "buyers" market and everyone is rushing into buying houses if they can qualify	3 homes on my street where "traffic is always very loud and obnoxious" especially in the night hours so we feel unsafe.	unsure
Kearns	Time	Lack of local bus routes. There is a main line that travels east/west along 5400 South. There are no bus lines that travel north/south. 5400 South is a definite physical barrier to safe transportation.	5400 South	Generational habit. Additionally, a lack of knowledge or understanding of available services.	Food scarcity	Economic development
Kearns	Lack of communication	none	multi family living , not enough police patrolling	low wages	Stop multi family living.	Senior citizens help
Kearns	5400 S. Bangeter empty lots	None	Lighting-people speeding	Low wages, high taxes	Low wages, high taxes	Unknown
Kearns	Size	Access to Trax		Lack of jobs		
Kearns						
Kearns				Lack of work	None	I'm not sure
Kearns	Not having information	There are no obstacles	Neighbors vigilant	Low wages	None	[Left blank]
Kearns	The street is poorly lit at night			[Left blank]	[Left blank]	[Left blank]
Kearns	So maybe the language	So the transport is not very frequently	So that the police be around more frequently	So because we work very little and we don't have help	To know with whom go to treat a problem	Maybe medical care
Kearns	I'm not sure	I'm not sure	I'm not sure	Their jobs they have & maybe transportation	I'm not sure	Schools
Kearns		We are far west, not enough highways	Writing on walls	Lack of knowledge	More community involvement	Safer traffic
Kearns	Lack of jobs	None	Gangs	Jobs that don't pay well	Gangs	I don't know
Kearns	Not sure	Unsure	Unsure	They don't continue school	Safety, I got my care stolen from my own driveway	Wider roads

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Kearns	Paying too much in taxes. But beyond that, the schools aren't the best ever. If kids are never taught how to manage finances, they turn into adults who are always needing help.	I don't see too many barriers. There are a lot of people who walk or ride the bus if they don't have a car. Some of the neighborhood sidewalks need to be redone and are buckled or bumpy. There's also not a good east/west bike route between Bangerter and 5600 west. 6200 s and 5400 s have narrow sidewalks and no shoulder. 4700 s is better, but quite a detour.	Gangs and drugs. I think most people know the trouble houses in their neighborhood. Where I live, we've had multiple people call on one house and nothing ever happens. They do drugs and sometimes deal them, even with kids around. They also steal things. There have been police out twice for noise complaints. Once they never got out of the car, and the other time, they did, but it didn't help for more than a few minutes. The park also has broken equipment that doesn't get replaced.	Lack of knowing how finances work combined with never having seen a good example. Basically, someone's parents worked a low paying job and were reliant on government and charities, so they continue in the same ways. You can teach someone about how to get out of poverty, but seeing someone succeed (like a mentor) makes them realize they can do it too. Also, there are people who are ok being in poverty. There are churches willing to help, as well as snap and wic. I feel that unless there are drugs and children involved, many who meet the income guidelines don't have a fear of hunger. However, the problem I do see is the working poor who are just above qualifying for government money. I've heard far more sob stories from that demographic that poverty. And it's not just parents not being able to buy	Drug use. It hurts children, as well as the reputation of a neighborhood. It seems the police are so overwhelmed they can't deal with it. And jail doesn't solve the problem. I don't see a problem with marijuana, however, methamphetamines seem to tear apart families.	Overcrowded roads
Kearns	Language	Money		Housing is expensive	Affordable utilities	Affordable housing and utilities
Kearns					Cost of living is too high	Cost of living, low wages
Kearns	Low wages	costs	Economic stability	Low wages	Smooth roads.	Reality and the world that Donald lives in.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Magna	<p>1. Salt Lake County and the many multiple levels of bureaucracy and hoops people need to go through.</p> <p>2. Some of the landlords and property owners along Magna Main Street are "slum Lords" They refuse to properly maintain their properties (Gem and Rexall are a couple) and they charge extortionate rates for rent that does not match the amount of business that it gets. Magna is not Vail, Aspen, Park City, or even downtown Salt Lake City, they cant not justify that rent. Also businesses don't last due to the land lords refuse to make repairs and general upkeep of the buildings that fall outside the business renting the space.</p> <p>3. Move the churches out of commercial space on Main Street. With a church there it prevents a taxable entity to move in. Also the services the churches provide (food pantry) cause transient and panhandling activities</p>	<p>UTA. Magna would love to have a rail line for Trax out here. Also frequency of bus service. UTA is also slow. It takes 1.5 to 2 hours to get from Magna to downtown Salt Lake City by UTA and 20 to 30 minutes if driving.</p>	<p>See 3.7 above. Magna needs its own stand alone UPD precinct with a chief and officers primary location here. See 5.3 above regarding churches in the commercial area of Magna Main Street.</p>	<p>Unemployment</p>	<p>Commercial businesses moving in, Restaurants, Family Entertainment, need to move in to increase out tax base.</p>	<p>Fixing the infrastructure, installing sidewalks, repairing the existing sidewalks and roads.</p>
Magna	<p>there are not many job opportunities in our area</p>	<p>we don't have too many transportation problems that I am aware of, UTA is very active in the area as well as UBER being available on phone apps</p>	<p>There is a lot of vandalism, theft, and property damage, no one seems to be able to curtail the problem with the overcrowding issue in the jail, maybe the people causing the problems aren't afraid of retribution</p>	<p>lack of education, unable to get employment, and are not able to connect with resources to help them get out of poverty</p>	<p>crime, people are having their houses and cars being broken into. Business area redevelopment, also there are really not many recreational activities in the area, such as dog and bike and walking paths, the kids in the area would love a skate board park, the one we have is a joke</p>	<p>More and more people are giving up looking for employment, The post office and Recreation center have cut down on their services instead of trying to add more services and I know the population is higher now than it's been in the last ten years, services should grow as the population grows.</p>

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty? What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Magna	Lack of resources, or lack of communication regarding available resources.	Limited parking, small streets & lots both residential & commercial.	Lack of affordable housing & cooperation with law enforcement.	Lack of life skills, financial education, & truly affordable housing opportunities.	Communication of resources.	Lack of life skills & financial education.
Magna	Low paying employment. Not a lot of jobs	Poor transit		Lack Education and skills for better paying jobs	Education	Education
Magna			Not enough police support.	Education	Support for the needy	Greater access to public transportation
Magna				The education	Education	Public health services
Magna	Poor education.	Not enough public transportation Sundays	To many gang members stealing and breaking in your house.	Poor education.public	Security	Water. Magna water taste like sewer.
Magna	Finances	Distance to other cities	No idea	Inflation	Local job opportunities	Affordable housing

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Magna	We need more companies to build here, and employ our residents.	Not enough sidewalks to get to the bus stops	Too many people addicted to drugs.	I don't make enough money. I could make more if I had a better education.	Health	Aging neighbors with poor health
Magna	Funding for our community - we don't get back what we pay into county taxes.				Recreation for families and adults	Our taxes will increase but our services will decrease. We pay out, but nothing is coming back in.
Magna	Education at the secondary and tertiary level.	Public transportation is too slow and some people cannot afford cars.	Crime	Lack of education, life skills (budgeting, advance planning)	My wife and I have a stable and comfortable income but need good education for our children. We are driving them to an elementary school that is 10 miles away and think that we will have to move when they are attending middle school.	Education, road maintenance.
Magna					Don't know	Don't know
Magna	Business interest	Additional bus route - need wider/more lanes on major road	Faster police response	By choice and lack of education	Drugs	Education and jobs
Magna	Regulations to have your own business, permits	Distance to travel	Knowing neighbors	Poor planning financially, not planning support!		
Magna	Low educational levels	There are only two main ways to travel going east to west. And the roads are often crowded. It would be nice if Trax had a closer stop to Magna.	There are a lot of bars on Magna main. And I worry that people drink and drive. There also seems to be a high number of violent crimes committed due to gangs/drugs.	I think that it's often generational. Single mothers just trying to make ends meet and kids think that getting to work is more important than going to college. Also college is hard to finance.	The high school needs to be rebuilt. They have kids walking in between two different buildings and relocateables. The building are some of the oldest schools in the Salt Lake Valley and don't have proper air conditioning.	The greatest need will be a new high school and more public transportation.
Magna				They do not want to work..	Code Enforcement, they do not follow through..	Clean magna yards up.put a number of animals per household.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community? Midvale	affordable housing - rents are too high education system - classrooms are too large Low wages - minimum wage is far below poverty level.		We need more services, resources and programs to help the homeless and safe places for them to be - not on the streets. We need safe shelters for those with addiction issues, too. We need safe shelters for homeless people with kids.	Low wages. Minimum wage is poverty. Workers can't meet cost of living.	not sure	not sure
Midvale		It's very far	To be safe more stable police on streets, improve opportunities to work and education	Lack of better jobs/more education	Education, work, police, lighting, green areas, activities for low income children	More education & housing
Midvale	Low wages, and high housing costs		Low wages and high housing costs	Uneducated	Lower cost housing	Not enough services to help the amount of people in poverty.
Midvale	Jobs that pay a living wage.	Public transit to the south part of the valley. A corrupt UTA board.	For my family, a local motel on State with very questionable clientele and activity.	Lack of access to jobs that pay a living wage.	Neighborhood revitalization, especially helping our elderly population in our neighborhood.	I think SL County is doing a great job. Thank you for reaching out and keep up the good work.
Midvale		I don't know				I don't know
Midvale				Low paying jobs	[Left blank]	[Left blank]
Midvale	Too much bureaucracy rather than grass roots help!	Not sure there is one as our public transportation is great. Maybe more help for elderly and physically disabled.	Illegal immigration	Education and good paying jobs	Cost of living- especially if you work for the state.	Think the current administration will fix most of the cost issues.
Midvale	funding for education. Poor compensation for educators.	Transportation seems pretty good	Drug enforcement. Law enforcement presence.	There are too many to pick one single reason.	Education	Education
Millcreek	- low wages - poorly-funded education system	- not enough bus service	n/a	- insufficient or poor education	- mental health services	- mental health services - aging services
Millcreek	Apartments going up everywhere	bus schedules and connections	Not a lot of police presence and several shady characters walking around.	Lack of inspiration	Police presence	Assuring lower west side of Millcreek still feels safe. Because now it feels less safe by the week.
Millcreek		Lacking in ways for bicycles and walking paths	Bad news that scare the people	No access to education and lacking in resources to take care of children	Legal services for immigrants	Better education and legal services

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Millcreek				Low paying wages and high housing costs	Affordable mental health	Mental health
Millcreek	high paying jobs	convenient access to public transportation--it is easier to get anywhere by car than to get to a transit station	home burglaries	inability to work a decent paying job (because of lack of such jobs and other reasons such as poor health)	clean air	clean air
Millcreek	Unsure	Bus takes forever.	Unsure, I would say most feel stable and safe.	Lack of educational opportunities.	Community Involment	I feel like there are a lot of great things going on but the community at large is unaware and uninvolved. We need to work together to solve our own problems.
Millcreek		Need more sidewalks to make the neighborhood more walkable	Graffiti is increasingly more common	Lack of education or illness	Not sure	Not sure
Millcreek	Livable wages leading to more consumption and growth.	Buses are expensive and connections make trip long.	Lack of affordable housing and liveable wages.	Medical crisis or job loss	Suicide prevention	Affordable health care
Millcreek	Lack of good paying jobs, lack of high quality early childhood and day care, lack of resources to help.		Scared of the future	Lack of education and opportunities	Better education, need for more afterschool programs and more adult training	See above.
Millcreek		Bus service is very limited in our area.		Don't have the skills to earn a salary that enables them to have a reasonable lifestyle	Affordable housing and affordable rental housing	Adequate facilities for our aging population
Millcreek	High cost of housing	Bad UTA route planning. (No bus routes in Olympus Cove).	Lack of affordable housing	Financial issues	Granite school district has not prioritized rebuilding their aging schools	Inadequate school buildings
Millcreek	lower paying job	cost	no presence of community policing	mental health	mental health funding	supportive case managed housing for mental health / substance use disability

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Millcreek	Poverty, prejudice, privilege and dominant church lawmakers making laws and policies that undermine our rights.	I am fortunate. I live near freeway and highway access and in the hub of Trax and Utah	See answer #5.	lack of education	Representation for diversity and low income families. Our leaders need to take some courses in race and ethnicity. They must understand their privilege and how race and religion effects the people.	We need arts and humanities taught in our schools. Title one school children deserve a quality education and their teachers should have a degree in TEACHING in order to lead them. Their education has reduced them to observers of white culture and alternative facts. We are going to need a village to rise up and be heard, to protect our children and our future.
Millcreek	high residential usage	i-15	lighting on roadways and safe walking routes		how to get access across I-15 for pedestrians	infrastructure
Millcreek	The population in Millcreek ranges from affluent to poverty. I don't feel that the middle/lower classes are fairly represented or considered.	The bus line seems to be accessible. Lack of sidewalks and heavy traffic are dangerous to those using public transportation. Elderly individuals throughout SL County are in need of transportation. Resources are scarce and the amount of aging adults is rising everyday.	Dark streets, increase in panhandlers and homeless.	Lack of quality employment and education.	Safety	Aging services
Millcreek	My East Millcreek community seems to be pretty privileged.	Trax is far away.	My community seems pretty safe.	Being born into poverty	Eastwood Elementary School is very old. Needs improvement.	My neighborhood has many elderly people, who probably need assistance, in one way or another.
Millcreek	Education	Not very good public transportation routes	Some areas need redevelopment. Many areas are run down.	Education and opportunity	People with disabilities not having a voice	Providing support to people with disabilities
Millcreek	lack of infrastructure	layout of community	no sidewalks, no streetlights, few high paying local jobs	few high paying jobs	infrastructure	infrastructure
Millcreek	unknown	unknown	unknown because I do	don't work	Education	Education / another elementary

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Millcreek	The new city of Millcreek is really taxing the residents in its community. It seems like every month there is a new sewer, garbage, etc, or different tax we need to budget. I know some taxes are important to help others in need. However, too many taxes eliminate a middle class and create a larger barrier between the rich and the poor.	I do not experience any barriers for transportation in my area. I feel the freeway and bus system is efficient in my area.	I wish there was more lighting on our residential streets. Sometimes I feel insecure walking at night.	I think lack of education and job opportunities cause poverty. I think that most poverty stricken individuals want to work or succeed and they don't have the education or opportunity to move forward in a job or career. I also think that when people are discouraged or depressed because they aren't succeeding that they will turn to drugs and alcohol which leads to addiction. Addiction will further hinder education and potential employment opportunities. I think providing education and maybe addiction services would help poverty. However, these services come at a cost to the hard working middle class families that end up paying for it.	I think investment in our schools and public areas would be nice. However, I understand that these things wouldn't be a top priority because other neighborhoods have higher issues that need to be addressed.	Investment in schools and public spaces. Also maybe police force for our area.
Millcreek				lack of education	services for undocumented families	West side versus East side of SL County
Millcreek	Health care costs		I feel safe	Lack of opportunity	Rising health care costs	senior care
Millcreek					Medical services	Medical and education

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Millcreek	The largest barriers are for the refugee and immigrant communities on Millcreek's west side. Their community is under-served by retailers so they have problems accessing food and the sort of employment opportunities that retail business provides.	Access to TRAX in east Millcreek is non-existent. and the frequency of buses is an issue.	A declining sense of well being that is caused by a long time trend toward a lower standard of living with ever increasing medical costs and the inability of the middle class to afford a college education for their children. This causes a host of stresses on domestic life that leads to domestic violence, divorce, child abuse, addiction and a host of other maladies.	A full time job that pays minimum wage automatically places the person who holds that job in poverty. Beyond that, a medical emergency for many families means an end to their financial security.	Since Millcreek has no resources for the homeless, if a fellow citizen winds up in that situation he or she is obliged to go elsewhere to find shelter. Therefore, we live with the fiction that there are no homeless in our community. Our dispossessed are simply turned into someone else's problem so we don't recognize care for the homeless as our single greatest need.	With computerization, the digital economy and the advent of artificial intelligence it will become ever more difficult to provide full time employment for everyone who wants to work. That looming crisis will create a demand for traditional social services, but more importantly it will create a need for services that haven't even been imagined yet. Right now we should be spending a great deal of effort getting ahead of the curve and positioning ourselves for the challenges and opportunities that lie ahead.
Millcreek					More resources towards children's education	Some good infrastructure for internet and good public transport
Millcreek	Not sure	There are not as many trax stations in our community	Not enough police monitoring	lack of knowledge of resources that are available	Not sure	Not sure
Millcreek					Not sure. We are new to Utah.	Not sure
Millcreek	Lack of education leading to being stuck in minimum wage jobs with no opportunity for advancement	Many do not own cars. Public transportation is time consuming and not cheap.	Fear of cars and homes being broken into.	Borne into it and don't know how or don't have opportunity to escape	Opportunities to escape poverty	Adult education
Murray	Lack of education	Lack of infrastructure		Lack of education	Affordable housing	Affordable housing
Murray				Lack of employment opportunities	Street lighting and stop signs	Care for the elderly citizens
Murray	Relevant job training.	No sidewalks to reach Trax station or bus stops safely.	Police force appears apathetic to needs of the community.	Excessive taxes	Infrastructure	Infrastructure

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Murray	Understanding what economic opportunity is to different segments of our community. What are individual responsibilities & rights, what are shared. Who decides.	Inadequate service bus routes, more frequent & extended hours. People need to get to shift work, visit family on holidays. It needs to be stable, Routes should be linear along main number streets, with information & shelters at stops. Walkways safe & maintained and convenient.	sporadic burglary.	mis-match between job availability, pay & skills.	Wise water planning.	Public health.
Murray	education	good access is available	local break in to homes and cars	lack of education	safety	education and safety because of drug use
Murray	Low wages.	Cost of bus pass.	Community policing.	Low wages and lack of insurance to pay for health care.	Educational resources such as tutoring.	Affordable Health care.
Murray	Lack of training and education.lack of	Lack of public transportation,	I don't know my neighbors. There is a lack of community in my neighborhood.	Lack of education and social services/supports.	Drop in daycare, especially for children with special needs. Also summer and after school programs for children with special needs.	Supportive housing for adults with special needs.
Murray	I am unable to speak on this, as I am not fully educated on this topic.	Not pedestrian friendly. We need sidewalks to connect us to the local community.	In our neighborhood we deal a lot with vehicle break-in and theft.	Lack of stable housing and well paying employment. Besides those who have mental health issues that need to be addresses.	As of right now, I think providing service to those in need such as housing, employment, health services need to be looked at. Many time providing only one service is not the answer. People who are in need, need access to multiple services to ensure that they are successful in getting back on their feet.	Not sure
Murray	Lack of knowledge and education.	Unknown	Unknown	Not knowing where you go to seek for help whether it is in their present situation or in the future by applying for assistance to attend school or other additional training.	Assistance for those who don't quite fall under poverty levels but are just getting by not qualifying for assistance because of a very small amount in their pay.	Finding a way to not just help those who are in dire need but also those families who may make more but have to chose between paying their power bill or buying groceries.
Murray				Minimum wage is not a realistic living even at 40 hours a week	Education funding. Air quality	Teachers
Murray	Education and training	Not knowing of the resources	Affordability	Lack of necessary education and training	Access to affordable and appropriate mental health services	Mental Health services

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Murray	Education, including continuing adult education on things like xeriscape, home upkeep (better homes, higher property values, higher net worth!)	I don't know	A lack of community - people don't know or watch out for their neighbors anymore.	That's an awfully big question to synthesize. I would say access to training - which would have to include job training, life skills, parenting, and mental health coaching.	I don't really know. I would love to see more emphasis on public education. I'd also love to see redevelopment in the Murray old town area (State and 48th-ish)	Probably services for the aging. I'm sure that's an issue now and it will only get worse as Boomers continue to age.
Murray	Overpriced housing and low wage jobs.	Lack of walkable streets.	Lack of adequate and affordable housing	Utah 's notoriously low wages.	Housing	New schools and infrastructure.
Murray	People living along the Wasatch Front are spending way too much of their income on housing, which stifles economic growth in the community as they are not able to invest their money in anything but the bare necessities—housing, transportation, food.	There is not consistent, affordable transportation. TRAX is a good start, but it needs to be available more hours of the day so that people with jobs outside the standard M-F 9-5 schedule can be served, as well as people wanting to take advantage of recreation activities. Furthermore, most people do not live close to a TRAX stop and buses run too infrequently to be a viable option. On top of that, it's not affordable! I can drive my car for less money than a monthly TRAX pass and that's not even including Frontrunner service if I needed it.	The political climate. I have noticed that my neighborhood group is increasingly wary of anyone who does not look like them and thinks that anyone of a different racial, economic, or religious background is a threat when they see them in our community. People appear emboldened to say and do things that are more vigilante-style. In addition, I fear for the safety of minority groups in my community who are increasingly at risk of deportation, police violence, etc. due to the new federal administration and our own lawmakers' disinterest in standing up to it.	Lack of an adequate social safety net. In the past three years that I have lived in Utah, I have personally experienced many friends and acquaintances that have almost lost their home due to unexpected financial circumstances, yet they did not qualify for assistance during the temporary rough patch. They had to rely on the generosity of friends and family, which not everyone has the privilege of having.	Affordable housing	Affordable housing, hands down.
Murray				Physical or mental health problems	Crime control	Services to help seniors live independently

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Murray	Discrimination: Religious, racial, ageist.	Access TO Trax by bus.	Inadequate street lighting. Inadequate pedestrian crossings	Misfortune	Lack of traffic, street lighting and pedestrian crossings	Need a supermarket within walking distance. Walkability is a word that's been batted around with sustainability. We fail at both.
Murray				Lack of necessary education	Not sure	Not sure
Murray	None, many various business as well as the ability to have home businesses.	None, busses and trains are nearby	I feel very safe. I walk my dog at all hours. Streets are well lit, neighbors are attentive and police regularly patrol.	A calamity beyond their control which they were unprepared for. Sickness, divorce, death.	I don't know if any	Younger generation being able to solve problems. They're use to having all things work out or resolved quickly. They don't know how to solve anything.
Murray	Affordable housing	None	None, our law enforcement officers are awesome.	Lack of education or skills. Alcohol and substance abuse. Or they're lazy and rely on government assistance.	Drug abuse	Affordable housing
Murray	I believe the largest barrier is the inability to connect with people that could help people get into a new job field. It seems that if you don't have connections within the area the less likely you are to find employment.	There are many buses but they don't go to all the areas of the surrounding neighborhoods.	The amount of homeless people always makes me feel uneasy because I know they need help.	Lack of opportunity.	Opportunities to meet people that can connect you with others (within the work force).	I think the divide between the wealthy and the poor within my area will increase and that the neighborhoods will become less safe.
Riverton	Transportation needs.	cost.	Lack of enforcement of existing laws and a need for drug crime interventions that provide sustained remissions for individuals.	Lack of educational opportunities.	Air quality. We have educational opportunities at this end of the valley, but not enough low income housing for that opportunity to cast a wide enough net socio-economically speaking.	Transportation. The population is booming in the south valley.
Riverton	City builds housing before businesses	Too many cars and bad timing on lights	Not a lot of police presence	Not living within their means	Better roads and safer bike lanes	Better roads
Riverton	more regional jobs	not one	Constant break ins from drug addicts	education	senior housing	teaching English speaking children in school while focusing on non English speaking

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Riverton	Riverton has not planned the city well, I shop in draper & south Jordan but little purchases in Riverton therefore, they are not getting sales tax revenue	Gaps in the Jordan Parkway trail and transits services being to far away without driving your car to them		Unwillingness to change or work to make their lives better	Facilities for kids to play sports	I do not know
Riverton	Tax burden	Congestion at foothills elementary school		Drugs	Air pollution	Quality schools and programs
Riverton	Good paying jobs	Transportation-no buses		Lack of good pay & benefits in job market	[Left blank]	Good jobs, clean water
Riverton	Planning for sustainable population growth	Adequate capacity to accommodate population growth in ours and the surrounding communities	Incorporating resilience strategies and hazard mitigation into our development standards including population growth and impacts on resources.	Job training and mental health	Overwhelmed transportation infrastructure	Adequate resources to sustain projected growth trends
Riverton	Cost and you don't get any response when you ask questions	Bus service is very limited	I feel safety is addressed	Cost of living and wages just don't keep up	Road up keep many of the roads are in disrepair	affordable housing
Riverton	infrastructure/transportation	The crappy roads	no local police presence. Unified is not a good option. Riverton needs their own police system.	education and motivation	education	good education and transportation
Riverton	not enough pay	Train lines are too far from local homes	Lack of police in the area	low wages and lack of education	illegal immigrants	better pay and affordable housing
Riverton					Low traffic	Accessible transportation
Riverton		Creating an extension for trax with	Car theft, theft, vandalism - need more police		more trails, way-finding for trails, more transit options	more funding for trails and transit
Riverton	Cost of living is so high, it really leaves little or nothing to put yourself in the position to better or persue dreams	Cost of fuel, taxes and insurance. It cost as much to have the requirements for your vehicle to be on the road as it does to buy it.	no economic growth.	Lack of jobs	Education	Youth and senior facility
Riverton	more organizations that pay salaries to support a family	Residents who don't want to see progress	I think people feel safe here	lack of education	emergency preparedness	mental health support

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Riverton				drugs	drug abuse	rehab centers
Riverton				Family Cycle	Unsure	Unsure
Riverton	walkability	Limited access to public transportation		Lack of motivation in finding employment. Self control and education in spending their resources	N/A	N/a
Salt Lake City	Access to education.	Access to public transportation		Exploitation of workers, income inequality.	Access to clean air.	The same. Clean air.
Salt Lake City	jobs	cost	transient population	Intergenerational poverty	affordable housing	quality education
Salt Lake City	Lacking equal access to quality education.	High cost of public transportation.	1. Lack of comprehensive sex and healthy relationship education. 2. Victims of violence not being believed and taken seriously by law enforcement and the judicial system, especially when they are minorities (I.e: people of color, immigrants, LGBTQ)	Lack of support from the government and community during crisis situations.	Services and supports to prevent and end youth homelessness (especially youth agin out of Foster care and LGBTQ youth).	1. Quality education (and access to), pre-k to college. 2. Preventing and stopping homelessness (hint: give free housing to the chronically homeless. Better and faster intervention to prevent youth and elder homelessness).
Salt Lake City		More light rail. Add train and green bike services in Liberty Park area.	Homeless population in/near Liberty Park. Also, several thefts and robberies in the area.	Lack of exposure to early resources (education, job training, child care). Later, to connect those with services to improve quality of life.	Safety of property and residents.	Affordable housing

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Sugar House is a thriving community and needs to be left that way. Homelessness in Salt Lake City is the city's issue. Open more jails to put drug dealers behind bars. Don't transfer the problem to a safe and growing neighborhood.	Nothing, we have the S-line and downtown Sugar House is with walking distance.	We need a say in what happens to OUR neighborhood! Private deals like this 4 site homeless shelter should have been made public.	Drugs and mental illness.	Transparency by city officials and a say in determining what is built in the area with my tax dollars. I.E. NO to a homeless shelter.	Education funding for students and re training for older people in the work force.
Salt Lake City	Lack of education. Transition from homelessness	Good transpiration - on the TRAX line	Lots of traffic (walkers, bikers) from the homeless shelters out during the day. Some drug use - I've found syringes when I'm walking my dogs through the neighborhood.	Lack of education	Mental health care	Transition of individuals out of homelessness, back into the community into affordable housing

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	I actually don't know - not familiar with any data re: SLC and barriers to economic opportunity.	Lack of public transit that is speedy, accessible to the majority of the SLC population, and efficient.	I feel very safe in SLC, especially compared to larger cities where I've lived e.g., Boston, Philly. Since Trump took over the White House I don't feel the country, including our community, is nearly as stable as prior to Jan. 2017.	There is no "single most common" reason that people experience poverty. As is true of most complex issues poverty is a result of various factors, both social and individual. I do feel the community needs to be a strong part of the solution to poverty for any and all, even those who are not living in poverty.	State funded health care for those in need and mental health care that is accessible to all, effective and affordable.	Mental health services have been woefully underfunded for years and years. If this doesn't improve then this will be the continued greatest gap and the fall-out from that is tremendous and manifested in many negative effects.
Salt Lake City	Finding work that is not underpaid	TRAX should be distance based fare	Presence of drug dealing and drug users and campers (stealing things left outside happens, a couple attempted break ins I'm aware of on the street); also unemployment not because people don't want to work but because they can't find work that's pays enough for the cost of housing and medical.	Sorry, this question has no answer. Poverty is complex, can be temporary or chronic, the causes differ. I understand you're trying to ask what do I see. I say mental health for chronic poverty... But cost of living (through the financialization of housing and medicine (and food) as "investments" and business industries) probably is most of it. So: answer, our economic system is a failure creating greater inequalities through the financialization of key human needs.	The landlord on our street that has abandoned two beautiful bungalows and will be demolition by neglect.	Mental health and medical treatments for homelessness. Possibly the deficit in urban infrastructure maintenance.
Salt Lake City	Learn English	Elderly people who don't drive, depend on their children	Legal situation	Lack of education	Legal situation	Better medical attention and dental (accessible)
Salt Lake City	Job availability	How often the train and buses run.	job security	Behavioral health issues	Behavioral health services.	Behavioral health services
Salt Lake City		East/West connections		Lack of educational opportunities and access to services to promote self-sustainability	Equal pay for women	Access to safe healthcare for women

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	language barriers. as well as being able to locate assistance	funding	dark neighborhood, made a report to Jackie, our mayor, & still at least 2 street lights are still burnt out because Rose Park is West Side (the projects of salt lake) if it woulda been on the east side, (the wealthy) you better believe those lights would have already been fixed.	cause our mayor is prejudice against the west side.	everything! our mayor thinking the west side is less important than the east side.	we need Becker back!
Salt Lake City	Low wage jobs and inadequate housing.	Public transportation is expensive and does not always run at times conducive to swing shifts or late night service workers.	Nefarious activity fueled by drug addiction and homelessness.	As a society we do not value people's basic needs.	Living wages	We do not hold corporations accountable for living wages, we do not value health and have been unable to find equitable healthcare solutions, we lack housing opportunities, we are working in a 19th century education system in a 21st century technology boom, we are selling off our natural resources for the profit of the rich while squandering the environment we depend on for a sustainable economy. Basically, we don't value preventative care of our citizenry. We wait until we have a crisis rather than valuing a person's basic needs from the time they are young, which perpetuates the cycles of poverty and systemic inequality.
Salt Lake City	Low paying jobs, compared to cost of living			Low Incomes to high cost of living	Road repair, new housing downtown that is not affordable.	Affordable healthcare and housing

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Housing costs for low and moderate income households.	More buses to Trax stations. Wonder if model of big buses fits needs. More/smaller buses that move better w traffic flow, - on/off board more quickly? Later running times to downtown and other event centers/large employers. It is difficult to make a living wage in an en	Fear of the unknown homeless, non-English speakers, LGBT, the poor,	It is difficult to work yourself out of poverty without addressing how you get there which can be for a variety of reasons. My personal perspective is that medical debt is a factor that isn't addressed - it is the economic debt that is a flag to either catastrophic events and/or chronic illness that will hurt a persons financial stability and physical stability, impacts the healthcare system. a medical crisis for you or a dependent (child, spouse, parent) that takes you off work and medical debt, you lose your job and you can't pay existing debt. There are ripple effects through the economy. A plan to address poverty has to be comprehensive to address the path that brings or holds a person/household in poverty - a service worker without opportunity/economic ability to pay for	Public forums for dialogue that feeds into policy decisions - not just public meetings which recently just seem venting sessions but public working meetings.	Affordable housing, and needs from growing elderly population,
Salt Lake City	affordable housing	affordability, scope & timing of public transportation	affordable housing	job loss	access to affordable childcare	services for older adults

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	being able to save money / get out of debt	transportation is pretty good here, but it is expensive	a lot of drug-dealing / gangs in the parks and along the trails	cost of living is so high compared to wages. for myself, even with higher levels of education, it's been difficult just to pay the bills, and really no way to save or get ahead.	there is a huge gap in health care. insurance premiums are ridiculous even with employer subsidies and at the other end, medicaid is nearly impossible to qualify for. community health clinics are inadequate to address the needs. if you are poor, health care and health insurance are simply unaffordable.	health care and rising costs of food combined with poorer quality of food over time which is causing more illness, plus rampant development is leading to deteriorating air and water quality leading to more sickness. Personally I think we need more communities working together to produce healthy food locally. We need less restrictions on raising animals for food, collecting rain water, solar and wind power...overall make it easier for people to be more self-sufficient at community levels
Salt Lake City	Education		Police presence, mental health services	Lack of access to education and mental health services	Lack of money for education	Education
Salt Lake City	High rent low pay	parking	not enough public parks	Debt	Air pollution	affordable housing
Salt Lake City		Lack of sidewalks and bike lanes		Generational poverty issues	walkable community	Bike lanes, active transportation
Salt Lake City	education	access	income	unequal access to resources	clean air	affordable long-term care for the elderly
Salt Lake City	Affordable housing	Public transportation that can get you places as quickly as driving.	The Republican Legislature.	Legacies of abuse, substance abuse and mental health issues in families.	Mental Health and addiction treatment.	Mental health
Salt Lake City	Housing	Public transport is inconvenient with poor service and east to west lines as well as expensive for what it offers. We need better prices on monthly pass	I fell like SLC is a very safe place	Wages are not consistent with cost of living	Air quality	Air quality and Housing

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	It seems there isn't much of a bridge from low skill/low wage jobs to skilled positions.	Poor air quality makes alternative transportation less rather than more accessible. Multiple bus links to reach sprawling destinations are impractical.	Personal safety is adequate, but drug-fueled property crime is a significant nuisance.	Modern economy requires education, but the education system is still structured as though people can apprentice if they are not college bound.	Air quality	Health care
Salt Lake City	Cost of living	Train and bus routes and schedules	None	Lack of education	Air quality	Health insurance/ mental health services
Salt Lake City	transportation, affordable housing	limited trax times and services	homeless population	ECONOMY 10 Fun Facts About the Top 1 Percent They're highly educated, skew Republican, and look up at the top tenth of the top 1 percent with envy. By Joshua Holland / AlterNet December 6, 2011 Print 146 COMMENTS As the Occupy Movement has spread like wildfire, we've heard a lot about the top 1 percent of American households and how the "other 99 percent" want a fair share of the fruits of our economic output. In 2009, there were about 1.4 million households in the top 1 percent. But just who are they? What do they do? Where do they live? We tried to answer some of those questions with ten fun facts about the top 1 percent. 1. Majority Are Corporate Big-Wigs, Doctors, Lawyers, and Wall Streeters Mother Jones offers this handy chart that shows the sectors in	homelessness	minimum wage is not a living wage, this will only get worse.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Lack of education/vocational training.	Some bus lines run unpredictably/unreliable. No great ways to get from, say, Downtown to Sugarhouse (Silver Line doesn't seem to be the answer).	The Homeless population.	Lack of education, opportunity. If they weren't privileged enough to get a good education and get locked into a sub-optimal job situation, it can be very hard to afford education (both time and expense).	I am a relatively happy resident but I am concerned about walkability and development. All the new apartment buildings are popping up with no commercial ground floor and it just makes this useless sprawl that doesn't contribute to the community.	Needs more commercial space, more walkability/bikeability and more emphasis on arts and environmental health.
Salt Lake City	The opportunity to find well paid jobs.	I think we have enough transportation, but is very expensive.	The environment.	not many good job opportunities.	Affordable housing.	Mental health
Salt Lake City	Training, education	That transportation comes too infrequently. Buses (or better yet CNG powered Jumbo Vans) should be 4 times smaller, and come every 15 minutes or less. This would greatly facilitate people using public transport.	Roaming men day and night. Lack of population during workday hours. Government tolerance of known drug houses.	Absurdly low minimum wage.	Improved curb appeal of decrepit houses.	Crime, panhandling, roaming men, frequent transportation.
Salt Lake City	Lack of basic resources that address the basics - healthcare (although better in recent years), education at early stage, childcare services, basic needs. Without those covered, it's hard to focus on developing economic opportunities.	Unsafe pedestrian streets.	Lack of mixed-use zoning.	Born into it	Poverty reduction	Elderly care: transportation, nutrition, economic stability, etc...
Salt Lake City	Language and immigration status	income	lack of immigration status	legal problems and lack of immigration status	lack of access to legal services	access to legal services
Salt Lake City	Wages have stayed stagnant and the houses have become too expensive.	Buses don't run late enough, no street car extension	Homelessness crisis	Too much of their income goes to housing needs	Condition of the roads	Affordable housing
Salt Lake City	Housing is expensive/low paying jobs	Not enough public transit options/downtown is difficult to access without a car.		Too expensive of housing/not high enough paying jobs	No housing that is affordable/allows pitbulls.	Affordable housing

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Language and cultural barriers. There needs to be a stronger effort to reach Spanish speakers and refugees who do not participate in the public process.	Inconvenient service. The two bus routes are circuitous and loop around, taking forever to get out of Rose Park/Fairpark. Also, they don't run after about 6pm. People get stranded and are unable to get home sometimes.	Crime, people speeding on residential streets.	Unequal opportunities - fewer resources/time/effort spent on cultural minorities.	Convenient transit opportunities.	Bridging the I-15/freight rail barrier that makes it VERY hard for people living on the west side to access the east side. Pedestrian bridges, elevated bikeways, SAFE crossings.
Salt Lake City	Increasing costs for housing and business spaces	Public transportation is largely good, though it would be nice to see service extended later into the evening and on sundays, for the purpose of social time out (which supports local businesses) and for people (the employees of these businesses) to travel to and from work.	Safe Pedestrian crossings, including police enforcement of pedestrian right of way. As building and traffic increase, this will become a larger problem	Lack of training or education for jobs that would be a good fit with abilities and schedules	Bike and pedestrian safety	Public transportation. Continued building will lead to traffic congestion and lack of parking. Make public transport easy and accessible.
Salt Lake City					Neighborhood revitalization	Same
Salt Lake City	High rent low wages with large families	Safe passages to depots	Dark alleys and intersections		Low wages. Not enough access to rental help and food for non children families	Language separation . cultural differences

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Risk, not understanding regulations and other rules and laws, high barrier to entry (cost of starting a business).	Living in the wrong neighborhood - areas of the city, many of which are further away from the urban center and thus also more affordable, do not have adequate access to regular, rapid public transit.	Neighborhood disconnection, poor infrastructure and housing, hostility amongst groups of different backgrounds.	They start at a disadvantage (educationally, geographically, financially) and the system doesn't do enough to help them get out from under these circumstances.	Educational reform for youth of diverse backgrounds in impoverished communities.	Economic development opportunities
Salt Lake City	I live downtown so access to mental health and substance abuse services	None I see	Affordable Housing	Utah has Low wage jobs, sexism, rents too high, racism	Affordable housing	Affordable housing and medical / mental and substance abuse.
Salt Lake City	We are land locked.	Transportation is fine.	petty crime	Inadequate training	cleaning up yards	day care
Salt Lake City			Lack of real community policing	Lack of employment opportunities. Low minimum wage.	Community policing	Community policing
Salt Lake City	The businesses have shut down and no one want to move back in	Income	The police don't respond even when we know who break in to cars, steals packages. No neighborhood watch. Increased homeless on streets and at park. Sleeping in our yards.	Education	Addressed? It is really crime.	Education is next. We have a great elementary school that is diverse. It needs resources so these children grow up not in poverty, but rather productive contributing citizens
Salt Lake City	Mayor, City Council and other elected officials that will not listen to residents.	None	Mayor, City Council and other elected officials are going to cluster homeless shelters in the area, create a RDA so they can blight the area, then tear the homes down to create low income housing. This way they can claim they built it on the East Side.	Educational and job training opportunities do not exist.	Solar power and alternative green transportation	Solar power and alternative green transportaion

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	The new homeless resource center has so far robbed us of 17% of our house values. Taking away retirement money from me personally.	Horrible air quality makes walking unhealthy.	Simpson street homeless shelter has neighbors so upset that some are planning a armed neighborhood watch. I don't feel stable with Homeless center AND armed militias walking around.	medical bills.	Crime. a City government that wont listen to us.	More crime, and homeless people wandering the area.
Salt Lake City		UTA is not useable because I go to work early or leave late and work on Sundays	Crime	a medical problem of the primary wage earner	being able to take public transportation to work	public transportation, health care for all
Salt Lake City	Minimal grant opportunities		Not enough police presence, and very poor street lighting	Lack of financial education	Crime	Less services being given to the West side
Salt Lake City	Don't know	Limited UTA routes in neighborhoods not near Trax	Crime mangagement	Low paying jobs	?	?
Salt Lake City	low cost transportation, a bus pass can be expensive and other necessities would be paid first before this.	cost of bus passes for the low income family. earnings will be spent on rent, bills, food will be paid for first and then there is no money left for bus pass	need of more police presence to deter criminal activity	education	kids having proper transportation to school sometimes its just a matter of address but its equally far from the school. the bus cost is expensive for the low income household and some of these kids have been hit by bus walking to school in the early hours and death has been their fate. (west high school)	job training/education
Salt Lake City	Lack of education, knowledge of how to budget, English	None. Good bus routes available.	Long delays in police response for non-emergent issues. By the time they show up the chance to deal with a the people and the problem has passed. Hey! You broke a law - please wait here for up to 90 minutes so you can be held responsible.	They aren't willing to sacrifice for a greater reward/goal down the road.	None	Safety and cleanliness

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	N/a	Reference prior answer about bike lanes.	I often see car windows smashed in along my street. Perhaps better lighting, more frequent patrolling could help?	Mental health issues	Homelessness, I hear on the news often that "such and such is being done" but I've never really seen any improvement in the homeless issue. They are people and as a community we need to help them.	Mental healthy and homelessness.
Salt Lake City	Educational achievement	Late night transit service	Panhandlers and drug dealers on streets.	Opioids and heroine	Visible street life (think D.C. Street team, golden triangle) they keep streets clean and safe.	Housing in downtown for families. Schooling for those families. And open space.
Salt Lake City	Limited Education		Vandalism	Education	Being a single mom, always been in need of a affordable day care that opens before 6am	Safety
Salt Lake City					unsure	unsure
Salt Lake City	A place that offers economic opportunity, coaching in employment - all aspects	economic ability to afford transportation	economicis	Lack of intervention to address their specific needs	employability and economic support for upward mobility	a vibrant and diverse middle class
Salt Lake City				Lack of education/help	The parks have all turned into dog parks. There are nearly as many dogs as people in my neighborhood. I'd like more places my family can play without interacting with dogs, sharing the space with dogs, or watching where I step. I can't let my children play on the grass dogs use as a toilet.	I don't know
Salt Lake City	affordable housing	The city is not very bicycle friendly. It would be a lot easier if it was bicycle friendly.	Better interactions with the police	Mental health needs remaining unmet.	Affordable housing	Affordable housing
Salt Lake City	Health care	lack of public transportation	domestic violence	they grew up in poverty	access to affordable healthcare	access to affordable health care

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Dependency on welfare, lack of drive/motivation.	There are no barriers or lack of transportation.	Increased criminal activity. Rampant drug use/dealing.	Dependency on social services including welfare. It is much easier for individuals to receive welfare benefits than to seek to become a skillful, participating member of the community. Lack of motivation or desire to improve/grow.	Safety	Lack of safety and secure neighborhoods due to increased crime and abuse of entitlement programs.
Salt Lake City	Language, money, knowledge		Lack of money, knowledge	Lack of education or ambition & drugs	[Left blank]	[Left blank]
Salt Lake City	Jobs	It is good because we live near public transportation	Stopping crime	Not having a n education so they can get a job.	Education for the children	Affordable Housing
Salt Lake City	Childcare affordability, gaps in healthcare for low income families and individuals (especially dental)	Cost of public transportation	High number of house break-ins and burglary. Addiction (lack of mental health services) for low income and homeless.	Health issues both mental and physical	Affordable child care and theft	Affordable elderly housing
Salt Lake City	lack of understanding economic opportunities or education to enter higher level opportunities	lack of coverage. there is more on the eastside. low numbers of bus shelters	drug houses, gangs, children being influenced by such.	lack of close resources	affordable housing - not apartments	medical
Salt Lake City	Racism, job training, education, and access.	Racism - unjust treatment of UTA to SLC residents west of State Street. Lack of connectors flowing west to east.	Income inequality - visual neglect from City, County, State in distributing tax revenue to all neighborhoods equally.	Income inequality, voting rights (gerrymandering), education, lack of training, unfair distribution of resources.	*addressed Economic development	economic opportunity
Salt Lake City				They are caught in a cycle of poverty and are unsure how to get out. Lack of mentors	Crime	Affordable housing
Salt Lake City	language	none	it's diversity	lack of education, training	after school programs	senior programs

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Rapidly rising rents, and unavailability of affordable space for businesses.	The layout of the city is one of the least dense I have ever seen. That cannot be changed, but more comprehensive bus service would ease the pain for those unable to afford cars. Drivers themselves are very hostile to pedestrians, better crosswalk lighting and improved signaling could help.	Motels on State Street attract undesirable criminal elements - a reflection of our extreme homelessness and drug addiction problems. I have seen people be assaulted with weapons directly in front of my house, in daylight, in the open.	Low incomes due to the changing labor market combined with rising living expenses.	The State Legislature is opposed to reform/abolishment of the DABC. The difficulty of obtaining a liquor license causes the city to be noticeably less cultured than others of similar size.	Housing availability and affordability.
Salt Lake City	Income and addiction issues	Cost	High crime rates, living around addicts and homeless people.	Lack of good paying jobs	Affordable housing	Housing
Salt Lake City				can't afford higher education	County/City needs to complete upkeep of the roads in our neighborhood	not sure
Salt Lake City	Low Income	Low Income	Immigration	Prejudice, Stereotypes, and holding our past against us	The homeless	Better communication with the community, sending letters in Spanish and English and other languages. Community improvement.
Salt Lake City	Education	east-west routes	underemployment - living paycheck to paycheck	high cost of housing	housing	early education
Salt Lake City				No jobs	Safety	Safety
Salt Lake City	Affordable education	Access	Police presence	Low wages	Home improvements	Unknown
Salt Lake City	Too large % of income going for rent/housing	Distance from routes, cost	Lack of consequences for criminals who are apprehended	Lack of skills Sometimes lack of motivation	Multi-generational poverty	Mental health services
Salt Lake City	lack of quality education/secondary education emphasis	lack of frequent transit service	none	not paid a living wage	Access to more grocery opportunities	gentrification

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	air coolers in the summer	no vehecle	gangs cops are scared to do anything about it ...and some are being paid to close there eyes to what they do	rents are to high jobs dont pay enough ...moms and dads are junkies and dont care about there kids so they spend there money leaving childrens hungry or alone to satisfi there needs	protection	low rents
Salt Lake City	Housing prices.	Thieves stealing bikes.	Graffiti, thieves, homeless.	Personal choices leading to a low income in a marketplace demanding a high one.	The city encouraging garbage dumping in the streets.	We need densification to be allowed so housing can be built.
Salt Lake City	lack of low income housing so people have an address so they can get a job	Homeless lack of a job to be able to afford a bike or car. Also the huge problem of criminals stealing bikes and cars in our area.	The police are bared from putting non-violent criminals in jail by Sherriff Winder.	Mindset that they are entitled to get their way paid.	The police need to be able to lock up nonviolent criminals in Jail.	Money to lock up non violent criminals in jail. The purpose of government is to protect citizens. This basic need is not being done.
Salt Lake City	Personal choices and the lack of self-discipline.	There really isn't other than the inconvenience of taking public transportation.	Young men who peddle drugs, steal, and spray graffiti on property to mark their territory.	Personal choices followed by wealth inequity that is virtually impossible to solve.	Well, my single greatest need is for the Open Spaces department of Salt Lake City's Parks and Recreation department is to convert a small piece of land on Emery Street to a bee and butterfly sanctuary.	The lack of really cute street lights on 400 South is an aesthetic injustice. Why did 900 South get them? No one lives there. Outrageous!

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	People lacking the personal discipline and critical thinking skills to refrain from making astoundingly inane and stupid life decisions.	Our lack of urban density doesn't make public transportation viable when it literally takes 45-60 minutes on a bus to drive 4 or 5 minutes in a car.	Our molycoddling of the homeless population, SLC's east side dumping every felon, child predator, and homeless type in my neighborhood because their mortgages cost more than ours, and politicians who lack fundamental fiscal acuity and common sense when it comes to "solving" the homeless problem. Now y'all are going to build shelters in the county, just on the other side of the city, RIGHT ON THE JORDAN PARKWAY? As if the JRP weren't already a major drug transit corridor... Sheesh.	Dumb choices couple with enabling behavior by friends, family, and society writ large.	Zombie houses and rental properties being allowed to violate every code conceivable, staying vacant, and becoming a blight for us owners who actually put a dime or two into our home and yards.	The greatest need for the Poplar Grove neighborhood is for the city to finally put some money into it and make it look attractive. For example, y'all put a bunch of cute light in an industrial district on 900 South which is completely retarded. You should've put them on 400 South since it's a major transit corridor between downtown and Redwood Blvd. Sheesh.
Salt Lake City	Living Wages	Cost of public transportation	Most do feel safe, but some need physical and mental health care	Mental Health care	None	Mental and physical health care and educational opportunities for the poor.
Salt Lake City	Lack of education and support	Downtown is a quick drive or bike ride away, but the buses can take a bit longer. Would be helpful to have more thorough public transportation.	I think most residents do feel stable and safe. Maybe having more businesses nearby?	Systemic class stratification, creating a lack of support and resources in their family/friend networks to help through hard times.	Quality public education for students.	Keeping housing affordable and creating employment opportunities with living wages for people of all education levels, even as SLC's population continues to grow.
Salt Lake City	I live near both homeless shelters so I say the few homeless that give the rest a bad name	None come to mind	The homeless. I have PTSD so seeing so many people living on the street so close to where I live causes bad anxiety	Not receiving a living wage. Minimum wage is not a living wage	Affordable housing	Affordable housing

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Access to employers who are willing to hire people on a part-time basis.	None that I am aware of in my neighborhood.	If law enforcement misinterprets someone with a cognitive or developmental disability and uses deadly force. This is a huge concern for parents of autistic children.	Not paid a living wage, mental health issues and substance abuse issues.	Helping the most venerable with employment and housing.	Employment of young adults with disabilities who can not work 40/hours a week, but can work 10-20/hours a week and housing for these young people so they don't live in their parents basements all their lives.
Salt Lake City	The homeless and all the tagging by gangs	There really isn't. Trax line and buses are all around.	The homeless and drug dealers	Cost of living is to high and not enough SSI benefits for those that are on it.	Crime	Drugs and crime
Salt Lake City	Low cost job training, poor education, lack of low income housing.	Low cost bus passes.	Lack of police presence	Lack of education and job training	homeless services	job training/placement
Salt Lake City	Our governor, mayor and congressmen are not listening to the people. The seem to be listening to people with the money.	Safety.	Homelessness, transient population, drugs	Taxes, economy	Safety	Safety
Salt Lake City	People on social security having to put their whole check on rent... they can not pay utilities or buy food. They need to be placed on public housing to help lower their rent, so they can buy food.	Over populated... too many cars on the road. Roads falling apart and nothing be fixed. Calling the Mayors office is worthless. Get no where	Drugs, gangs... bored youth. Animals not being locked up and left to run wild.	Elderly and disabled living on Social Security. Not prepared for the death of a spouse. Lack of education and job skills.	Rent is so outrageous that the elderly and disabled are spending their whole check to rent and medication. They need to placed on Public housing with low rent so they can buy food.	Food, utilities, rent
Salt Lake City	Lack of upward mobility due to being stuck in low-paying jobs, while the cost of living continues to rise	The schedule of buses to certain parts of the city crucial to obtaining groceries or medical care.	Police, fire and medical resources being tied up in the Rio Grande area, due to the homelessness crisis.	Lack of good-paying jobs that gives them the ability to move up in the world.	Policing of the streets to catch speeders, red-light runners and aggressive drivers. I walk, and ride my bike a lot, and feel that I am taking a chance every time I'm out. Drivers routinely run red lights, knowing that there is no "cop on the beat" to stop them from doing so. More motorcycle patrols, please!	Good jobs, affordable housing, alienation of folks due to age, skin color or ethnicity in the wake of the rise of hate as acceptable behavior.
Salt Lake City	Education	Cost	Homeless vagrants	Poorly paying jobs due to education and opportunity.	Affordable housing	Affordable housing

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Poor transportation options / COL rising faster than compensation	UTA's schedules 'for that white working man'... no consideration to regular people who work 24/7	SLC mayors (biskupdki & becker) focusing on pet projects, not needs of SLC residents	Lack of access to resources from education through help	Homelessness	Homelessness; containing an out of control police force that abuses residents
Salt Lake City			homelessness and drugs	inadequate education and job skills	lack of healthcare for all	healthcare and housing
Salt Lake City	Our massive pollution problem keeps great companies from moving to Utah. I attempted to get my company to move here, but the other leadership are happier with their cleaner air in Colorado.		The meth house on Fremont Ave, the at-risk students that do drugs in the alley between Fremont and Paxton Ave, and the steady stream of people on the street trying to get minimum treatment for substance abuse and behavioral health illnesses.	The massive use of government regulations to keep wealthy Republicans well above their workers trying to exist on less than a living wage as they make large profits for owners.	Help for those who cannot afford to live at even a mildly substandard level.	Control of corporate and political interests that are destroying the community and the education of our youth.
Salt Lake City	lack of money due to costs of housing for low income households.	costs and the time it takes to use the public transportation system.	homeless mentally ill people and their problems and troubles.	jobs that don't pay enough, so people can't get ahead.	affordable housing. I'm in a not so safe place, because I can't afford the costs off a better place.	Affordable healthcare and housing
Salt Lake City	Fear of people on the street who are drug dealers or mentally unstable	Cost	Drug dealers and mental instability of some homeless people	Education combined with parental love growing up	Healthcare services for those with low income	Healthcare. We need a single payer national plan for All. Poor and elderly need cheap healthcare Services.
Salt Lake City	Access to public transportation	Lack of public transit	Overflow homeless from the Rio Grande area	Lack of economic self determination/low wages. Workers don't get paid enough to save or have job protections	Please house, treat, and feed the homeless	Homelessness-people have no control or protections to keep them from becoming homeless

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Support systems	Timing and disability services	Political indifferences	Education inequalities	Funds to keep housed and medical needs being met while attending school and working part time	Homelessness and mental health
Salt Lake City	mental health issues and substance abuse issues	affordable, safe transportation--door to door--for elderly and disabled beyond just for medical appointments. Quality of life issues...	People are worried/concerned (justified or not) about the homeless folks hanging out and sleeping in all sorts of places.	Health issues-- medical and mental. Preventative, emergent and/or chronic	Preserving historical homes and neighborhoods in ways that keep the housing safe, up to code and still reasonably affordable.	Issues with refugees, immigrants and others who will feel too frightened to access services.
Salt Lake City	Transportation - buses that run more frequently for longer operating hours, including Sundays	Cost	Mutual respect	Education, attainment and achievement	Quality, affordable rental units	Services for seniors, especially housing - just as we have tons of kids, we have tons of seniors, now and on the way, without the infrastructure necessary to serve them in their neighborhoods
Salt Lake City			Drug addicted people on State Street, loitering around smoke shops, pawn shops, and quick loan stores.	Lack of education, or lack of placing value on education.	Cleaning up State Street.	Maintaining safety of homes surrounding the pawn shops and title loans stores that attract crime.
Salt Lake City	Housing and affordable mental health services	Lack of affordable public transit on the west side of salt lake city -- also - we need more busses	Folks experiencing homelessness	Debt	Homelessness Lack of affordable and convenient public transit	Public Transit
Salt Lake City	Availability of nearby jobs.	Speeding and dark streets make walking to work and the grocery store difficult and dangerous.	Vehicle burglaries and property crime.	Lack of support services families who are just making it and have a temporary economic or other hardship.	Pedestrian safety.	Healthcare. There are no to very few hospitals, clinics, dentists or doctor's offices in the Northwest quadrant of the city.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	I think that there is a lot of economic opportunity here, but I think that the jobs that people have are not necessarily high paying jobs, making it difficult for people to make ends meet.	It can be costly if you are not supplied a pass through work or school. Additionally it is much more efficient to drive some where because it take much less time. I think that putting money into expanding our public transportation would be really beneficial. I also think that biking is a great way to get around this city but there is a lot of room for improvement regarding bike lanes and bike safety.	I think the surge of the homeless population has brought about a lot of safety concerns. Personally I lived in the liberty wells neighborhood in a spot where my car was broken into almost on a weekly basis. I found needles in the drain out by my house, and there were many people who were clearly under the influence walking by my home, making me feel unsafe. I think that the Salt Lake City police do a really wonderful job, and it would be great to give them funding to address the many issues in this city.	I think that number one is if people are born into poverty it is the greatest factor for determining if they will live in poverty as an adult, which is why it is so important to help those living in poverty now to try and break the cycle.	I think that the greatest need to is to help the homeless population, I think that this will be good for my safety, as well as good for my whole community to give these people a second chance.	I think that there is going to be a really big need for affordable housing. Already in the past few years the cost of housing has increased dramatically. Personally I looked into buying a home and it is just not possible with my current income. I think another great thing about my community is that there are a lot of parks. I think this really contributes to a good quality of life for me, I think that as the population in the city grows it will be important to protect these green spaces. I also would love to see more bike lanes throughout the city and bike awareness programs for those who drive cars. Anything that makes our community more bikable and walkable I think would be one of the best services that could be offered.
Salt Lake City	High cost of childcare and housing. Lack on increase in wages as the cost of living goes up.	The bus does not go everywhere in the county that may be needed and still requires walking. The times the bus runs.	Lack of income resources and long waitlists for services.	Medical Needs.	Affordable Housing.	Free/ Affordable Health Care for those without insurance or undesirable insurance.
Salt Lake City	don't know	don't know	The homeless, and drug addicted populations wander the streets and feel free to walk onto people's property to steal mail, property, etc.	educational failings	drug and alcohol addiction	availability of housing, particularly low income housing

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	absence of assertive mental health services. we need more ACT & ACOT-type teams.	Service providers typically only give out bus tokens. Trax doesn't take bus tokens. Also, bus routes are most reliable running north/south. Getting anywhere east/west is much more difficult.	same as 5: absence of assertive mental health services. we need more ACT & ACOT-type teams. Schools, service providers, etc have to exit/suspend/kick out those residents that are most difficult to discipline. Without accessible outreach teams to meet those "most difficult to discipline" the housed residents feel less safe (as the "most difficult" residents roam the streets) and the "most difficult" residents themselves become increasingly ill themselves.	Insufficient support. The community safety net is insufficient.	Again, more ACT and ACOT type teams, running to fidelity.	ACT and ACOT teams, running to fidelity.
Salt Lake City	Education. For youth, HS graduation rates. For adults, scam for-profit universities.	Unsure.	Lack of foot patrol and bike cops (I live on the Jordan River.)	Intergenerational traps that force people into the workforce before pursuing an education that would enable higher paying jobs.	Class sizes in schools.	Educational opportunities for adult immigrants and refugees.
Salt Lake City	Access to employment and housing	High cost of public transportation with little employment	Access to housing	Cost of living and housing has increased	Affordable housing	Affordable housing income based complexes rather than new over priced apartments
Salt Lake City	Language, skills	Frequency of buses	Traffic safety	Lack of jobs with the skills they have and language barriers, lack of certification (many people come from other countries and are educated or have skills but no certifications in the US. We need a program where people can document their competence and graduate. Example: http://www.neiu.edu/academics/nontraditional-degree-programs/university-without-walls	Traffic safety, home repairs for low-income, disabled or elderly, clean up along the JRPT and other corridors	Issues related to mobility for the elderly

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Affordable housing and crisis services.	Limitations on late night service (concern for those working graves or swing shifts). Also expensive.	Residents in my community have seen an increase of individuals who are homeless sleeping in my neighborhood park (Tauer). I am sure those individuals feel very vulnerable. I don't feel they pose a risk to me. I do feel like it is the definition of unstable - not sure where meals, support, or shelter are coming from.	Women who leave marriages or are left are often rapidly plunged into poverty which can make leaving violent households very difficult. I think addiction, cycles of poverty, and lack of truly affordable rentals is real.	Crisis support for victims of sexual violence.	Affordable housing.
Salt Lake City	Housing costs.	Public transportation is easy to navigate in my area. But the walk to bus and trax stops feel unsafe, and I have often felt uncomfortable around other passengers (making sexual comments, repeatedly asking for money, following, shouting at or threatening other passengers).	lack of awareness of what measures are already in place to keep us safe.	Education	I believe all of the needs are being addressed in some way or another. Though, not enough is being done for air quality.	I'm not sure

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Lack of job training and gerrymandering, which stem from institutionalized racism as well as	900 West needs to be revitalized - the potholes are insane. I don't take the bus, so I can't speak to that accessibility.	Intersections should be repainted and lighting needs to be improved - specifically along the river, but also along residential streets. I should be able to walk my dog after dark.	Institutionalized racism and lack of access to quality education as a result.	Economic development - job creation and local business entrepreneurship. And beautification! When I drive on surface streets from the east side to my home in Poplar Grove, my heart sinks. It's depressing to watch the view out my car window transition from walkable neighborhoods with cafes and bars and tree-lined paths and sidewalks that the city actually maintains to crumbling infrastructure, boarded up small businesses and chain link fences as far as the eye can see. All in the span of 2 or 3 miles. My neighbors to the right and left of me have owned their homes for 48 and 25 years respectively. There is tremendous pride in their ownership, but the pot holes in the roads, the burnt out street lamps, the uneven sidewalks? That's on the city. The West Side is the future of Salt Lake City, wake up and take care of us - we're tax payers as well.	Infrastructure, economic development, AFTER SCHOOL PROGRAMS, beautification. We need political representation that will advocate aggressively for our needs west of the freeway. It benefits us all - regardless of where you live in SLC, particularly with home value and attracting tourism and talent to the state.
Salt Lake City		I do not believe that their is an issue with transplantation. UTA has a very great set up.	The appearance of our neighborhood. I am referring to the Poplar Grove area.	Education!	Adult family education. Family drug education	Funding from city to help residence up grade their surrounding property.
Salt Lake City	Inadequate support services for low income residents.	Cost, limited evening/night runs for public transit	Not enough low income housing options	They were born into poverty	Safe, affordable housing	Safe, affordable housing
Salt Lake City	Fewer homeless shelters near families with small children	Track trains that do not allow homeless to ride for free.	Lack of homeless shelters with too little policing.	Because there isn't enough free crap.	Homeless shelters	Homeless shrlters

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City					Crisis services	Accessible public transportation that will help improve the air quality crisis we are facing
Salt Lake City	Along North Temple on the west side, we are missing a variety of businesses that make a community. This is also a designated census tract for low income housing so we also need new market rate housing and to eliminate blighted or abandoned properties.	They call it the last 1/4 mile so it would be access to bus routes or bike stations to get people closer to Trax.	There is a significant homeless population and sex trafficking population along North Temple and not enough police officers or public services to assist these individuals. There are also people living by the river because we've been told they don't feel safe in the shelters.	Low wages and a conservative pro-business Republican supermajority	The greatest need is for bad property acquisition and revitalization.	A mix of affordable and market rate housing.
Salt Lake City	High rents	Parking, public transportation	Job loss	Housing	Transportation	Transportation
Salt Lake City	In my extended community: education and experience requirements	Lack of mass transportation options - riding the bus for commuting can be really hard if you have children you need to get around and care for	Not much - I live in a "fancy" neighborhood	lack of a safety net	homelessness solutions	I think there will be many if we don't get a handle on climate change, as it will affect every sector. I'm particularly concerned about being vulnerable to wildfires as climate change continues to reduce our winters and extended our summers.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City		Public transportation in Poplar Groove is limited compared to other areas of SLC.	The image. When you visit the neighborhoods that are more desirable there are certain aesthetic items that make them seem safer and stable. No front fences, very little chain link, large trees. My neighborhood needs new trees at least to improve the image.	no access to opportunities.	improved street lighting	public transportation
Salt Lake City	Lack of affordable housing.	Affordability	Housing	Generational poverty creates a lower starting point for kids from low-income families.	Affordable housing	Affordable housing
Salt Lake City	east/west segregation	train tracks, which force west siders into cars, buses and trax while east siders can walk and bike with no impediments.	We have had repeated small thefts of things like garden tools, plants, outdoor umbrellas and the police really aren't interested. We have to keep everything under lock and key and outside doesn't seem very friendly. All these small crimes with no real solution or response creates a constant level of stress and feeling of insecurity.	The at-will employment doctrine, health problems, mental health problems, discrimination based on income often exacerbated by over use and misuse of credit reports.	I live in west Salt Lake and I think retail and services in a walkable configuration is missing.	senior housing
Salt Lake City	More advice and education on available work places	None	More trust with police	Lack of education and low minimum wage	Improvement in school curriculums	Lack of rental housing and properties prices accessible for purchase
Salt Lake City	lack of knowledge and \$\$	poor bus routes, too much emphasis of front runner	domestic violence, affordable housin	one bad luck experience (domestic violence, losing job, health crisis, substance abuse) spirals into the next	subsidized housing	subsidized housing and substance abuse treatment
Salt Lake City		Low paying or lack of Employment opportunities.	Too many vagrant or homeless wandering around	Lack of jobs and or training affordable opportunity.	Education and reality of Human Trafficking	Safety and parental training
Salt Lake City	Lack of affordable housing NIMBY	Too focused on cars Transportation schedule not comprehensive enough	Low tenant rights No legal representation for tenants during eviction proceedings Low neighborhood cohesion	Wages have not kept pace with cost of living	Increasing all times of affordable housing	Affordable housing

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	City and county giving the tax payers money to projects like the Eccles Theater, and several other major projects.	N/a - UTA didn't care	The lack of action by both SLC and SLCo mayors and council addressing the escalating drug and homeless problem over the last 7 years, then placing all of it on Jackie Biskupski - ridiculous	Too many jobs at minimum wage or \$10 per hour. Don't you think lumping all traditionally held female jobs into a significantly lower salary grade might create a huge problem? Positively criminal	For SLCo mayor, all councils, government officials to listen to people who aren't rich and powerful. Those committees are clueless when it comes what the real people need.	City and county revenue because you all keep giving tax breaks and cuts to companies
Salt Lake City		Inadequate bus service	ICE Threat of deportation	Education	Homelessness	Infrastructure: Water, Streets
Salt Lake City	Capitalism	Not enough access to fast and reasonable transit. 15 years ago I lived in Rose Park, while I was a grad student at the U. The bus from Rose Park to the U was at least 1 hour, while the drive was 15 minutes, and service ended at 6pm. THE BUS ROUTE IS STILL THE SAME. The people who need transit the most have the least access. This is ridiculous. I'll try not to say it's racist and classist, but it's those too.	I'm not sure. I feel stable and safe, but I'm white, middle class, employed, a citizen, and so many other things that aren't on the list of targeted groups. I hope you'll ask people who are so that you can get real answers from people who live in fear.	Capitalism	Systemic violence (racism, misogyny, ablism, etc.)	Housing and food insecurity
Salt Lake City	High housing prices	Accessibility and routes serving low income communities	Lack of trust in police	Lack of income growth opportunities coupled with an inability to get support to solve family challenges.	Affordable housing options	Affordable housing; NOT subsidized housing programs
Salt Lake City	Low wages.	Inadequate public transportation options, as well as expensive parking in downtown SLC.	Not enough affordable housing opportunities for those with lower income.	Low wages for people without a college education.	Better transportation from our community to economic centers.	Housing opportunities for lower income families.
Salt Lake City	Lack of exposure to cooperatively owned and controlled businesses.	Feeling unsafe using public transit and irregular bus schedules	Not spending time meeting each other as equal neighbors.	Unexpected emergencies like healthcare costs.	The need for on-site renewable energy generation.	Climate resilience systems (like localized food production).

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Low wages.	I live where buses/trains run regularly. The frequency of transportation (time between buses) is sometimes difficult.	We have transients, others from outside the neighborhood who set up camp, leave garbage, broken bottles in our local park near our homes.	Lack of resources and an understanding of how to get to them even when they are available.	A path to home ownership.	I am not sure. The neighborhood seems sketchier all the time. I have called the police on drunk groups of people. I report graffiti. I try to pick up garbage when I find it.
Salt Lake City	Jobs do not pay a living wage.	We have bus stops close by. But it takes so long to travel all the transfers that I travel for 2 or more hours morning and night. That takes away from my family time immensely.	No one knows their neighbors anymore. People are too afraid or just too lazy to get out and socialize.	Lack of better education and competitive wages. Low paying jobs require little to no education while higher paying jobs require better education. Little or no education = low pay, long hours, and no time to improve ones self.	Education. Our schools are overcrowded and far too underfunded.	Education and more competitive wages.
Salt Lake City	poverty and racism	Minimum wage isn't a living wage. People can barely afford rent, much less food AND a car.	Tolerance from white and LDS people. Poverty even when working a full time job.	Education. Without an education one is often condemned to minimum wage which is not a living wage. That is if they are lucky enough to get a job without having to fight racism and sexism and the pay gap that comes with it. This is can be proven by researching pay based on race, ethnicity and gender.	My sister is mentally ill, drug addicted and homeless. I am raising her 14 year old child now. It has been a nightmare for several years. It's obvious that this state would rather build more jails and prisons than mental health facilities and drug rehab centers. There is no empathy in our government and it is killing families.	Mental Health Services Drug Overdose Deaths/Orphans Left Behind
Salt Lake City	Mental Health services/drug treatment	No late evening and Sunday service	Ben McAdams and Jackie Biscupski and their hell bent quest to force homeless shelters into neighborhood locations they picked while denying the neighborhood the opportunity to provide location specific input.	Drug addictions and mental illness	Drug addiction, mental illness, gang violence.	Drug addiction treatment, mental health care, and putting criminals and gang bangers behind bars.
Salt Lake City	Education	Convenient public transportation	Homelessness	Lack of education	Affordable housing	Early childhood education

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City					Grocery store	Grocery store within walking distance
Salt Lake City	Language	East-west transit	Rental housing that is not kept up.	Grit	Upkeep of commercial space that sits empty or dilapidated.	Public transportation
Salt Lake City	lack of livable wage			Low wages	Positive plan to equitable growth	access to information about services
Salt Lake City	Very little commercial zoning in Rose Park = must have transportation out of neighborhood for employment	Limited hours of service for buses/trains, especially at night	Hearing gunfire - so unsettling!	Systemic oppression and differential access to resources	Affordable housing	Access to healthcare
Salt Lake City	housing	cost	street crime	low income	housing	crime and housing
Salt Lake City	poverty lack of education	no money to pay for the bus/trax	crime/gang activity	Mental Health	Mental Health	Mental Health
Salt Lake City	Expensive rent.	Price.	Rise in the price of rent are pushing people to areas that feel less safe.	School is expensive and qualifications for jobs seem to increase in expectation while pay for these jobs remains low.	Too many cars, increasing poor air quality with public transportation remaining high in cost.	Air and water quality.
Salt Lake City	Limited low-cost post-high school education and training opportunities.	No barriers.	No comments.	Unaffordable housing.	Affordable Housing.	Affordable Housing.
Salt Lake City		I know that the largest barrier for me is having to walk from trax to where ever i am going.	I feel pretty safe	lazy	well I am unable to work and I only get 750.00 a month. well any place you rent from your income needs to be three times what i make. How do I do that?	not sure

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Minimum wage needs to be a living wage	Public transit access (infrequent, hours should be 24/7 and holidays and Affordable	Minimum wage isn't living wage Untreated addiction and mental health issues and the poverty that goes with it	The special breed of capitalism in Utah	Poverty	Senior services Affordable housing
Salt Lake City	Available space and a willingness to invest in a low income neighborhood.	Frequent buses and inconvenient bus routes and poor quality bus stops (no benches, not clearly marked bus stops)	Unresponsive police officers and homeless camps in local parks and river trails.	Low wages	Rents are too high.	Affordable housing.
Salt Lake City		Slow services, stops not near important areas			Crisis services	Crisis services
Salt Lake City	Housing affordability.	So many cars on road. Beef up public transport.	Need more community policing. Must have after school programs for the children.	Stagnant Wages and lack of higher education.	Affordable housing.	After school and affordable programs for children while their parents work.
Salt Lake City			The aforementioned, horrible motels on State Street.	Difficult upbringings and family situations that keep them from achieving financial stability.	Neighborhood revitalization.	Safety
Salt Lake City	income & education to get certain jobs	no bike lanes	people keep breaking into our cars. No sense of community. No way to connect with neighbors because we are all renting- neighbor turn over.	the cost of living and groceries. The cost of internet. The increasing feeling of living in a fearful society is driving people mad. People are quick to judge and smudge out fear and guilt with substance abuse.	no outside space like a park or dog park. They need to make the land on 300 west next to Marmalade Library an outside park.	clean environment to enjoy

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City		Too much development in the Sugarhouse center has caused traffic to be a nightmare.		Lack of education and support services for those that end up in a tight financial spot.	Keeping the historical character of my neighborhood. We need to not allow tear downs and new homes to be rebuilt the don't fit the neighborhood.	Transportation
Salt Lake City	Education		Inadequate lighting, homelessness	Drug addiction, lack of education, mental health issues	Prominent Vandalism, Package Theft	Lodging for homeless
Salt Lake City	Connecting to services and support keeping in a program	Cost of transit rides or passes is out of reach. Young people would use transit and programs could suggest people use it to access services, but it is prohibitively expensive in most cases.	Problem homes (meth house, run down, bad renters, etc)	Starting out in poverty and difficulty getting out of it with food education and clear path to career.	High quality affordable housing. Lots of really bad affordable housing.	Housing for seniors. They need to move out of single family homes to boost home ownership for next generation and to minimize their own burden of property maintenance. But there are few appealing options to move into.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Our state is a "Right to work for LESS" state . In other words, wages are too low to live comfortably in Utah	Expensive public transportation. I don't use public transportation because it is cheaper and faster for me to drive to work	Stupid elected officials who want to force low cost rental units in neighborhoods and forcing the homeless into areas near schools, neighborhoods, business area, etc.	Lack of education and coping skills. Education is needed to successfully navigate through the challenges of life. Responsible money management, birth control, moral and ethical behavior need to be taught along with a work ethic. Medical pot should be legal to help with pain management instead of the use of dangerous opiate drugs used for pain. Mental health help needs to be readily available at all times instead of a six week wait for an appt. Single reason? Lack of education	Rational leadership by our elected officials. There is something rotten and corrupt in the State of Utah. The greed in this state is disturbing	Affordable health care
Salt Lake City	jobs in the IT sector without educated workforce to fill those jobs	Lack of easy effective mass transit. The UTE schedules are ridiculous.	Petty theft	lack of education, mental illness and substance use disorder	mental health services for all, including non-medicaid patients	transportation opportunities that improve air quality--including clean mass transit
Salt Lake City	No communication & information	I do not consider the transportation as an obstacle	Correct and fair immigration policies	Lack of training, study and English language	The largest and biggest need is documents for the noble people	Statistics show problems with "dementia" in the elderly
Salt Lake City	the GOP	WORKING POOR	GOP	theGOP	A fair playing feild	money the poor get poorer the rich get richer & the working poor pay the taxes for the rich

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	SLC westside no small business to speak of that will hire anyone NOT Hispanic. Not enough small business this end of town..Not enough UTA services in our neighborhoods on westside	UTA does little or no routes late at night, weekends, limited services, to far from trax to walk to local station for disabled yet many times only option..sometimes trains stay on trax for up to 45 minutes blocking access into neighborhood if walking from TRAX	Westside SLC not being accepted for not being the majority race this side of town, prostitution up and down 8th and 9th south and on 900 west..and police claiming they never see it. it happening ALOT!	Racism and or discrimination based on race or where you live by employers	Organic food shopping options , including place to eat out	Lack of good schools and additional educational services
Salt Lake City	Low hourly pay, + many companies hire individuals to work part time to avoid offering benefits. Women frequently aren't equally paid for the same work performed by men.	Too much simultaneous construction - traffic lanes being blocked for extended periods of time for no apparent reason. Terrible congestion causing thousands of cars per day to idle & emit considerable pollution into our already filthy air.	Vehicles being vandalized when parked in front of our homes; homes being burglarized.	Poor education and/or being part of a family that is deeply enmeshed in the myriad handicaps associated with long-term poverty.	Clean air NOW	How to manage problems associated with our rapidly expanding population: overcrowded schools; clogged freeways and roads; dirtier air; homes being built halfway up the mountainside & multi-family housing being crammed into already crowded neighborhoods; increased crime (+gangs, drug use & trafficking); loss of green areas & overuse of recreational areas; reduced quality of life.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Jobs that pay a living wage.	Limited public transportation.	Crimes of opportunity - theft from porches, garages, cars, ect.	Lack of a living wage. The average CEO makes much more than the average line worker. The average CEO of a major corporation makes more than 300 times what the average line worker makes. That is simply unsustainable.	My personal needs are generally met.	It will continue to be a living wage and that means affordable housing is also a critical need.
Salt Lake City	Having small and local businesses run out and replaced with national chains and a homeless shelter	People love thier cars. 2100 South is insanely congested. Building more trendy and overpriced apartments is not helping	Having a homeless shelter forced on our neighborhood. Not enough public safety resources.	Low wages. Giving good jobs to out of state applicants instead of hiring native Utahans, causing unfair competition because many other states have higher rates of higher education and free or low cost higher education.	We need resources for homeless, but not in residential area	Way too over populated. Not enough affordable housing. Higher paying jobs for native Utahans
Salt Lake City	I think suburban sprawl is a problem. Wasatch Front residents and State officials force all the non-profit, not-taxable things in SL proper. We need to keep good, high paying jobs downtown, not move them to point of the mountain. Not happy with the prison re-location. Also, I don't understand why homeless shelters can't be along transportation along the entire stretch of the Wasatch Front. Homelessness is a Wasatch Front problem, not just a SLC problem.	Transients make it difficult for families feel comfortable using transit in some areas.	Transients	I would like stricter zoning on rental in single-family dwellings. The high home prices should eliminate so much transition, but investors buy and rent. It causes a crime problem and a parking problem along streets. Especially because most of our neighborhood homes don't have two-car garages. It's a problem for snow plowing and pedestrian safety.	Code enforcement in SLC Proper residential neighborhoods. The sidewalks are broken and there's too much street parking and big party houses.	I think we have some resource problems. Let's make sure we don't lose open space to transients because of the mixed use development. I'm a fan of mixed-use -- to a point. 1300 and 2100 S. is okay, but if we continue to build up Foothill and 21st and 21st too much, there's no incentive for single-family dwelling. It's unsafe and congested.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Lack of transportation options (Trax, bus routes) that provide timely transport to/from the rest of the city; trains blocking us in/out	Union Pacific Railroad blocking us in/out and UTA not providing effective alternatives	lack of proactive civil enforcement	republicans	lack of proactive civil enforcement	lack of proactive civil enforcement
Salt Lake City	Selfishness, old age, too busy	People not home or walking	Too expensive to buy safety (alarm system)	Not enough income	Wages	A closer, more dependable aging center
Salt Lake City	I don't know	I don't know	I don't know	Mental illness	healthcare	healthcare
Salt Lake City	Not having access to affordable healthcare, so they can become self employed. Chain companies taking over small and local businesses.	People are married to the car and they will not use the public transport causing so much congestion on streets that were not designed to hold it	Increase in homeless population and lawlessness of the homeless population		Feeling safe in the city neighborhoods	Homeless and aging services
Salt Lake City	I live in downtown at City Creek Living and feel it is a super neighborhood...except for panhandlers.			Lack of education providing opportunity. Mental health issues. Generational poverty. Worked as a CASA and juvenile justice system as a volunteer. Sad...	Education	Education
Salt Lake City	Health care costs. If these were taken care of, people would have more options in the jobs they could do.	We need more frequent runs of buses, but make the vehicles smaller.	Lack of easy access to good health care.	They get sick, can't go to work, can't afford health care, can't easily access their caregivers.	Drivers need to slow down.	Fire/police protection. We are doing a lot of building, esp. high-rise...that will increase the population. We need more ladder trucks.
Salt Lake City				don't budge there money and get behind on there bills	more police officers to inforce the laws	sugarhouse is really growing, we need more police

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Housing costs	High cost of public transportation	Housing cost	Low wages/high cost of living	Housing affordability	Pollution/housing affordability
Salt Lake City	Variety of job is poor, and usually mod-low paying	Frequency of buses is low	Which areas you live in, some are much better than others for crime, etc.	Life "catastrophes" like losing jobs, low wages (in decent jobs)	Easier ways to afford good health care (cost + location mostly)	
Salt Lake City	Feeling of hopelessness that leads people to avoid helpful financial skill building and paycheck to paycheck financial planning.	Utah routes do not cover all areas and are usually unavailable in off peak hours such as evenings/nights and weekends.	Low wages, emergency savings for unexpected expenses	Low wages	Relevant financial skills coaching to build capacity for people to move off public assistance	Widening gap between the haves and have nots.
Salt Lake City	Affordable housing, inter-generational poverty and the lack of educational opportunities that creates		Mental health issues (especially those associated with homelessness)	Lack of quality, affordable education with reliable adult mentors	Affordable housing	Quality education
Salt Lake City	Marginalization of minority groups	High mass transit cost and too few options for mass transit	Homelessness	Growing up in it, feeling as though there is no way out and lack of equal opportunity for education and good jobs	Affordable and available mass transit options	Health care
Salt Lake City	Lack of affordable housing	Buses not running late/early, on holidays, etc.	Substance use	Having a background (bad credit, criminal record, etc.) that prevents education, housing, and employment opportunities.	Affordable housing	Immigrant and refugee services
Salt Lake City	Unsure	Unsure	Unsure	Unsure	Unsure	Money? Unsure
Salt Lake City	Treating the west side as SLC's red headed step child.	I have no complaints regarding transportation (except the traffic light issue mentioned above).	Rampant crime - all the way from bike theft on up to homicide.	Lack of resources.	Crime prevention.	Ongoing homelessness.
Salt Lake City	Access to opportunities	N/A	Not knowing or interacting with neighbors	Access to opportunities to acquire necessary skills	Affordable health care	not sure
Salt Lake City				education	people with disabilities not having an greater access to work or education.	economic development.
Salt Lake City	Education	No public park and ride on North Temple open all hours	Jobs	Better apartment management	Repair the River's Bend Senior Center	Public transportation- There is a need for a park and ride on 215 between 700 N and 2100 N.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Unwillingness of entities to recognize the connectivity of all pieces of success, shelter, food, education, access to medical and dental care, affordable and quality child care, respite care, transportation	The mindset of people that public transportation should be convenient and the conflicting mindset that those who take public transportation should be able to get around with the same ease as those with private cars	affordability of housing	underemployment	I feel that my needs are met. I am satisfied with the quality of my life	affordable housing/aging in place services
Salt Lake City	higher cost of living than in other parts of the state- it's hard to get a leg up	Buses that are too infrequent, bus stops that are too far apart and/or inconvenient	The criminal activity "hotspots" in the city- the gateway, the roadhome, liberty park, Wayne's corner on 1300s and state, etc.	The most common reason people experience poverty is that they don't have the money/resources to overcome obstacles (like a broken car or extended illness) and that throws them into a cycle of poverty.	Affordable housing	Victim care and advocacy
Salt Lake City		Local public transportation from downtown to Salt Lake to local Neighborhoods is lacking. Buses do not run frequently enough and the bus stops are mostly unsheltered and miserable places to wait.		Lack of livable wage. If you work 40+ hours per week, you should be able to afford a home for you and your family.	Public transportation. I live five miles from downtown and drive every day because public transportation is spotty and because bus stops are either mud flats or snow banks with no shelter.	Affordable housing and public transportation.
Salt Lake City	Little support for the community to improve their place of residence	The traffic is high for a short time. It should be program economic at least for 12 hours.	Have community meeting center, where you can get information about the achievement in the county.	Lack of employment opportunities and low wages. Lack of community education. How to take advantage of their income and how to manage their finances.	Private streets without maintenance and repairs	Improve the health, education, and housing and meeting centers for the community by giving more funding to the most affected area.
Salt Lake City		Bad and long bus routes		Health needs not being met including mental health.	Mental health needs	Mental health needs
Salt Lake City	If you can get free handouts,,why work	Spread out,,few high density housing locations	No lockup for misdemeanor crimes,,leads to more serious crime	Lack of marketable skills	Weeding out poor teachers,,not paying the GOOD ones well	Skills training

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Access to education, personal financial management training, safety, and gentrification.	TRAX efficiency.	Access to education and higher education.	Access to education and family legacy exacerbated by historical marginalization.	Homelessness.	Access to education.
Salt Lake City	Investment capital	none	stable work environment not dependent on foreign labor or meat imports	lost faith in the democratic system which is capital increase. A properly monitored Republic seems more stable for seniors land unemployed	label stress during normal work	More food
Salt Lake City	high cost of living	high cost of individual fares, and not enough routes / not enough buses along the existing routes		lack of basic financial literacy education and other educational opportunities	teachers are not being paid enough, and society as a whole does not value teachers and their contributions	adequate, environmentally-friendly, convenient, cost-efficient (for both the state and the riders) public transportation
Salt Lake City	Lack of education	Not enough public transit options.	Not enough income & to much for rent = never able to get ahead.	1st is lack of education. 2nd is jobs don't pay what we are worth. Everyone is looking to save money, even if that means that hard working employees go home and starve or seriously struggle.	Affordable housing.	Not enough income.
Salt Lake City	Affordable transportation to jobs in the same or nearby location to where they reside	Affordability	Patrolling in neighborhoods where calls to police are common		Recycling at all residences and businesses	Affordability for health and environmental related services
Salt Lake City	rising housing and living expenses without increasing wages	UTA's awful operating hours and exorbitant cost which requires a car thus increasing liability and overall expense. You NEED a car in Salt Lake City.	Homeless Resource Center announcement. People don't feel safe and don't feel stable since they may have to move or sell their homes or deal with the unknown population.	lack of affordable housing	homeless shelter being put in the neighborhood	removal of homeless shelter in neighborhood and additional safety provisions
Salt Lake City	For many people I know, this is a lack of adequate public transit.	Bus routes with very limited run times	Uncertainty/distrust of others	low paying jobs with costs continually rising	Lack of affordable mental health care services	Affordable housing and improving air quality

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Low wages, infrastructure and education	None we have a great transportation system	Education, gang issues	Lack of education - navigation	?	Environmental issues, educators trained to work with increased poverty and diversity while getting paid well
Salt Lake City					Roads	Parking and roads
Salt Lake City	Less than ideal access to crisis intervention or educational help, much easier to find drugs.	Economical impairment, bad scheduling for public transportation.	Drugs and drug-related crime. Those who use unhealthy coping mechanisms threaten those who are more able.	Inability to cope with crises, turning to bad coping mechanisms such as drugs.	Education funding.	Immigrant or refugee assistance.
Salt Lake City	Job opportunities and security.	I don't think there is any large. We have very good Transportation throughout our community.	Job opportunities and security as well as additional higher education.	Education in Access two safe learning environment.	Unemployment and in an abilities to access additional education Beyond High School.	And sure as I do not plan on being in this area in five to ten years.
Salt Lake City	Non-free public transporation	Fees	Politicians pursuing pet projects in closed door meetings	Unwillingness to move	Political accountability	Realistic economic planning
Salt Lake City	Racism.	Getting UTA to listen.	Street lighting would help.	Lack of education.	Communication from city and county organizations when a change is going to happen. Some folks seem to think it is the responsibility of those organizations to contact them personally than citizens becoming informed for themselves.	Education and transportation. Also breathable air.
Salt Lake City	I am not sure but I wonder about jobs for those with less than a college education	costs-it seems that the costs for bus and Trax is quite high.	drive up drug deals and stolen cars-many residents do not have garages and cars are parked on the street and easier to steal	That is a huge question-I one is lack of education, however I am not sure that it is the single most common reason for a multifactorial issue	boy another huge question! I will go with affordable, timely transportation	Affordable housing and transportation
Salt Lake City	lack of education	barriers, including a train that creates a block for residents to come and go from community	fear that is unfounded	lack of education	mental health services	housing
Salt Lake City	information about jobs and access to training	neglected bus service	regular police patrols in squad cars	access barred to opportunity (for a number of reasons)	genuine communication between residents and those who hold public office (and their staff members)	clean air and transportation

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Minimum wage that doesn't provide a living wage	Poor bus times and options	Lack of money	Lack of education	Education and Environment	Equal pay for women & environment
Salt Lake City					Air Quality	Air Quality Women's Health (access to affordable healthcare and health information)
Salt Lake City	Trauma and mental health issues.	Cost/infrastructure	Violence and lack of access to effective law enforcement response.	inter-generational trauma and oppression.	Trauma-informed services.	Access to health care services.
Salt Lake City	Lack of affordable housing.	Wide streets with fast speeds are hard to cross on foot or bike to access area services.	High number of rentals and absent landlords	Addiction	Home maintenance/repair	Affordable housing
Salt Lake City	Cost of housing	Reliable transportation and access to mass transit	Police response times	Employment training	Home value exceeds individuals ability to afford to stay.	Affordable housing
Salt Lake City		Transportation costs, lack of walkable options.	Lack of sidewalks and crosswalks. More lighting at night.	Overspending	One of the most commonly walked routes to school (Highland Park, Atkin avenue right behind the school) has no sidewalks!	More pedestrian and bike friendly transportation options
Salt Lake City	gentrification	Allowing private developers to put up multi story commercial buildings	lack of police or under managed police	High competition and lack of individual pride & work ethic.	Lack of police patrolling or presence	public transportation and lower income housing besides high rent rate housing
Salt Lake City	Lack of education, the area in which I work is filled with refugees and immigrants. Due to the language barrier and lack of education, it is hard for this population to get jobs.	Cost, although it is cheap some families are unable to travel via public transport because it is not deemed a necessity.	The crime rate is relatively high	Lack of job opportunities	More funding	A homeless shelter is being put in our area and the city does not have the resources necessary to support the need.
Salt Lake City	Lack of resources and well paid jobs vs. high cost of living.	Expensive and sporadic public transit.	Property crimes and homeless epidemic.	Low-paying jobs or underemployment vs high-cost of rent, healthcare, food, and childcare.	Clean air.	Healthcare.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Lack of revitalization efforts, which probably makes our neighborhood less appealing for businesses.	Lack of bike lanes for many residents who rely on bicycling as a necessity.			Revitalization efforts to encourage us to take more pride in our neighborhood.	Keeping up with economic revitalization occurring in other parts of the city like downtown & Sugarhouse to attract an economically and culturally diverse neighborhood.
Salt Lake City	Lack of reliable public transportation.	UTA's general plan does not extend past 1000 North. There's still a lot of SLC north of that street!	Speed bumps on Colonel Rd right along Westpointe Park. People drive entirely too fast on that street.	Not enough money; without a doubt.	I wouldn't mind seeing a dog park in Westpointe Park.	Public transportation.
Salt Lake City					Speeding	police
Salt Lake City	probably transportation	the cost of bus fare. I have recently used the bus to get to work & know that the cost might be prohibitive to some.	street lights, retail stores are an island that for some is not a walkable distance	stability. if you have to move every year, it costs money, you lose items that you have to replace. kids have to start over in school. people NEED housing. even a two bedroom house can handle a family in the right circumstances.	low income rental proerty	housing/zoning
Salt Lake City	Education	The freight trains that cut off the west side of Salt Lake City.	More lights at night	Lack of education and information	Affordable housing	Affordable housing
Salt Lake City	Homeless	Homeless on TRAX	Homeless & theft	Not coping with the real issues; mental illness, drugs & drinking, lack of enforcement...the Good Old Boy system!	The huge # of rapes, unsolved! Homeless, theft!	Mental health
Salt Lake City	The SSI Program, people feel entitled. People need to do service for the money they get, even if it is just a few minutes. I feel people have more self worth if they work for what they get.	Most likely getting to the bus	The homeless & drug problems around us	Not educated and unable or unwilling to work. Most people feel entitled to the free life	Educate & teach while children are young, that hard work has a greater value and education helps.	Drug rehab and housing

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	drug addict centers-homes too many in our location...	only 2 buses on odd route schedule with the hub bus schedules...add more buses or route options with more pickup drop off times	the homeless drug addicts searching for homes unattended I have lived in my home for 8 yrs and have been robbed 3 times not including them wandering in my yard and just taking lawn ornaments.	greed...ee's want to be overpaid and employers want to keep monies in their bank for the rich lifestyle toys! There has to be a fair balance and respect for both!	drug houses and roads	transportation and getting DEA involved in taking down drug houses and its right in the streets. Cops just drive by while this has happened.
Salt Lake City	None, we are very privileged in the wasatch hollow area	Buses run infrequently, they have severely reduced services at the weekend. The bus stops are exposed, so you get to be wet and cold in winter or sunburnt to crisp. The routes are limited. My daughter would have to take two buses, taking over 45minutes to get to school, it takes 7 minutes to drive there.	It is very poorly lit at night.	Lack of educational opportunities and college is expensive, vocational tracks are not offered enough in high school.	Public transportation and traffic, thirteenth east is a nightmare now.	Public transportation
Salt Lake City	Their wages don't match what they need to survive.	Having enough money to own a vehicle to get them to and from their job/school.	Probably the amount of homeless along the North Temple Trax line near The Gateway and west of the railroad tracks.	They aren't making enough money to support their lifestyle. Their jobs aren't paying enough or offering enough hours/benefits.	Additional resources to help the homeless and jobless. Not just daily financial assistance, but actual help in getting a job that pays enough and provides adequate medical insurance.	Services that help people to get out of the mindset of poverty and be self sufficient.
Salt Lake City	Convolutd liquor laws, lack of progressive ideologies among law makers	Limited access to public transportation, including limited routes and service	The homeless camps popping up all over downtown	Underfunded education system.	Poor air quality and lack of substantial legislation to fix the problem.	Affordable housing.
Salt Lake City		money to pay for public transportation		Inter-generational trauma, that exacerbates the limited resources families already have.	harm reduction approaches	Treatment funding for substance use treatment and
Salt Lake City	The city government imposing their will without our input.	Transportation seems to be well taken care of in Sugarhouse.	The decision to build a HOMELESS SHELTER in our quiet residential neighborhood!!!!	Wages not being adequate.	Our voices being heard and our safety/ security being considered.	People being able to afford housing due to low wages.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	I don't know about economic opportunity but I DO know how adversely the HISTORIC DISTRICT HAS BEEN TO MY NEIGHBORHOOD!!! (UNIVERSITY HISTORIC DISTRICT). CAUSING ALL OF US NOT TO BE ABLE TO IMPROVE AND/OR UPGRADE OUT PROPERTIES INCLUDING OUR RENTAL UNITS. WHAT?? NO FENCE UNLESS IT'S 3 FT? CAN'T PROTECT MY PROPERTY, ETC. CAN'T IMPROVE. THE HISTORIC DISTRICT IN THIS AREA IS ALL ABOUT WHAT THEY WANT AND NOT ABOUT IMPROVING. RATHER, WE HAVE BROKEN DOWN, ROTTING "WOOD" FENCES AND, NOT ALLOWED CHAIN LINK? WHAT? WINDOWS? CAN'T IMPROVE WITH NICE DOUBLE PANE TO SAVE \$\$? STUPID. THAT MAKES FOR POOR OUT FOR US	JUST TAKE A LOOK AT FOOTHILL BLVD! WHY, WHY ARE WE LOSING LANES FOR BIKES? WE ARE NOT PORTLAND AND, NEVER WILL BE. I SEE BIKERS CONSTANTLY NOT, NOT IN THE BIKE LANES BUT IN THE TRAFIC LANES. WE WILL NOT ALL BE FORCED TO GIVE UP OUR CARS AND/OR LANES OF TRAFIC . TRAFFIC WILL BECOME LOS ANGELES. I GUARANTEE YOU! GRIDLOCK IS HERE AND, WITH THE HORRIBLE PLANNING AND "HEADS IN THE SAND" , WELCOME GRIDLOCK! MORE ACCIDENTS AND MORE DEATHS. (I AM A BIKER, SO DON'T GO DOWN THAT PATH THAT I DON'T LIKE BIKERS!)	LACK OF ANY REAL LAW ENFORCEMENT WHO WANT TO HELP. NO NEWS LAWS, PLEASE ENFORCE WHAT'S ALREADY THERE! WE DO NOT FEEL THE POLICE WILL EVER HELP US. ON THE CONTRARY THEY TREAT US (THE VICTIMS) AS IF WE WERE THE PERPS! SHAME. JUST WHO IS IN CHARGE AND WHY IS IT THEY ARE SO UNAVAILABLE AND/OR AFRAID TO DO THE JOB ? WE PAY TAXES TO BE PROTECTED AND, WE ARE NOT.	TOO MANY FOLKS WHO "FEED" THE HOMELESS. NO ENFORCEMENT OF RULES, NO REAL SOLUTION BUT KEEP ON DOING THE SAME OLD THING. FULLY HALF OF THE PEOPLE BEGGING ON STREET CORNERS ARE NOT IN POVERTY. ASK THEM! OFFER TO TAKE THEM TO THE BISHOPS STOREHOUSE. THEY WON'T GO AND, WILL TELL YOU THEY MAKE MUCH MORE BEGGING ON A STREET CORNER THAN WORKING. ANY JOB IS A START, BUT THEY HAVE NO INCENTIVE BECAUSE SLC WILL "TAKE CARE OF THEM" I.E. YOU ENABLE THOSE THAT REALLY CAN WORK. IDENTIFY THOSE WHO TRULY NEED HELP AND CITE THOSE WHO ARE SIMPLY TOO LAZY TO WORK. I MEAN ANY JOB!	POOR POLICING AND IGNORNING THOSE IN NEED OF ENFORCEMENT. EXCUSE FROM THE SLPD ARE TOTALLY UNACCEPTABLE. TIRED OF THEIR EXCUSES. WORST CITY I'VE LIVED IN WHEN IT COMES TO ANY REAL CARE OF THOSE OF US WHO FOLLOW THE LAW. ALL WE WANT IS THE SERVICE THE LAW ACCORDS US. NEVER, NEVER HAPPNS.	GROWTH AND THE LACK OF ADDRESSING BOTTLENECKED TRAFIC AREAS: FOR EXAMPLE WHY, WHY CAN'T YOU MAKE MORE ONE WAY STREETS, I.E. 11TH EAST ONE WAY NORTH, 13TH EAST ONE WAY SOUTH. DUH.....500 AND 600 SOUTH WORK GREAT. 11TH & 13TH...NIGHTMARE . IT WILL SOON BE SAME ON MANY, MANY STREETS. YOU ARE ASKING FOR A BIGGER MESS THE LONGER YOU WAIT. TAKE A LOOK AT OTHER CITIES AND HOW WELL THEY HAVE SOLVED THE PROBLEMS THAT WE DO NOT ADDRESS. GAP OF SERVICES: MANY. AND MANY THAT REALLY EASY AND INEXPENSIVE FIXES!

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	You (the city) dumping homeless in our community.	Homeless taking over all methods of public transportation in free zones. I don't like sitting next to people who smell like urine and feces, asking me for money.	You (the city) allowing a homeless shelter to operate in our community that is not state licensed or monitored in a meaningful way.	felony records, not enough education, just plain lack of concern, because they know us tax payers will bail them out.	We need business that will bring UP the neighborhood. Perhaps a restaurant that serves something besides Mexican food, a store that sells something besides pipes.	If you keep making our neighborhood the ghetto, it will only get worse!

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	My immediate area is affluent, so it's hard to say. I do feel like property taxes have gone up a lot. I suspect developers are allowed to externalize costs. I think my neighbors are most concerned with pollution & the health effects of bad air quality. They're also scared of the Homeless Resource Center. I have to say, there's been completely inadequate assurance they won't be mini Rio Grandes. If you are rolling your eyes at this, just hear this--SHOW how this will be prevented. None of the centers were placed in places like Sandy or Murray or Draper or in wealthy neighborhoods. It was all in lower/middle class neighborhoods that are just coming up--finally getting ahead, gentrifying, & now their property values are already affected.	I've heard the bus lines & schedule change all the time, making it hard to use. 1300 E & 2100 S shouldn't be handling UofU traffic. That intersection is worsening significantly. Also, there's this thing where traffic lights can be synchronized to maximize traffic flow. That would be helpful throughout city & valley. Right now it seems the goal is to minimize flow, make sure everyone stops. It's like the original designer was a control freak who didn't want anyone to make a light.	1. Right wing nut jobs in legislature attacking everything I like about Utah, including my family's jobs. 2. Air quality going un-addressed. 3. Increasing volume of mentally ill homeless people.	Birth (family wealth & attitudes). And mental illness, if we're talking abject poverty.	Clean air.	Homeless volume. Transportation to help control pollution.
Salt Lake City	Mental health and homelessness.	Air quality. I would ride my bike year round if it wasn't for bad air during peak months (mid-winter and mid-summer)	Transient people.	Mental illness	See previous answer about rental properties.	Funding towards education.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	I've spent over 10 years remodeling my house because I wanted to live in sugarhouse it was in disrepair and on a limited budget have put my heart and soul into this house I finally have equity but imposing the Simpson emergency shelter site within my neighborhood will have a drastic effect on my home property value. Ask yourself if you had a choice to buy a home in the neighborhood with a homeless shelter knowing it was already there and build in the crime and drugs associated with it would you choose to live in that neighborhood? My answer would be no.		The largest barrier for me feeling safe in my community is the city selecting the Simpson site for the emergency homeless shelter the impact to the community will be irreversible and will be something that the citizens that live there will deal with on a daily basis many will no longer want to live in the sugarhouse area.	Low income especially for women unequal pay drug abuse and loss of job, medical expenses that no one with an average income can afford	Single greatest need in my community right now is the Simpson homeless shelter site at the publics concerns are not being addressed and this is not an appropriate or safe site for a homeless shelter.	The Simpson Avenue homeless emergency shelter site will be the downfall of Sugarhouse they will have access to Fairmount Park Sugarhouse Park, liquor store tracks, when they are not allowed to stay during the day where will the 150 Plus residence go? The Roadhome will be closed and beds reduced from over 1100 beds to the 550 in the 4 locations. The plan that the city has proposed it's not a viable solution. Cutting the beds and half how was that a solution? Placing an emergency shelter in a single-family home neighborhood is unacceptable. The city needs to address affordable low income housing I would like to see my tax dollars go towards building affordable low income housing to help the homeless.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Not a lot of places to work around here.	The schedules for trax and the bus stops or not user friendly at all. Can't even figure them out and how the connection to other transport connections work.	Lack of lighting, prostitution, homeless and drug addicts wandering the neighborhood.	Lack skills and knowledge, lack of economic development and close job opprotunities within the neighborhood.	Pur community needs to be revitalised. In fact most people think we are part of Rose Park when we are not. We need to establish ourselves as a community, and create a safe place where people can be proud homeowners, with a better education for our children.	We are seeing some economic development, and a ton of low income housing come into the neighborhood. Unfortunately nobody has addressed the safety concerns all of these low income apartment complexes will bring. A majority of them at 80% low income to 20% market value. We need North Temple to be restored, to create a safe place for further job opportunities for all of these low income people that will be moving into the neighborhood. The river is could also be a great asset for the community as a source of free recreation and beauty for these people. Homeownership and involvement also needs to be a priority so we don't get over run by apartment buildings.
Salt Lake City	don't know	don't know	not sure but lack of state governmental attention to education and to underserved populations (Medicaid expansion, social services) are likely up there.	don't know	I'm lucky enough to not have any needs that are not reasonably met. BTW, the 12th word in your question should be "addressed"	don't know
Salt Lake City	Taxess & regulations7	Housing density, to many apts.	Community police scarcity	Drugs & alcohol	Mental health facilities	Education opportunities trade jobs

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Lack of affordable housing	Cost Current public transit is not convenient/changes on weekends	Lack of deeply affordable housing and supportive services for those who are chronically homeless and those with behavior health issues and criminal history. Jail capacity could be address with housing and supportive services to those without violent offenses.	Income hasn't kept up with cost of living	Affordable housing	affordable housing
Salt Lake City	education	distance to bus/train stop and transportation route inadequacies	traffic - inattentive drivers speeding along South Temple where children walk to two schools: Bryant and Wasatch	Education and training	Quality education in neighborhood schools	air and water quality
Salt Lake City	education	lack of		being raised by parents who lack the skill	to much high density housing projects	affordable housing
Salt Lake City				Poor paying employers	Money	Health
Salt Lake City	Low salaries and high cost of housing.	High prices for public transit. Buses don't run frequently enough, especially on the weekend.	I feel safe.	Low minimum wage. Generational poverty.	Mental health crisis centers.	Affordable housing.
Salt Lake City	Lack of job with opportunity to move up. Affordable housing.	None, there's plenty of access to public transportation.	Crime	High rent and low wages	Crime	Crime
Salt Lake City	Low-paying jobs in areas with high rent. This limits economic mobility by adding longer commutes and those extra expenses.	Auto-centric planning that requires nearly everyone to own a car to have basic mobility. Need a more robust transit system and pedestrian/cycling infrastructure.	The tight housing market is forcing a lot of people to move more frequently and into areas where they do not feel safe.	Bad choices - both personal and system wide policies.	Greater housing and business density to create more opportunities.	Mental health (and maybe medical) services.
Salt Lake City	We are a very diverse neighborhood. Some of my neighbors don't speak English. More hiring of the non-English speaking community members.	Cost, cost, cost Secondly, more routes.	More, a whole lot more of routine police patrol.	Education, experiences, language barriers.	It is!!! Thank you. I am getting a bike lane on 900 West.	More single family housing.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City				Persistent poverty often related to substance abuse, mental health, domestic violence, and physical health issues that hinder education and employment.	Lack of health care services for adults under the age of 65. Lack of such services results in a variety of other social problems.	Affordable housing
Salt Lake City	Education	Uneven sidewalks; snow clearing laws not enforced	Constant break ins	Lack of education to support skills for available jobs	Air quality. People still idle, burn wood during action days. Air bad year round now.	Medical care
Salt Lake City	Education	Convenience	My community feels safe.	Education	More opportunities for housing in the city where the most services and convenience to the city are offered.	More housing opportunities
Salt Lake City	In Salt Lake City, it is race and being lower income.	Living on the west side of Salt Lake City	Cost-burdened housing!	Housing is too damn expensive!	Equity. Salt Lake City is quickly becoming a City for the wealthy only.	Affordable housing
Salt Lake City	The largest barrier is treatment services so that residents can get addiction help in order to gain more economic opportunities and job growth. Another barrier to employment is the stigma of MAT and methadone treatment. Another barrier is a person's criminal history and record.	A large barrier for residents and patients is the lack of parking around an outpatient clinic. Also, Project Reality's MAT program is the only non-profit subsidized Opioid Treatment Program in Salt Lake County, so we have patients driving from cities all over Utah (Magna, Taylorsville, West Jordan, South Jordan, Sandy, Draper, etc) to get effective treatment for their opioid addiction.	The neighborhood around methadone and suboxone treatment centers need revitalization and a closely monitored parking lot in order for residents to feel safe and stable receiving vital treatment for their opioid dependence.	Inter-generational poverty within family systems who deal with trauma and substance abuse issues and are unable to get out of the situation that they're in.	Improvement in facilities that need improvement like Project Reality. Project Reality has served community residents for 46 years and has a great need for a brand new facility that is more efficient and safe with a better layout to serve more people in need of medication assisted treatment.	The greatest need will continue to be to expand services and an improved facility for Project Reality in this current neighborhood.
Salt Lake City	Funding for home improvements and small businesses.	Buses need to hit all areas of the city with reliable service.	Homelessness is a huge issue.	There's no bullet answer to this. We're all a couple of decisions away from poverty. It's really hard for people to move up and out once in that position.	Real estate prices are continually rising which is forcing people to live and start businesses away from the central core of the city. There's very little commercial/industrial space available for businesses who need smaller spaces.	People need places to live close to where they work. The way our real estate market is growing, most people will be priced out.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	We need better access to high-paying jobs, and overall higher wages. We need a safe built environment with better access to grocery stores, local businesses, healthcare, and other daily needs.	Public transit is not frequent enough or reliable. Freeways and railroads cut off our community from the rest of Salt Lake City. The roads are excessively wide and unsafe for all users, but especially for cyclists or pedestrians. Current land use patterns do not support better or more frequent public transit routes.	There has been little investment- both private and public- in this community, which only reinforces the existing poverty, lack of access to jobs and quality schools, and the overall negative stigma of the West Side.	Lack of access to needed resources- whether good paying jobs, affordable education, good k-12 schools, health care, etc.	Better paying jobs	Affordable housing or housing programs that help people stay in their homes or rented living spaces.
Salt Lake City		Little or none in the area. Close-ish to a trax line but busses aren't very helpful	A pretty large transient population. Also no general safe outdoor space like a park.	In my neighborhood I believe it's really tough to get and keep a job when you don't have other basic services.	Everyone just talks about the homeless shelter. No one is making a conversation about west side revitalization	Infrastructure.
Salt Lake City	Lack of quality affordable child care so parents can work if they choose.	We have a good bus route/street car system that goes directly to TRAX. We just need to make sure it continues to be safe to ride.	Too much petty crime that overwhelms law enforcement so we don't feel confident in calling for help if response time is slow.	Mental and physical health restrictions that prevent earning a living wage and/or create high medical costs	Revitalizing neighborhoods which includes zoning enforcement with rentals; taking care of street lights, run down buildings in residential areas, and side walks.	Affordable quality child care for the working poor families and affordable housing

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Individuals cannot afford the education to apply for the best jobs.	Buses run to little; inflexible schedules. Need to have smaller buses that go to more places more often.	Uncontrolled homeless population.	Lack of equal opportunity	Quality education	Services for seniors
Salt Lake City	Housing costs.	Sketchy neighborhoods that don't promote walking safely.	Renters maybe, because they don't care about the quality of the property or neighborhood.	Poverty is hard to escape once you're in it.	Poor looking neighborhoods.	Neighborhood restoration.
Salt Lake City	I think there may be too much economic focus on my area (Sugarhouse)	different visions of growth vs. maintaining local history and charm	retail development infringing on residential areas	lack of educational opportunities	despite the fact that 400 West is the focus, we have a significant number of homeless folks	the balance of quality of life and economic development
Salt Lake City	Yes	Yes				
Salt Lake City				Rents too high	Not being able to get help from Medicare	Parents in discipline children - your not allowed too.
Salt Lake City	Transportation throughout the valley that runs when people need to work. UTA is too expensive and has too many night, weekend, and holiday restrictions. People need to work whether UTA is running or not. Bike lanes must connect throughout the county and beyond to help people who can't afford a car access work anytime.	Salt Lake needs to continue making bike connections to reduce traffic and bike parking and storage, at home and in the city. Look at the Dutch city streets and compare them to ours. Parking, traffic, safety, and more are solved by putting bikes and pedestrians first and cars 2nd.	Too much through traffic - People speed down our streets and can break into our houses/cars and be gone in an instant. We should have traffic bollards that restrict through traffic but allow residents and buses to pass, maybe have a time restriction that only allows 1 car through every few minutes or have a pass for residents like in the Netherlands.	need for a living wage and rising housing costs	neighborhood safety	I don't know
Salt Lake City	Perception of the neighborhood combined with lack of education	Horrible public transit hours. Bus and trax service ends at 11pm so no access for people who work nights and graveyard shifts	Trust in police and communication/language issues	Education	Jobs that pay a living wage	Healthcare
Salt Lake City					Clean air to breathe	transportation and housing for increasing population; natural resources, including air, that will be affected by that migration.
Salt Lake City					Streets are not well maintained for years since I live here	Health care and housing
Salt Lake City	Cost of living	Cost and convenience	Housing cost	Access to opportunity	Air quality	Housing affordability

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	Their uneducation!	Not aware of any...	None	Uneducated!	Nothing that I know of	To continue offering the services now being offered!!
Salt Lake City		We have to walk far to catch the bus	We have a lot of homeless in our neighborhood	They can't afford their rent, etc.		
Salt Lake City				Lack of opportunities for the undereducated	Housing that is available for the disabled-NOT OVER 60	Infrastructure
Salt Lake City	age	need to share transportation	more neighborhood look out	not enough money saved- no jobs out there how can they get a good resume they won't hire or give them a chance	finding jobs for everyone who want to work	communication
Salt Lake City	The status maybe	I'm not sure	I don't know	Maybe work opportunities	I don't know	
Salt Lake City						
Salt Lake City		None	Crime	The economy		Improve the streets
Salt Lake City	Unsure	Unsure	Unsure	Unsure	Unsure	
Salt Lake City	Education	None	Economics	Lack of education	Educational	Job
Salt Lake City					neighborhood revitalization	neighborhood revitalization
Salt Lake City	Language and Laziness	inclement weather no structure to stay out of wind, rain and snow.		Laziness.	Enforcing getting the pan handlers off corners.	unsure.
Salt Lake City	None	Limited bus service to downtown from 15th and 15th especially getting home at say 11:00 after an event downtown.	Thefts	Lack of education	In the city in general it is lack of low rent apartments for families	Lack of low rent housing for families
Salt Lake City		Access to public transportation is very limited, especially on weekends and late night.		Increasing housing costs.	Effective public transportation.	Affordable housing.
Salt Lake City				Stagnating wages and rising cost of living	Accessory dwelling units- rezoning to meet needs of residents	Housing affordability
Salt Lake City					Special needs	Special needs
Salt Lake City				Jobs, and minimum wage is not enough to get by.	rental housing	mental health services, and education for young people and access to college scholarships, with this administration those 2 areas will be affected.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Salt Lake City	There aren't as many employment opportunities here in Tooele as there are in Salt Lake, which is a 45-minute commute away if you can't find a job in town.	Lack of information on how to use the public transportation (city bus)	I'm not sure because I feel stable & safe where I live	Drug use or other life debilitating addictions	I can't think of anything	Maybe housing because a lot of people seem to be moving to Tooele
Salt Lake City	Non	Bus	Non	Non	Non	School
Salt Lake City	low paying jobs and high cost housing	public transportation still leaves big walking distances in between stations. cost.	None - I feel safe.	Because they were born into it.	There is a great need for environmental regulations to ensure the air quality in the valley improves.	housing.
Salt Lake City			Downtown Salt Lake is fun during the day but at night I don't feel safe.	Because you and your spouse have to work full time and that is still not enough to pay the cheapest bill you have.	affordable housing	Affordable housing in downtown salt lake that allows for students to live and attend school without going into debt.
Salt Lake City	Education	Direct bus lines	Homeless services	low wages	more affordable housing	affordable housing
Salt Lake City		None. Transportation is fine.	Homeless population.	Mental health, homelessness, addiction.	Funding towards schools/education.	Lack of mental health services, not enough funding for schools.
Salt Lake City	homelessness	long wait times on bus services	homelessness, air we can't breathe	no sex ed--> lack of knowledge of birth control --> kids having kids and no means of supporting them --> poverty. mental health issues as well.	Air	breathable air, homelessness
Salt Lake City	poverty	poverty again, and a frankly pathetic offering as far as public transportation goes	not sure	capitalism	gentrification	more access to housing (gentrification again)
Salt Lake City	Not enough money to survive.	Good jobs to far away.	Not enough money to live.	No money	More opportunities to make money and time to do it.	To survive and work day care for those that can't afford it.
Salt Lake City	Transportation and childcare	Cost, flexibility of travel, need to make several stops (one to daycare then to work)		Lack of preparation	Tenant rights in the eviction process	Accessibility to services
Salt Lake City	Access to jobs and affordable housing	none	Safety is a concern cars and apartments and homes get robbed on a regular basis.		Homelessness	Help for the homeless and low income families

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Sandy	I don't know.	Better bike lanes would be nice on roads, to make getting to TRAX safer.	I don't like the burglary rates. In 3 yrs, we've had a home intruder once and our bikes cut free from our back porch and stolen another, separate occasion. Neighbors have had similar issues.	inability to obtain a job with a sustainable wage.	My personal greatest need is affordable, quality childcare during work typical work hours, with afterschool transportation. My daycare costs twice my monthly mortgage payments right now.	I don't know.
Sandy	Lack of knowing what jobs are available in the community. Who had connections in the community to help a job happen.	Lack of bus service on Wasatch Blvd.	Neighborhood theft, damage to property.	Illness	Keeping the crooks out and locking up offenders. Not have enough funds to put guilty in jail is not a reason to let them roam free to commit another crime. Make them work for their housing, food, and rehabilitation. I have to work for my house payment, food, and medical cost!	Aging seniors.
Sandy	Laziness.	You have to walk or ride in someone else's car.	I guess people stealing stuff. My dad's car was in front of our garage so we could drive somewhere for dinner. Someone broke into it and took his work camera while he was changing.		More police actually doing stuff, not just writing speeding tickets.	Food and housing getting too expensive.
Sandy	I would think public transportation	probably frequency and directness to destination		a health crisis that is not covered, or covered enough, thru insurance, if they have it	There is no 'meeting place' or a sense of history in Sandy. Where is downtown? nowhere! That is why I go downtown 2/3 times a week	small businesses that are convenient--an old-time downtown
Sandy	Underemployment and lack of education and skills	Cost and access.		Lack of education and skills to earn a living wage	Lack of affordable housing and lack of skilled workforce	Transportation infrastructure, education funding, and affordable housing.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Sandy	Bias and discrimination.	Not enough public transport. When the is public transport available it's hardly reliable	No appropriate education regarding gender equality, consent, and sex education, and these in turn lead to domestic violence, sexual assault, and dating violence that terrorize a significant part of our community	Minimum wage and taxing discrepancy. Trickle down doesn't work	Lack of adequate education and comprehensive education for children and adolescents.	Medical needs and mental health needs
Sandy				Inadequate education	inadequate treatment and help for mental health issues	Access to healthcare, physical and mental health
Sandy		morning traffic on arterial roads and congestion on I15 and major	encroachment of large scale multi family (rental) dwellings. concern of loss of property value, and potential increase in vandalism due to foot traffic to/from schools.	lack of training for employable job skills - some lack motivation to attain those skill or seek employment in areas they are trained. Believe there are a few who do not have the mental capacity to be employable to the point of benefiting the community.	Improved quality of our public education system. Those who can pay for private education, which then creates a bigger void on the public side, "dumbing down" of the public school, by moving students whose parent are more willing or able to be involved in the kid education into the private sector. Not saying there is a intelligence difference by socio-economics but typically those in higher income brackets, tend place a higher value on education, and also can afford the time to be more active in their child's education.	public schools and staff who want to teach.
Sandy				Not making enough money	gang activity	affordable housing
Sandy		Even county services are being cut for doctors appointments	Present notion of government	People who are lower education or learning disabled	Enough senior housing in center stations of town	Again, enough services for seniors

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Sandy		No daily east-west bus routes to get people to and from Trax stations, not only to get to work, but throughout the day.		Jobs being outsourced.	Public transportation.	Public transportation
Sandy	High cost of living/housing.	Public transportation being limited during non-traditional work hours.	Knowing that any Tom, Dick, or Harry who walls by could be packing a firearm, regardless of their ability to use it properly or their mental state.	Capitalism	Putting people before profits.	Food and housing.
Sandy			trying to make it more like downtown SLC	misuse of funds	mental health	mental health
Sandy	transitional housing that gives you the opportunity to have some stability while locating a job.	again, limited opportunities to secure a trax/bus pass without money for a few months while finding a job.	crimes associated with Gangs and substance abuse	not able to make ends meet-low wages and high cost of living, high cost of medical care	people who are barely making it, when they hit a crisis, not able to receive help	health care
Sandy	Sandy city's franchise tax on public utilities	Not enough busses	Police more concerned with writing speeding tickets than with crime	Poor education	Open space	Transportation.
Sandy	Finding out information on what is going on in the community, city, state. Were to look for this information.	UTA closing or moving bus stops without public input, or where to attend meetings	State, County and local leaders looking to cram in housing, business for a larger tax base. Not letting residents have their space and life style	Being taxed on every little thing. A lot of people not willing to work for what they need, living off state, county and local funds with being checked out. There are some people that need help, but they should have to work for the funds, either jobs and/or community service to off set the \$\$\$	Building codes	not sure -

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Sandy	I am not aware of any other than cultural biases.	The redesign of thirteenth east has been very frustrating to many residents myself included. Recently as a remedy to complaints a brand new no left turn sign was installed at the end of Galaxie at 13th. Thanks, that was a nice way to cover your own butts and make the headache much worse for residents of this community.	Cultural biases.	Familial history and lack of access to services such as child care, healthcare and transportation.	The use of my street as a speedway for cars.	I need to be better informed to answer this question. I need to do some homework.
Sandy	unsure	difficulty understanding how to use Trax	theft in our neighborhoods - who's watching out for us?	low wage paying jobs	diminishing resources for arts in education	unsure
Sandy	Lack of education	No stops close by. (Today Google maps told me it would take 80 minutes to walk somewhere as 82 minutes to ride public transportation.)	I'm not sure. It seems like a safe neighborhood.	Lack of opportunity/education	I'm not sure	With the aging population growing, I'm guessing it's related to their needs. However, I also feel we need to take care of the children. They are the future after all.
Sandy	Affordable housing	Lack of bike lanes		Lack of higher education	Affordable housing	Alternatives to driving
Sandy	Available jobs	ease of use	neighborhood crime	Budgeting	Crime	Affordable housing

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Sandy	Lack of adequate public transportation, density, etc.	Poor sidewalks, lack of street frontage, lack of bicycle infrastructure	Sprawled-out development. Lack of density, adequate street lighting.	Sprawled-out neighborhoods and automobile dependency	Access to affordable healthcare and active transportation modes	Access to affordable healthcare and active transportation modes
Sandy	Higher education too expensive	Traffic, lack of public transit	Speeding and no patrol in residential areas	Lack of education	Air pollution is terrible, the govt acts like they can't do anything about it.	Teacher, police officer, Doctor, and nurse shortages
Sandy	Child care	Money	Home repairs	Education ,opportunity ,money	Money for our schools	Money for education and jobs. For the aging
Sandy	Availability	None	Crime	Lack of opportunity		
Sandy					old broken wall on 11400 south. It's so much busier now and the block wall is breaking down in many places... it needs to be built higher for traffic noise control- that people can enjoy being in their back yards and actually hear each other .	dealing with the depression issues so going to street drugs is not an option but getting help is available for those wanting to make it off the street...
Sandy	education and housing	money	Note - I'm addressing issues in SLC, mostly not Sandy.	Lack of available mental health care - drugs/therapy for mental illnesses, and therapy for traumatic childhoods.	Sandy is great, but I worry about the homelessness issue of the valley.	Greatest need - clean air
Sandy		Poor Traffic Signaling in light of the amount of growth!		lazy	traffic	traffic
Sandy	Work ethic	Motivation to get a job so you can afford a car or bus pass.	We love our police department. There isn't a barrier.	No motivation . When you get paid more, in some instances, to NOT work, why would you work? This creates an entitlement and apathetic mentality. If more people worked, less would be in poverty.	Nothing	More roads.
Sandy	Job opportunities closer to home are limited.	Public transportation schedule ends too early in the evening.	Police Department response time is slow for crimes in progress.	There is a shortage of jobs that pay above the living wage.	I would like to see increased wages to match the cost of living in the area.	Public transportation is limited in Salt Lake County and will reach a point where our roadways will be riddled with traffic jams, accidents, and pollution.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Sandy	No weaning off subsidy programs. It's either you qualify or you don't so many don't try to get off subsidy because they can't make it.	Cost	Too much violence, not enough police	Lack of education	Housing	Housing, prek funding
Sandy	Transportation	Money	Social Security	Works	Housing	I'm not sure
Sandy	Affordable Housing	Gridlock	Employment and safe affordable housing	Affordable housing is becoming difficult for people to find.	Affordable housing. People need to be able to become homeowners.	Affordable housing.
Sandy	Not knowing where to go	Not enough freeways	Low cost rental units	Cost of food and housing as well as health care	Dog parks	Housing
Sandy		Roads condition.	Speeding drivers on areas with 30 miles per hours limits	Lack of training and education.	Meals for needy children	Quality Education
Sandy		Access to TRAX or bus which ever is closer to resident		Unable or didn't plan for financial downturns.	unsure	access to services
Sandy	Not enough new businesses or commerce to advocate those new in the workforce/ by a high school. There are opportunities for those with more experience it seems, but I would like to see the fostering of start up businesses, communal support for advocating economic opportunity	Not sure on this one, there seems to be access to Trax, the bus etc. Could it be dependability?	Robberies and white collar crime involving many parties (local) that are recurring every year. The general attitude of false security that propagates this happening, even in broad daylight: while relaxing from the fear can be real, there is an underlying assumption the particular region won't be targeted again or maybe it won't happen again. It still does. The general mentality of pseudo-security should be addressed, and advocate economic needs and development.	Inability to access resources (that may be from: unawareness [primary reason], disqualification/limited resources [second reason]). I can certainly say, however, it is not right to be generalized from laziness, from lack of common sense, and it is not always those who have addiction problems. The latter of these reasons is a need we need to address (housing, education services, detox services. etc.), but there are so many facets to poverty that need to be addressed in the community.	I feel access to healthcare is a single great need. Quality, and very affordable healthcare for families, single individuals, students, or families who do not have access to resources for members who may have special medical needs that are very expensive.	Promoting new economic endeavors, services for the gaining
Sandy				income--hourly wage	affordable housing	

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
						The gap lies in the fact that there are services but the connection from one to the other is delayed or non-existent therefore causing gaps in services even though most things are provided. We need a link between services for information, identification, and ability to provide.
Sandy	Education	Distance	N/A	Education	Community up keep and overall improvements. The area is getting run down.	
Sandy	NA	NA	NA	NA	NA	NA
Sandy	High cost of housing in the area	I don't see barriers to transportation in my area. We live close to public transportation and our road systems are well maintained.	Rising theft and burglary rates. Rise in all crime in general in the area.	Inability to find work where wages meet the cost of living	I'm not sure	I'm not sure
Sandy		Disability			Rising inflation, lack of income growth for the past 15 years. College graduates get paid right our of college the same as 15 years ago. While housing goes up, cost of living goes up.	Same thing as above.
Sandy	Lack of services or routes to get from initial job to not living pay check to paycheck. Health care expenses is where this shows most frequently. One illness and return to unemployment	Public transportation options are lacking	Crime and lack of easy to find info on what's happening	Lack of education and lack of opportunities	Better schools	Better schools affordable health care
Sandy				Too many children and not enough to support them. Limited education and lack of ability to find a better paying job based on limited skills and education.	Not sure	Mental health services for children under 12.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Sandy		We have to drive to everything. My husband and son used to take the fast bus to the U but it was unreliable and only ran in the morning and evening. UTA was unresponsive. Now they both drive separately to the same place. Trax is great if you work downtown but not feasible anywhere else. I work close to home and would ride my bike, but I don't feel safe on the road.	I feel safe in my community.	Lack of full time jobs that pay a living wage.	Good air quality.	Low cost housing.
South Jordan	For the senior population - lack of access to services including affordable housing. I believe that all communities should have affordable housing stock and am of the belief that South Jordan lacks affordable housing options for individuals.	Trax has added some accessibility to the community. If you are not off a trax line the busses do run less frequent.	I am of the belief that overall stability and safety are ranked high in SJ	Intergenerational	Affordable Housing for clients hard to identify units for clients in this service area	Senior Housing & Affordable Housing
South Jordan	Affordable housing and childcare	?	Affordable stable housing and childcare	Housing and child care. These costs are enormous and critical for working families to keep working and moving forward	Me personally? Child care availability. The lack of quality childcare. I wish we had after care at my daughter's school in JSD like the do in SLCS.	Affordable housing
South Jordan	high median/standard of living	urban sprawl, not a lot of buses.	property theft	loss of job, temporary problems	air quality, air pollution	Education

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Jordan	Trying to figure out which services are available. It's very confusing to figure out where help is and how to get it.	Busses don't run often enough. The train is very reliable but the connecting bus services force you to wait out in the cold for up to an hour. With small children that is FAR too long.	I see more city code enforcement trucks than police cars in my neighborhood. That's backwards from how it should be.	Most people live from paycheck to paycheck so if they have one emergency like a car breaking down or a major medical issue, they can't make ends meet. In December we ran out of money and had to decide between registering the family vehicle, food, gasoline or my utilities. And there were no Christmas presents or turkey dinner. We had potatoes and oatmeal bread. I had no idea how to reach out for help to just get food, or put my son on a list for Christmas presents. And also my income is actually pretty good, so even at the food bank I don't think I'd qualify and I was unable to find out if I would qualify because there is so little information online. We have 3 kids and both of us parents now with disabilities, so even though our income is good, our healthcare bills are	The ability to get a week's worth of groceries, no questions asked to tide a family over til other arrangements can be made, and easy to find, online information to figure out what services are available to help when a person has sudden needs they can't meet.	Help for those in need, particularly seniors and low income families with children. Also the disabled or people experiencing major health problems.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Jordan	Not enough pay in the jobs where people have gone to college to get a degree but still can't survive on what they are making due to student loans and cost of living.	Too much high density housing in areas where traffic is already rough, but new high density housing keeps getting put into those areas causing major traffic issues such as parts of Redwood Road.	Being able to drive places where the roads are so clogged up that it is dangerous to pull out onto the street. That is a stress to me and my family nearly every day.	Lack of good jobs with a decent wage for those who actually even have a degree.	Traffic issues in my small neighborhood where the street was walled off even though it already has a street that could go through to Shield's Lane. Instead, we are pushed out to Redwood Road which has become dangerous due to so much high density housing in the vicinity. I, myself, have witnessed over six accidents at the top of my street going onto Redwood Road...which could have been avoided if the street onto Shield's Lane hadn't been walled off.	Too much traffic for the streets, as they are, to handle.
South Jordan	Affordable housing for all incomes.	We are a suburban sprawl city, so everyone has to drive. Public transportation cannot get us to places or quickly enough to make it worth using.	All of the brick walls that are built around subdivisions, making the sidewalks outside the subdivisions unsafe because there are no eyes on the street.	Cost of living is higher than a single low paying job can cover.	Designing our city for people and not just cars. What destinations do we have that make people want to stay here? How are we designing our streets, sidewalks, so that people feel safe on them, want to use them, and want to stay and linger.	Destination opportunities for families to learn and play together i.e. childrens museums, public gardens, ice skating, art museums
South Jordan	Rapid rise of the cost of living.	Too many new developments without regard for current infrastructure. Not enough suburb to suburb rapid public transit. Not all of us work downtown.	The rising cost of living.	They were born into it	Schools are woefully overcrowded.	South Jordan is rapidly becoming a community of elites and the cost of living is rising far faster than income. Greatest gap will be the gap between haves and have not seen and the lack of services for them.
South Jordan	Substance abuse addiction creating criminal records Substandard educational achievement	Inadequate number of access points	Lack of resources for people in violent relationships	Mental health challenges (including substance abuse)	IDK	Access to crisis services
South Jordan		Access in neighborhoods		Low paying jobs	Schools	Access to health care
South Jordan	Lack of affordable educational opportunities	Financial barriers	Mental health issues and access to affordable care.	mental health issues/ trauma history	Our air quality	Our air quality needs to be addressed!

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Jordan	Transportation	Getting to and from editing longer for bus services	Job creation	Unwillingness to be hired by employers because of disadvantages of those citizens.	Affordable housing	Affordable housing
South Jordan					None	none
South Jordan	Housing is so expensive it keeps many from living closer to the jobs in our area and their being part of this area.	Crowded roads!!!	Too few police officers available. Is it possible to have police substations?	Becoming too reliant on govt handouts so they don't know how to help themselves!!!!	Back to a greater need for domestic violence/child victim advocates. Awareness of the problems and help for them that's there!	More roads and affordable housing!
South Jordan	Interrelationship without being LDS			Lack of income, no jobs	Interrelation, job	Jobs
South Jordan	Lack of employment opportunities for moms. Non flexible jobs.	We are okay in that area.	Car brake ins.	Lack of education and opportunity.	Diversity, cultural events	Program for the youth. After school programs.
South Jordan	Affordable housing	Reliable transport that runs to farther off of the regular frontrunner and cheaper public transport	Don't know	They don't have job opportunities because of transport problems and when they do they have to spend half or more than half their income on rental housing.	Affordable, safe housing	Don't know
South Jordan	Education	Lack of sufficient east-west highway between I-215 and bangerter Hwy. (6000 S- 15000 S)		Education	Transportation improvements running east-west from I-15 to west side of valley	Aging services, educational funding, transportation
South Jordan		Our area with the majority of the valley has been built according to the suburban sprawl handbook and we are lacking our own city, our own identity, and places to live and work.	Cars! Salt Lake County has been designed for cars to for people. When even our parks are designed to look nice from cars passing by it is clear we are no longer designing for people.	Lack of education, experience, and opportunities to secure stable high paying employment.	Environmental sustainability. Not every piece of land in our community needs to be developed.	Affordable lifestyles due to the pitfalls of suburban sprawl.
South Jordan		Poor access to public transportation	Lack of safe bike lanes and pedestrian walkways	Low minimum wage	Overcrowding	Public transportation

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Jordan	Poor schools	Side streets being large enough to accommodate the growth especially when high density housing is created	crimes on private property such as car vandalism, stealing packages off of porches, crimes against pets, etc.	One parent homes being able to afford both medical care and childcare	dental and vision coverage	Quality schools for those in lower income neighborhood
South Jordan	Not enough jobs available in our area. Too much I density housing being built on commercial real estate	Mountain View Corridor and Bangerter need to be built out so that they can take the pressure off of I 15. In addition, S. Jordan Parkway is very overcrowded as it is 114th S.	Increase in crime and high density housing.	Lack of education and marketable skills	The need to attract great businesses to move to South Jordan so that people can have more places to work	roads
South Jordan	Overcrowded schools.	Inconsistent public transportation. Poor east-west transportation infrastructure (we should have a freeway connecting South Jordan and Sandy/Draper).	Rise in petty crimes. Accidents on the Mountain View Corridor.	Lack of higher education.	Small class sizes in public K-12 schools.	Schools are overcrowded.
South Jordan				education	help with utility and taxes	Education
South Jordan		Few to no bus routes East to West.	Theft, car break ins.	Poor financial choices	More public transit East to West	Travel and transportation for commutes
South Jordan	Efficient Transportation and Day Care	Takes too long on public transportation unless you live and work within 5 minutes of a train station	Where I live none	Lack of a rewarding job or too many expectations	Air Quality	Recreation or Homelessness
South Jordan	Expensive housing	Too many people attempting to drive through the city.	Transient population and thugs riding TRAX to invade neighborhoods.	Education and mental illness	Additional police and fire	Police, fire and city services
South Jordan	The cost of affordable housing.	Too much growth for the existing arteries in South Jordan.	I feel quite safe.	Generational poverty, lack of education and skills.	Traffic gridlock	Again, the infrastructure must keep up with the growth.
South Jordan	The lack of public transportation on Sunday	Not having it on Sunday?	Nighttime theft	Lack of education, lack of job counseling, lack of affordable child care.	My needs are met	We need more grade schools to accommodate all these Mormon families with 4+ kids.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Jordan				Women marry young, have kids, get divorced and have to work low paying jobs to barely get by.	Widen the roads and take care of the traffic BEFORE building all these apartment buildings.	Not enough green space, parks, destroying the habitat along the Jordan River to appease greedy real estate developers.
South Jordan	People who do not care to follow guidelines by county	Transportation is pretty good. Access to us and a 20 minute walk to trax and community bus for disabled people.	Theft and the personnel not to handle it or if petty robbery or no matter what they get away with it because the jails are over crowded	Over spend what they have and do not make enough money to survive	Do not know	Stop theft and clean up homes one home should be condemned
South Jordan	We need more businesses to expand our tax base. There is a glut of housing compared to developments dealing with job creation.	There is a lack of transportation linking daybreak to medical care and commerce. More direct lines to Jordan Commons, Jordan Valley Hospital, and The aquarium.	Video cameras around the other Lake, roundabouts, and major intersections would be helpful. Increased neighborhood patrol's in cars, bike and foot may help.	While there is a ample amount of entry level low-wage jobs in our area, there is a woefully lack of higher paying job opportunities.	We need more good paying jobs and a well-designed off leash dog park.	As the mine has been outsourcing jobs and moving toward consulting positions we need to develop a new way to generate tax money. South Jordan has been especially slow in recognizing the need to encourage companies to move jobs to the area, instead they focus on high density housing.
South Jordan				lack of resources	more diverse events	diverse services
South Jordan		Poor public transit. UTA needs to dramatically overhaul its routes.			Not sure	Education, Recreation, Transportation
South Jordan			Police not being able to stop drug and crime. Neighborhood watch. Adequate street lighting	Health care expenses after accident	Safety and traffic	Traffic and safety

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Jordan	Our cities should be platforms of productivity, but they aren't. Our cities require setbacks, parking minimums, and floor area ratio maximums. These sort of regulations require a business to purchase a lot that is much larger than a business requires. These regulations cripple entrepreneurs and favor established national chains. Our current system favors an investor who already has half a million dollars needed to open a Dunkin Donuts franchise rather than a local entrepreneur who is good at baking donuts. I would love it if getting involved in your local economy was as easy as selling something on eBay. I would love it if we lived in cities where those with skills could put them to good use and where, if you had an idea, you knew who to talk to to make it a reality. I'd love it if we could live in cities where we did not fear experimenting and	Automobile dependency and induced automobile demand. Every development favors automobiles and doesn't consider other modes of transportation. Large parking lots. Roads that are widened every few years. Our spaces are designed for cars, not people.			Lack of places built for people. Everything is built to accommodate cars and not people.	Less regulation and more services supporting entrepreneurs.
South Jordan	\$	Location & time sundays late at night		Education	Housing affordable	Housing
South Jordan	Business Licensing and City Codes				Neighborhood social events	Just getting to know our neighbors. :)
South Salt Lake	There needs to be a general support of low income housing... They are essentially slums, I am not saying move them out... I am saying we need to revitalize this so there is some sense of integrity all homeowners.	Most transportation is good, the path by the train track could be lit so that people feel safe walking there at dusk and dark.	There are endless amounts of homeless people milling around... Again I am not saying to arrest them, but it is a safety issue when there are kids playing and there are adults you are sketchy and unknown to the community.	Entitlement programs are just that... Producers of entitlement. There needs to be eight entitlement program coupled with a pipeline for employment, job training, helping to locate them in low income housing.	Safety and vagrancy.	The community is just dirty... It needs revitalization, it needs parks, it needs economic boost in the abandoned and broken strip malls.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Salt Lake				low paying jobs or low hours at jobs	healthcare	not sure
South Salt Lake	Jobs	None that I see	Economy	That they don't have employment or target to meet	[Left blank]	Housing
South Salt Lake	Affordable housing/education	We pay high housing rates, which lead to lower \$\$ for vehicles	Affordable housing	Cost of living and too low pay	Rental housing - affordable	Cost of living is high, pay is low for lower educated people
South Salt Lake	People begging for food and money instead of looking for a job	I always thought a little train car like San Francisco does going down State Street and being free would get people out of their cars and get them to stores, drs. whatever the case is.	Drugs	too many alcoholic stores nearby, drugs, meth is so cheap, get off of welfare and quit depending on people to give people money - work for it.	ugly dilapidated homes and no code enforcement being enforced. OUR city looks like crap.	too many homes being built and not enough beauty
South Salt Lake	There is so much wasted space. The old Granite High School building has sat empty for far too long. It just encourages more crime in the area. Also, the new downtown South Salt Lake area that the city refuses to update the citizens on.	Traffic in the heart of Sugarhouse is terrible.	Far too many homeless wandering around breaking into homes and cars. Drug use is also very prevalent.	Drug use	Services for those who are chronically homeless.	Education. Utah's public school system is a joke and an affordable option for higher education is severely lacking.
South Salt Lake			Crime	That isn't a simple answer. There is a systemic lack of opportunity associated with poverty that includes poor education, discrimination, lack of community resources, etc.	Economic development & crime rates	

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Salt Lake	aging population and lazy entitled young people	cost of bus passes or taxi service	it is hard to feel safe when there are drug deals openly taking place and the police don't do anything about it	they don't have the desire to get out of the generational poverty trap so they don't get educated and they think they should not have to work for min wage because they are entitled to more and the state or feds will always be there to give me money or services	I am afraid to go outside because of the drug dealer across the street and the general crime in the neighborhood	safety
South Salt Lake	Exactly that, financial instability is the biggest barrier.	For the victim's I work with, it again falls on financial instability. Fortunately, the PD victim advocates are able to transport.	Consequences for offenders. Courts are giving multiple opportunities to violent crime offenders, before they are held accountable.	Lack of available jobs; mental health.	Affordable housing.	Decreases in funding for violent crime victims.
South Salt Lake	Language barriers, lack of down payments for homes/financial literacy, skyrocketing real estate prices, student loan debt	Unreliable bus schedules. Extensive transfers required. Predatory auto title loan practices leading to vehicle repossessions. Excessively high interest from sub prime auto dealerships for auto loans.	Lack of street lights. Extremely lax traffic law enforcement for speeding /distracted driving. Little to no foot/bike police enforcement.	Depressed wages, expense of education, consumer debt for living expenses.	Clean air, the refineries need to do more to contribute to the solution and not the dirty air	Infrastructure
South Salt Lake	legal status and access to resources for their children	access to public transportation	access to medical services and/or chip for pre school children	education	closing the achievement gap for elementary school children	preschool education and intervention for elementary school children scoring below proficiency in literacy and math
South Salt Lake	affordable and easily accessible resources for learning opportunities	location drop offs via tax	many businesses in SSL are tech or skilled labor jobs like automotive repair and many others are retail. there isn't much room to enter a new job and grow yourself	their ability to access resources for jobs that typically require high amounts of training or education	As stated in question 8, there isn't much diversity in job opportunities in SSL. This means that community members skills aren't being utilized or even addressed during development.	affordability and accessibility-in many pieces of development but especially for those who haven't had the privilege to attend intensive trainings and educations so that they too can provide for themselves and their families in something they are able to do and have room to grow doing.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Salt Lake	Small wage job creation, instead of good jobs.	UTA not acting in the community's best interest.	Not mental health services to keep people off the streets.	Education	Bringing in good jobs to raise the tax base.	Public transportation lagging behind needs.
South Salt Lake					Economic development	Safety, green/open space, economic development
South Salt Lake	jobs and training. too much property is designated tax exempt (33-37%)	frequency of bus service	jobs, development stymied by so many public properties that are not attractive, no local high school	mental illness	mental illness	jobs
South Salt Lake				Mental Health and lack of education	How to address the homeless population	Affordable housing as our population is growing
South Salt Lake	I would guess transportation and the feeling of safety	Little access to train via bike lanes- there is no safe bike route to trax in 33rd s. Especially from south	Lack of Streetlights and sidewalks	Lack of education Low minimum wage inimum wage should be a living wage at least \$15 per hour	Dirty industry polluting the air of our entire valley	Not sure

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Salt Lake			Insufficient presence of police; a large number of pawn shops that attract questionable clientele; litter and unkempt landscape on the S Line.	Welfare mentality, expecting something for nothing.	Run down properties, particularly, apartment buildings	Senior center and programming.
South Salt Lake	wages aren't high enough to sustain the needs of individuals and their families.	the cost of public transportation is too high for many to afford, and there aren't many incentives to ride public transportation when the air quality is bad.	The drug problem that has invaded our homeless population. There have also been many questions raised about the training of police officers to respond to difficult situations without inappropriate use of force.	Lack of availability of jobs with adequate pay.	increased minimum wage.	Access to affordable housing and other necessities.
South Salt Lake	Lack of access to quality education. Safety issues--need more funding for more police and fire personnel.	N/A	Lack of adequate police protection and visibility.	Lack of affordable quality education	A community center with room for outdoor activities	A high school. lack of police and fire personnel....
South Salt Lake	Lack of good paying jobs. Utah's disregard for the working class in favor of corporate interests. Low minimum wage.		High number of homeless/pan handlers without treatment opportunities.	Lack of opportunity. Utah's corporation first workers last attitude	Homelessness/drug and alcohol abuse. Lack of treatment causing unsafe neighborhoods	Lack of social services due to the overabundance of multifamily apartments, lack of safe and QUALITY retail and entertainment space
South Salt Lake	Lack of education,	No Trax lines east of state street outside of downtown.	Lack of crime prevention. Also need more (LED) streetlights on all roads, but especially residential areas.	Lack of education past 12th grade.	Economic development	lack of education and rehabilitation services and resources for low income/homeless.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Salt Lake	Living wage employment	Bus routes and schedules		Lack of opportunity and living wage	Grocery store access.	Mental health and prevention services
South Salt Lake	Not an attractive location for small businesses.	We have good transportation.	Not enough safe and attractive places to gather, learn and recreate.	Lack of social support, such as healthcare, childcare, job training.	Lack of recreational spaces.	Lack of small, local, thriving businesses that want to be located in an attractive area.
South Salt Lake	Services for mentally ill	Public transportation hours are limited	Services to help low income substance abuse, recovery	Cost of living doesn't match average household income	People need kindness! Less isolating, more uniting.	Veterans recognized
South Salt Lake	High crime rates, overall visual appeal, & modernization.	Outdated transit systems	Lack of law enforcement presence.	Lazyness	Shopping/entertainment	Neighborhood improvements
South Salt Lake			Smallest Police force with the largest crime rate. The jail releases all of the county "garbage" in our city. More funding for public safety.	We don't incentives them to get a job. We threaten to stop giving them services if they get a job. Instead of layering the assistance as they get a job and work there way back up. Help them want to get a job instead of a free ride.	More public safety	Adding a homeless shelter without adding Police or fire
South Salt Lake	Ugly and dated city.. buildings with broken windows, dilapidated buildings with no upkeep.	Crappy sidewalks. Poorly lit streets. No bike lines. No himing trails.	Crappy sidewalks. Poorly lit streets. Crime hotspots such as state street.	Not enough opportunity in our direct community.	Open space. Recreating trails. Poorly lit state street and in surrounding neighborhoods.	Open space. Trail network. Overall updating of infrastructure.
South Salt Lake				low wages, health care expenses, not enough affordable housing	Climate change	Air we can breathe, clean water, locally grown food
South Salt Lake	Businesses not wanting to be close to the jail			Minimum wage is to low	HOA's need to be limited on what they can require of residents.	Road servicing
South Salt Lake	Mentors to help them get the resources they need.	Poverty level	Homelessness.	Lack of educational opportunities and resources	Homelessness	Socioeconomic gaps.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Salt Lake	Wage and opportunity stagnation. Public transportation, and urban mobility restrictions due to unsafe conditions. Limited low/moderate income housing availability.	zero walk-ability due to unsafe conditions (sidewalks, roads, crime). No protected bike lanes.	unfortunately the commercial/industrial focus on south salt lake has dated our community and lack of smart growth, revitalization and economic development has left us in the dust of our neighboring cities. Our city has been a breeding ground for crime ever because of this. We have no sense of community, and face an alarming need for redevelopment to spur safe neighborhoods, streets and urban and commercial areas.	Misfortune.	Redevelopment and revitalization of areas between 2700 south and 3300 south, and between west temple and 200 east.	Housing.
South Salt Lake	The construction of the proposed Simpson Ave Homeless shelter in SLC will have negative impact on public safety.	We need a new S Line station East of State Street.	Elected leaders of SL County are ignoring our request and questions and hammering down their decisions about the Simpson shelter. Our elected leaders undermine our faith in the democratic process.	They have no money.	South Salt Lake left out of the Simpson site selection process.	Lack of public spaces, parks in SSL.
South Salt Lake	Not knowing where to go for assistance. The lack of initiative/motivation for residents to obtain employment.	The bus route times are not convenient for working schedules.		Generational poverty	Access to resources	Affordable housing
South Salt Lake	Legal services	The snow	Sometimes the work	No job	[Left blank]	[Left blank]

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Salt Lake	not enough affordable housing or programs to purchase housing. Lots of people buying up affordable homes and renting them. No hope for the little guys to gain equity.	many parking lots, no density, few amenities in an accessible distance	large streets where people drive too fast. Medians with trees would improve this.	supporting a family with little education and little job experience	incentives or subsidies to update and improve run-down properties	affordable housing - with population growth, our area is anticipated to be homes purchase by people with money, flipped and renovated poorly, and rented. It seems that a large portion of house renters in this area do not care to take ownership of their property or participate in their community. Lots of growth in the area, not a range of people to be able to move in (rich, poor, old, young)
South Salt Lake			The Homeless	Thinking they are owed and being enabled	Security	Police protection
South Salt Lake	There is no longer a high school in SSL. The kids are bussed elsewhere. Education is the key to opportunity.	Cost	One of the highest crime rates per capita in the US. Again...education.	Lack of available services to EDUCATE and help those in need	Education	No community place for residents to walk, play, bond with each other like the Granite property has been for so many. Hard to do any of this in a Walmart parking lot.
South Salt Lake	Low quality of businesses on our areaNA	NA	Not enough police force	Poor decisions	Sidewalks	Police and fire

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Salt Lake	It is not walkable. Public transit is accessible but takes a very long time.		in a lot of spots, there is no pedestrian walkways.	Health issues.	affordable housing	green space
South Salt Lake	I don't know of anyone who works in our city. My household and neighbors all work in other cities.	Constant road repair that damages sidewalks - difficult for seniors and disabled individuals.	unsure - gang activity seems to be around tagging, ect.	child care needs/costs	A safe inclusion community center .	Programs for children that are not - at risk youth. We don't have many neighborhood schools and no high school to support a friendly community.
South Salt Lake	Language barriers. Single parents that do not receive child support (even though they go through ORS).	Limited public transport. Only buses.	Environmental development. Homes need revitalized. Neighborhoods need help.	Underpaid. No or very little child support collected by ORS...i.e. deadbeat dads.	Homeownership accessibility to single moms.	Affordable home loans
South Salt Lake	Transportation. Financial barriers.	Public transportation in Tooele and Grantsville is highly limited.	Cost of living. Housing/ rent prices are too expensive and unaffordable.	Wages are low, cost of living is high.	Public Transportation	Rental assistance
South Salt Lake	Stagnant wages/high housing costs	Inadequate bus service.	Not enough case management for Rapid Rehousing program; inadequate mental health and addiction resources.	Low wages, high cost of housing, food and healthcare.	Affordable rent that is indexed at 25% of each income level (not just as a ratio of median income)	Affordable rent.
South Salt Lake	We have too many social service programs and sites that pay no taxes but use our police and fire, etc.	No access out. The state street part of my street, Burton was sold to another car dealer even tho there are too many car dealers already.	High crime. Low income.	Not enough education		

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
South Salt Lake	34% of property untaxed and now a resource center is limiting development in the 1000 West area.	Price of transit is too high, many bus routes have been cut in past years.	24 officers that cover a very busy daytime population. We've also had a difficult time keeping officers on staff.	Jobs with livable wages	Community gathering spaces, parks	Housing
South Salt Lake	Not enough grocery stores in the community.	Not enough trax and bus lines.	Lots of gangs. Too much poverty, so lots more crime.	Not enough grocery stores available to provide more job opportunities in South Salt Lake, so residents shop in other cities.	We need more grocery stores in South Salt Lake!	Not enough grocery stores in South Salt Lake!
South Salt Lake	disregard by SLC		disregard by SLC		?	?
South Salt Lake	Work	Car				Work
South Salt Lake		There is no very good public transport		When newly come to the county, is not easy	I don't know	Housing
South Salt Lake	Communication between neighbors	None	Lack of communication	Education, discipline	None	The education
South Salt Lake				Job pay	Affordable and safe childcare	Housing/jobs
South Salt Lake	Transportation	State Street	Security	Education	Clean Neighborhoods	Food Services
South Salt Lake					Just moved in a few weeks ago. So far things are great.	The roads need work.
South Salt Lake				lack of employment opportunities	immigrant/ refugee needs	economic empowerment
Taylorsville				Housing	[Left blank]	[Left blank]
Taylorsville		The cost of riding public transportation.	Lack of health insurance due to not expanding Medicaid, so they are not able to access need medical and mental health care.	Lack of effective education.	The lack of affordable health care, including mental health care, due to lack of access to health insurance.	Access to health care (including mental health care)!
Taylorsville	Lack of sufficient education for the good openings.			Weak educational achievement.	Winco at Bangeter and 5400 South is lacking.	Decisions by Councilmen based on coziness with some businesses and not others

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Taylorville				High housing costs. Rent is high. Landlords utilize the reasoning as charging "market rates." Home and condo prices continue to increase. Conversations in my circles are predicting another Utah year 2008 housing crisis.	road conditions in the valley.	x
Taylorville	Lack of employers that have higher than entry level positions.	Heavy traffic East/West. Proximity to Trax limits use.	Theft of personal property.	Reliance on welfare system. Benefits outweigh low paying job.	Housing for my adult children.	Transportation issues will worsen.
Taylorville	Transportation	Lack of Mass Transit in most areas		Cost of Health Care and Insurance, or lack of insurance! Low wages	Health care costs, lack of health insurance	Same as above
Taylorville	High paying jobs in Taylorville that are located near publi transit	Frequency of buses	Cars parked all over the street	Education in their field and understanding of how to improve on that	General upkeep and accountability in the neighborhood. Some people spend a lot of time adding value to their home only to have it reduced by a neighbor's unkempt home.	Either public transportation or high paying skilled jobs in Taylorville

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Taylorville	Hours of Trax & buses	Hours, buses don't run early enough to get you to Trax		Not able to afford living space	Finding affordable housing	Finding affordable housing
Taylorville	Population	No close TRAX station	Crime rate is rising, more neighborhood watch programs	Cost of things not in line with current wages	Crime prevention	Living condition improvements
Taylorville	Not sure	None that I know of	Drugs and robberies	The government	They are being addressed. Just not enough manpower	Lack of funding
Taylorville	Age	Age	Changing demographics	Can't find a good job or they don't have the skills for a high paying job.	Crime	Aging population
Taylorville	Education	Income	Fare Housing	Lack of education	Affordable housing	Healthcare
Taylorville	Vacant store fronts and	access to trax	store fronts that are empty and vacant as well as homes that are in disrepair	It an be the loss of a job, poor financial planning, or the cycle of poverty where lack of motivation prevents a mentality of wanting to improve and use local resources as a step up.	City leaders monitoring neighborhoods and citing those who have trash build up, etc.	Businesses occupying vacant store fronts to provide jobs.
Taylorville	Underground community economically kept imprisoned by corrupt business owners	Mass transit localized for Kearns/Taylorville as with other local areas integrated with UTA infrastructure	Long culture of segregation. Inability of major church organizations to participate in community need, self-serving, therefore the rest of us all have to break the culture of isolation	Taxpayers carrying the burden of those kept economically imprisoned by corrupt business owners who don't pay taxes by employing people under the table	Crime, zoning violations, mental health	Homeless population, food services, safety
Taylorville	Desire.	Uta	Crime ridden neighborhoods.	Laziness	Crime	Crime
Taylorville		Having only the buses, which are not always consistent, makes it harder. Having more light rail with easy to access stations would be more beneficial, especially with connections into downtown Salt Lake City.	Gang and drug use.	Less income and high bills.	Affordable housing.	Affordable housing and jobs.
Taylorville				Availability of jobs	Domestic violence	Education

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Taylorville	Under employment	Bus system needs to be more often	Lack of lighting in older areas.	Lake of good paying jobs.	Needs trax down 5400 s. To much traffic.	Transportation
Taylorville	While Taylorville is growing with a younger community, it still has an older feel and the "lder" population does not want to see change. They want their bedroom community to stay intact yet the city is loosing economic opportunities to other cities. It has been getting better over the last year with new businesses. The older people selling their houses is giving the opportunity for younger families to move in to more affordable housing but those homes are not always improved. Neighborhood standards and code enforcement is a key to help this.	UDOT itself. The organization mandates what is going to be done instead of working with the city more to find other options. For example, Redwood Road is busy enough. Placing a BRT line down the middle of it is just going to make it worse but the city nor the residents I'm not sure are being heard. We do not want Taylorville to be a city people pass through on their way to something else.	The 'West Valley Creep' as it is known seems to be getting worse each year. This is referencing the crime, drugs, and other elements that go along with lower income or lower social status residents affecting life in Taylorville. I've lived here for 30 years, my wife all of her life. It use to be we would here about a crime or problem in Taylorville maybe once a month. Now it's once a week. I do not want Taylorville to become the next South Salt Lake.	Lack of marketable skills that will help them get a decent paying job	Neighborhood code enforcement. If this were enforced it would lead to better looking neighborhoods people take pride it. This leads to more economic development. Business do not want to locate in an area that does not show well.	Efficient traffic flow and businesses that keep people in Taylorville rather than having them go to Sandy, West Jordan and WVC
Taylorville			That assure that they should not go at high speed now in the summer...and that respect the children	It may be an illness or communication	I don't know	[Left blank]
Taylorville		Schools		More work	The work	More public transportation
Taylorville	Education	Trax not being here.	Gangs	Mental Health	Crime and Gangs	Zoning regulations not being addressed, crime, mental health
Taylorville				Too much theft.	Making the community safer.	Safety
Taylorville	Lack of information, fear of loss vetoes		communication of services/information	Ignorance/education		
Taylorville	Education and ambition.		That protection is difficult to obtain.	Generational and lack of strong education.	Free college	Penal institutions unless we address education.
Taylorville	Low salaries	The construction	Don't know	Lack of employment	The homeless people	Jobs

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Taylorville	Systematic racism and xenophobia.	The outdated concept that large automotive production companies deserve more than most people pay for rent in the course of a typical year to purchase one of their new, safe, hybrid and sustainably-fueled vehicles through third party distributors where the base price of the aforementioned vehicles up to quadruples in price before being inevitably reduced by almost 80% in resale value the MOMENT it leaves the stock lot.	The blatant imposition of poverty lines, class barriers, and race division upon the country and state as a whole by governing parties that have been proven to be subservient to oligarchical dinosaurs that care more about padding their retirement accounts in Switzerland with exorbitant profits than they do about stopping the systematic poisoning of our air, water, food, land, and society.	Corporations that are run by multi-billionaires are purchasing the loyalty of government departments and officials to ensure that they coordinate legislation to impoverish the general population by cutting off their access to education, health, employment advancement, and social progress for the sole purpose of increasing their wealth to maintain their quality lifestyles of excess and luxury amid the tanking economy and exponential inflation.	Complete and total overhaul of the government on all systematic levels from city and county ordinances to our national and federal structure.	The provision of access to basic housing, clean food and water, affordable healthcare, and education to anyone not making at least 90K a year.
Taylorville	Lack of employment	The schedules are far apart	More police car patrolling the streets, more light at night	Can't find work	I don't know	Better work opportunities
Taylorville	I think that there is not any obstacles when you wish really these opportunities	None really. I LOVE UTA, I used it for more than 5 yrs. It works perfectly for my son to use it to return from the middle school.	The theft to houses and the absence of surveillance	Lack of confidence in one's self	Self-sufficiency	Economic housing
Taylorville	Education, personal/professional interaction skills	Cost	Community building there are so many rental units that the community feels very transient.	Education and resource management	Community and economic development. There are too many vacant business properties. And very large apartment complexes that do not encourage a sense of community.	Properties maintenance as multi family housing ages.
Taylorville			gang activity and drugs	government greed	police coverage	school improvements
Taylorville	People are poor and can't afford housing	Have to stand out in bad weather on the corner waiting for the bus	Better security in the mobile home park where I reside	The housing is too expensive for people on a fixed income	Safety	housing, school, law enforcement
Taylorville	Idk	Idk	It's very scary how fast people go on our streets.	Lazyness	Speed bumps	It would be nice to see more young families join the neighborhood

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty? Taylorville				lack of skills	aging population	affordable services for aging
Taylorville	I don't know. They don't find easy work and maybe good wages	I don't have a transportation problem	There are no obstacles	They do not make the effort to study a profession, find a good job enabling them to earn and live decently and save for retirement	None	Infrastructure
Taylorville		It has to pass more often		Poverty	[Left blank]	[Left blank]
Taylorville		Own car	Safe	Low salaries	More female health clinics	Jobs
Taylorville				Low wage	[Left blank]	[Left blank]
Taylorville		None	Neighborhood watch	Drug Addiction	[Left blank]	[Left blank]
Taylorville		Distance		Education and Hourly Wages	[Left Blank]	[Left Blank]
Taylorville	Laws favor landlords over tenants.	Owning a motorized vehicle is too important. Transit services are limited.	It seems like every Taylorville is mentioned in the news, it is about violent crime.	Ignorance through limited education.	none	It seems like West Valley City is robbing Taylorville of businesses by offering financial incentives to relocate.
Taylorville				Rent too expensive	Transportation going east and west travel	Roads
Taylorville	Taylorville is revitalizing in a fast pace, which is good. I think the biggest barrier would be we are such a diverse neighborhood, it would be nice to offer language classes for free or minimal cost. I would love to learn a new language, a smile can only go so far.	The bus system seems to cater more to people with cars since Trax was put in.		How much people make. Rent is very expensive compared to just 10 yrs ago. Food, housing, insurance, etc..have gone up, but the pay rate seems not to.	Education.	Education
Taylorville				poor self management	support for education and affordable childcare	safety, will never go away as top priority.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Jordan	Unsure	Need more public buses to get to trax and other places and back and more often (more times).	Many neighborhoods are getting run down.	Lack of financial education/financial literacy and the current cost of living	Animal Control/Animal Services. I live on a semi-busy road and see cats and dogs get loose and run across the streets and almost get hit all the time and when I call to report the loose animal (and the potential car accident waiting to happen with a loose animal on the road), animal control just says "sorry, can't help you unless the animal is vicious, sick, or injured already". I try to round up the animals myself when I can and when it is safe to do so but I have my own dog at home that doesn't get along with other animals so some actual help from animal control would be nice for once.	Water shortages (we should lessen the amount of sprinkler usage and not get penalized for yellow lawns). Yellow lawns are better than a water shortage and there are ways we can still keep a yellow lawn looking nice.
West Jordan	na	no fast way to drive east and west.	na	laziness	overcrowded schools.	schools and recreational activities
West Jordan	Equity loans are still in the negative if you wanted to sale. I still owe more than it's worth.	Private busses for disabled or aging to make Dr appointments.	Drugs, domestic violence, not enough police cars driving through Our complex to check for issues.	Loss of job.	Renters are not screened well enough and in comes drugs. Also Domestic violence plus unattended children.	The need for better paying jobs or the gap will be quality customer service in health care facilities.
West Jordan	Elected officials and unfriendly city rules	Money	Crime	Lack of skills	Infrastructure	Economic development
West Jordan	some just don't want to work, in every community, they want it all, but do nothing.	none, trax is near	we need to form a neighborhood watch.	uneducated, not motivated, don't want to get out of poverty, wants everything given to them, or have just had bad luck such as losing a job, death, bad health, some have abused their bodies with drugs, alcohol, and have caused their bad health, and expect a "quick fix"	lower all taxes.	protect children from drug, alcohol abuse and sex abuse and neglect and abuse.this is so in every community,
West Jordan	Two incomes requirement			Corporate greed	None	All social services due to federal government incompetence

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Jordan	Cultural barriers and transportation needs	Trax doesn't run 24 hours, buses don't run where people need them, commutes take 2-3 times as long via public transportation than in a personal vehicle	Domestic violence	Lack of education	Mental health/drug & alcohol treatment	Refugees/immigrants
West Jordan	I would say education.	There is not a main highway that reaches from west to east in that area.	crime	bad choices as a result of poor education (education not meaning schooling, but education meaning not have knowledge of resources, opportunities, etc)	education	education
West Jordan	higher paying jobs and hiring more people. Affordable housing	Can't afford trax or buses.	more police officers patrolling neighborhoods, higher paying jobs and affordable housing.	No money to pay bills, house payment or rent and food.	theft and junky neighbor's yard	police patrol in neighborhoods
West Jordan	Lack of education regarding other communities	the lack of public transportation		Lack of crisis resources	Homelessness	The lack of affordable housing
West Jordan	Lack of education and not speaking English.	The distance from homes to trax.	I rarely see police cars patrolling my neighborhood.	Generational poverty	I'm pretty lucky. I would have to say I would like to see more police patrols.	I don't know.
West Jordan	Unk	Unk	Theft	Depression	Unk	Unk
West Jordan				Mental health	unsure	unsure
West Jordan	no answer	no east west roads wide enough to transport people to and from work and home.	no answer	They like living off the government and have no drive to work or they do not get the education to allow them to get good jobs.	more east west roads wide enough so there are so many traffic jams (on the west side)	affordable housing and healthcare. It's not that healthcare isn't available, it's that people don't want to take care of their health and it puts a burden on our healthcare system.
West Jordan		Freeway and highways only run North and South. Need a East to West Freeway		Most are born into poverty and they systems are not designed to help get them out of it. Instead they help them to stay in poverty. Housing and state assistance should be time limited.	Affordable housing	Need for mental health services
West Jordan					Better education for kids	better education for kids

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Jordan	Wages	Need more starigic road lights,less congestion	Gangs	Self esteem	Signage for traffic	Traffic control
West Jordan	Job creation. There is a lot of development happening in West Jordan but the only jobs being created are entry level low skill low paying jobs.	The UTA system is few and far between. It takes at least two hours to get anywhere on UTA from West Jordan. We also don't have access to trax out here. Aside from UTA we desperately need an east west road artery to ease congestion on 6200 s and 7200 s.	Petty crime like theft and drug abuse.	Lack of services for mental health and financial.	Traffic problems and commuting.	Public health services for low to no income residents.
West Jordan	Low income	Cost	Gangs and violence	Minimum wage is too low	Outdoors recreation	Expanded roads
West Jordan	Standard of living	Better high wages	Little police control	Low paying jobs	Lack of well paying job	Sports centers
West Jordan	Nothing	N/A	N/A	Lack of documentation	Fix the roads	Roads and schools
West Jordan	Right now we have a lot of empty commercial box stores space as well as smaller store front space. Revitalization of unoccupied commercial space would benefit the community in drawing more opportunities.	Where I live near 90th South, we deal with lots of congestion with Daybreak residents using main thoroughfares to get to freeways. If Bangerter was a freeway with ties in into I-15 and I-215, that would help alleviate the issues.		Lack of education	Public safety	Balancing the rampant growth in housing and development with easy access to jobs, shopping, etc.
West Jordan	Transportation and affordable housing. It is very difficult for a resident that is in crisis to focus on economic opportunities when they are worried about where they are going to live/pay their rent and how are they going to get where they need to go.	Our community is not set up for people to not have cars. Public transit is expensive and not efficient. I work in the downtown area and have considered/researched the option of using public transportation. It was going to cost me just as much as driving to work each day and would triple my travel time.		lack of education	affordable housing	senior services
West Jordan			Petty thefts not being taken seriously by police ie. Car break ins	Cost of living outpaces income. Housing costs are way high compared to income	No livestock resources	Housing.
West Jordan	Low wages	More buses	Police security	Education	Schools to learn English	The language
West Jordan	They don't have an education (high school diploma)	I am not sure	Not many police officers around neighborhood	Don't know how to manage their money	Medical/Dental	Medical/College Education

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Jordan	Lower income, many have to travel quite far daily for higher paying jobs. Lack of educational choice.	Bus routes are inefficient. Trax is wonderful but our family and others still have to drive to get to a station because bus times are unreliable. The area is NOT bike or pedestrian friendly.	During the warmer months the homeless start to spread out and camp down the Jordan river and in Veterans Memorial Park. Having more facilities for the needs of the homeless throughout the valley not just in Salt Lake City proper would be helpful.	Low wages. Lack of being able to support oneself on the minimum wage. Rental housing around my area is higher than my mortgage.	Poverty, plenty of people have jobs and work constantly but are still not getting by with two incomes or more in a household. There are several homes in my area housing more than one family or multiple generations out of necessity. My family has a close friend as a roommate because housing on his income is unaffordable, he works 35-50 hours a week with an income above minimum wage.	Jobs that offer greater pay and more jobs in between typical entry level minimum wage or requiring a college degree.
West Jordan	I don't think there is a barrier at this point. there are economic opportunities all over West Jordan	NEED MORE CLEAR AND PRESENT BIKE LANES, especially to public transportation.	not enough police officers to cover the growing community, also not enough neighborhood involvement from the police officers, they need to get out of their cars and walk the neighborhoods to get to know the people living in these areas also so we can develop a relationship with them and know we have someone that knows us and the neighborhood if something ever does happen.	unforeseen circumstances and not having a savings or insurance to help in the situation,	city government actually doing their jobs and involving the community more with their decision making, and them making decisions that they think will better the community with out asking the community	better energy and water infrastructures, roads, government corruption, need for increased civil services (Police, fire)
West Jordan		Roads designed poorly for the amount of traffic	Better communication with law enforcement	Wages not keeping up with rent/ food pricing	Communication, issues in the neighborhoods, crime happening and not knowing that its happened may have seen something that would help	Roads to much traffic poorly designed roads
West Jordan	Being able to afford an education that can ultimately lead to a better job increasing the probability of breaking their cycle of poverty.	Transportation is not as reliable, especially in inclement weather.	The seclusion of low income families in an area where education opportunity is lessened is an area bound to have high crime rates as we see in West Valley and Rose Park.	Lack of access to education that can improve skills and qualify them to better jobs in Utah.	Lack of access to appropriate health care and information (from contraception, family planning, to diseases like diabetes).	As we speak, education, healthcare, employment opportunities, and more are in jeopardy. If proposed budget cuts are approved by Congress, all the mentioned above's gap will widen.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Jordan	Legal status	Lack of knowledge of the system	Immigration status, language, lack of education programs available to them and the system in which they live, transportation	Lack of resources available for immigrant persons. The immigrants don't know their rights. Because their legal status they may not have a better work.	Education. I believe that education in any subject is extremely important to empower our community.	The biggest need will always be the preparation/education. The knowledge to get a better employment and work opportunities.
West Jordan	Welfare	Borrowing other neighbors vehicle	Drugs, gossip, ignorance.	Lack of knowledge	Everything	None
West Jordan	Most people in the community are poorly educated and lack the skills for jobs that provide a living wage/there are many jobs here that do not provide a living wage.	Road congestion.	Worn down neighborhoods and schools.	Many people are poorly educated and lack skills to do jobs that provide a living wage/many jobs in West Jordan do not pay a living wage.	Quality education.	The schools are aging and will need to be updated on the east side, and are over crowded on the west side. Jordan Landing is booming, while the shopping centers at Redwood and 7000 S seem to be dying. I'm concerned that that east side of West Jordan is deteriorating.
West Jordan	The divisions the Trump Presidency is creating in our communities and fear people feel. His example models disrespect and has allowed people to over tisms of every kind!	East to West or West to East backup.	This administration at the Federal level, but also the Republicans who look the other way. It is disheartening and sickening. Unbelievable in a modern world. Stereotyping and prejudice is just not right. I teach and our young people are worried and upset. Walls do NOT build understanding!! It is embarrassing the spinning going on and lack of integrity. It is frightening!	Low pay. The minimum wage is not a LIVING WAGE.	Transportation during high volume times. Back up.	Quality care for the elderly. Affordable housing. Health care costs.
West Jordan	Politics	Time, traffic	Police presence	Low wages, lack of education	More teachers, classrooms East/west travel	I think a liquor store is needed in West Jordan. Residents are giving tax dollars to other cities.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Jordan		Roads aren't expanded or put in to keep up with the growing neighborhoods or businesses. Homes and businesses come first and then they fix the roads due to increased traffic.	Not a huge concern, but there is a lot of traffic on neighborhood streets because major roads don't have easy access to neighborhoods. Not enough crossing guards at busy intersections near schools.	Minimum wage is too low.	Affordable/low-income housing	More schools! More outdoor and recreation spaces.
West Jordan	Good jobs	Narrow roads	Too many refugees being brought in.	Lazy or mentally ill	Good teachers and class sizes too large.	Law enforcement
West Jordan	Not enough high quality or specialized jobs. Too many 10\$ an hour large corporation job. Minimum wage is keeping people in poverty. Cost living has gone up but minimum wage has stayed.	Not enough routes or buses or tracks out west. Roads always congested going west bound.	Gun violence and Opioid epidemic. Not marijuana, opioids are the problem.	Cost of living and pay wages. Education I believe plays a roll in that.	public funding for education and air quality	Medicaid, school funding, air quality.
West Jordan	That don't speak English, it is an obstacle	Don't have a car	More security	Education	Doctors, cheap dentists	More doctors
West Jordan						
West Jordan				Low hourly wages. Food and rent expensive.	School bus	Will require new houses and affordable housing
West Jordan	None	At this time none	Until now, none	Not having socials	Until now, none	[Left blank]
West Jordan	Be Latino	Maybe public transportation	More security	Jobs	Public transportation	Less racism
West Jordan	None	More transport in different routes and more often	None	Education	None	More sports fields
West Jordan				Not enough money to pursue tradeschool or higher education	None. Live in a middle class area that seems to be doing fine.	Possible public schooling but ultimately unsure.
West Jordan					N/A	N/A
West Jordan	Education level	N/A	N/A	Low wages housing prices are a little high	N/A	Affordable housing
West Jordan				Low paying jobs.	Skyrocketing home prices.	Good education.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Jordan		Constant construction. I know construction is necessary but they are doing a project on 7000 South and doing it in 3 phases. We all understand the work needs to be done and it is going to be a hassle while it is being done but they closed the same intersection (1300 West) during both phases one and two. Each phase is 8 months or so. 16 months is a long time for one intersection to be closed or severely limited. It was our understanding that phase two would start further west, that the work on 1300 west was done under phase one. Better planning would have been nice so each intersection was only impacted once. Or if it was absolutely necessary, at least better communication.			Schools could use more resources.	Education
West Jordan	I don't know many residents in my community. I am in a temporary living arrangement.	Don't know.	Don't know.	Education, work ethic, sticking with a job, following rules, staying out of trouble. I can't say a single most common reason because everyone is different.	Debt assistance, debt relief.	Not sure.
West Jordan	Jobs above minimum wage are hard to find.	I feel that public transportation in my area is adequate, if not excellent. Roads do need upkeep, but with winter, that's pretty near impossible.	Crime.	Circumstances, sudden job loss, outsourcing, medical emergency.	I'm happy here.	Maintain a crime free area. The police do an excellent job, however, crime is increasing all over SL, and I don't believe the police are able to put on more people to patrol more frequently.
West Jordan	The conformism of the people	Public transport is few to access certain areas of the city such as the West.	Is coming more people to the community that hinder the tranquility and security of this.	Not having a permanent job, and the temporary jobs have a minimum payment without benefits.	The increase of homeless in the streets.	I think that security is going to become a necessity because the community is growing fast.
West Jordan				lack of education	parks and trails	grocery stores.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Jordan				Low pay/fixed income	Mental health	Mental Health
West Jordan				Education, but a lot of that education also needs to come from home - we can't rely on schools for everything	Better traffic flow	Transportation
West Valley City				No comments	No comments	No comments
West Valley City	Not enough funding	Horrible roads.	Better job opportunities	Not going to college	Affordable child care	Education
West Valley City				Education.	Neighborhood cleanup and code enforcement.	Annual Neighborhood Surveys
West Valley City	Housing rates are too high for anyone and the schools are awful	crime around public transportation and crime to personal property	Crime, language barriers, no afterschool programs or options for kids to have a normal life	Obligations are too high, the cost of living is too high and the wages don't increase	Crime	crime and education
West Valley City	Education. There are so many limits for adults without proper education. Many children do not know how to get out of the inter-generational poverty they grew up with.	Public transportation/UTA is terrible in West Valley. The only good thing they have is trax, but have fun getting to the station.	Graffiti. It's everywhere, fences, parks, sidewalks. Some of it has been on there for months if not years.	Lack of educational opportunities.	Graffiti	A lot of people own their homes, but the price of everything is going up and it is more and more difficult to do upkeep on those homes.
West Valley City	Language barriers			No good jobs close to them. Lack of education	Traffic near maverick center	Run down buildings dragging our neighborhood down
West Valley City	Inflation while incomes don't improve	Don't know	Response time to crimes, not enough patrols...certain areas are targeted and retargeted frequently.	Prioritizing wants verses needs.	The schools are sorely underfunded.	Safety. Crime such as robberies seem to be increasing exponentially.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Valley City	education.	limited bus service in residential areas. example: 4800 w bus schedule. a	gun laws	Lack of education.	Air quality. This smog is literally shortening our life spans and causing serious health complications.	Air quality control.
West Valley City	There is no such thing as child care for severely autistic children if you don't qualify for medicaid	Not enough bussing routes	Gangs and transients particularly around Fairborne station		Autism services	Autism services
West Valley City	Zoning laws	Traffic	Crime	Lack of education, illegal work status, failure to plan	Too much noise and speeding on main streets , air quality	Crisis cwntrs
West Valley City	All of the homeless services that we are forced to provide in our community.	Lack of bus and Trax service past 2700 West.	Half way houses and 33,000 units of low income housing units.	Lack of financial education.	Self-sufficiency programs.	Trax and bus service.
West Valley City	Lack of education of the community members	Bus routes that meet the needs of where the citizens live vs where they are actually located. They need to survey the neighborhood better.	I believe West Valley police do an ecellent job with the resources available. Needto educate those new to the community the rules and regulations of the city in a kind gentle way prior to enforcement.	Lack big education and the desire to acquire more.	Transparency between the governmental officials and the citizens. Too many behind close doors deals!! Lack of trust for elected officials and the inabilities get rid of them until the next election.	Health care
West Valley City	Finding the help they need	I don't know	I work downtown in the Rio Grande district. The drug trade and other crimes associated with it are a huge problem.	There are a large number of reasons. But housing and healthcare are the most common.	Affordable housing	Affordable housing
West Valley City	Opportunities for education			Don't have enough money and for me personally unsure how to manage money	Poverty	Disability services

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Valley City	Well most people either are paying their lives away in rent payments and can't actually afford a down payment on a house and cannot save up a reasonable emergency fund when times get bad. Seems like it would be nice to have some investment in from the county in financial we'll being and education of the county members.	Largest barrier to me is the cost of a monthly pass is still more expensive than a monthly gas bill for my car each month.	Largest barrier to feeling safe is the condition of the roads and sidewalks, seems like the city hardly ever gets to sweeping the sidewalks and keeping the areas nobody wants to keep clean. The city also hardly ever seems to be aware of neighborhood conditions unless someone reports it. Would be nice to not have to always report when your neighbor can't keep their yard. Maybe the city could help pitch in to some yard work instead of just fining us.		Actually knowing anybody in the community besides family's	I will still barely know anyone in my community. I'm not religious and more people are going on religious as well as many homeless people. People just need a place of peace and rest that's not a church but with people that actually care about their community.
West Valley City	Stigma of living on the west side. No opportunity the income dose not meet the cost of rent	UTA changing the routes and not accessible to low income individuals		Generations following the foot step of the family ideas of success and not understand how to break the cycle of poverty	Tent city huge homeless population	Get a cheap burial plot
West Valley City	I would like to see support for the Latino community in WVC	Uknown	Overall I have a sense of safety in my community, however, sometimes I'm concern of police profile my community (Latinos)	Not enough job opportunities	Education-schools need improvements, teachers, buildings need reno.	Education, schools, hospitals

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Valley City	Immigration policy.	No suggestions.	Residents need family stability and a stronger sense of community to feel safe, especially with all the tension around immigration policy at the federal level.	No suggestions.	No suggestions/unsure	Healthcare
West Valley City	they don't speak English	they don't have drivers license	feel like it's Mexico, too many families living in 1 home	too many children they can't take care of	birth control	planned parenthood
West Valley City	Feeling that it has always been this way, and it won't get better. Who cares.	Cost	Need more police in neighborhood foot patrols	Lack of opportunities	Gardens	Police and fire
West Valley City	knowledge	not sure	lack of punishment for criminal actions	lack of education	support for the arts	education
West Valley City	Language barriers and lack of education		Poverty, which leads to involvement in crime	Lack of education, leads to low wage jobs	Helping more students complete education after high school	Mental health services
West Valley City	affordable housing	the price of public transportation	too many gangs	lack of affordable housing. Rent is too high. Income too low.	lack of affordable housing	lack of good-paying jobs; more than minimum wage.
West Valley City	Lack of marketable occupational skills and education.	In relation to public transportation, access is the largest barrier. Trax is very far away from most residents in West Valley.		Lack of access to higher education, technical and/or trade schools. Meaning, lack of understanding about how to transition from high school to higher education opportunity. Access also includes ability to pay for college.	My neighborhood is pretty great. I'd really love the empty lot designated to be a park, completed.	Education
West Valley City	Language and lack of job skills.	Cost, routes that aren't adequate or take over an hour when it's 15 minutes to drive.	Poor city management and priorities. Trust issues.	Lack of education and second generation welfare families.	Senior care	Affordable housing and senior care.
West Valley City						More farm, less gang
West Valley City	Low income	UTA routes		People won't work for minimum wage	Jobs	[Left blank]
West Valley City	Low income	The cost	Lack of police visibility and trust of said police by residents	Low living wages	Education	Children's healthcare and food services

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Valley City	Proper local employment	Upkeep of main roads and expansion of UTA services	More law enforcement	Low Wage, High Rent, & Very high demand of local resources	Home lending standards are higher than other states making homeownership difficult	Housing demands are high. More housing is needed.
West Valley City	Not enough jobs	The roads	Gang activity	Lack of good paying jobs	Better education	Education
West Valley City		the drop off and traffic at the junior high is ridiculous the whole street is jam packed	There is too many gangs that wait for after school and go in the neighborhood to fight or to jump some one.	High Rent	Protection at the Schools	more Security at the schools
West Valley City	Lack of good paying jobs nearby bus	Bus schedules not long enough.	Communication	Mental illness	Solar powered speed limit signs on school route streets.	Community Centers, YMCA or other youth programs.
West Valley City	nothing	nothing	nothing	housing is unaffordable	The curb issue - too many close calls and a few accidents. You cannot see getting out of the neighborhood because of the line of cars.	Greatest need will be NOT to build anymore houses. Its really full - traffic is becoming a nightmare.
West Valley City	education, opportunity	we are close to trax but trax doesn't go where the people work	delinquent youth	drugs	work opportunities	employment opportunities for felons
West Valley City				Lack of education and lack of opportunity - Ban the Box may also help	fair and equal taxation - the rich \$250,000 up need to carry their weight	Our tax dollars going overseas to foreign countries and on starting [stupid] wars and conflicts
West Valley City	Adult education. Low wages	High cost of the bus ticket	There is no enough patrolling of police officers Streets without lightening	No jobs opportunity Low wages No education opportunities	Education high cost of tuitions	Job opportunities, high cost of education neighborhood revitalization.
West Valley City	Excessive regulation of small business.	Bus service West of 5600 W.		Mental health issues.	Road repair.	East /West express routes.
West Valley City				Jobs	Jobs	Jobs
West Valley City	Education	Bad roads	Gangs	Not having any skills	Health care	Affordable housing

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Valley City	Job development, affordable housing, health care opportunities, transportation	Limitations on bus and rail service (routes, hours of availability)	Immigration reform	Lack of pathways to opportunity	Secondary road infrastructure. Roads are cracking, sinking and otherwise deteriorating. Same with curbs, particularly wheelchair accessible curbs. Repairs last, at most, a season because of limited prior repairs.	Senior citizen resources
West Valley City	People just aren't educated to do high paying jobs on west valley.	Unsure	Crime in west valley. Terrible. Every other week seems there is a shooting somewhere. End it!	Broken homes, no father figure, mother has to work, can never get ahead.	CRIME! must be stopped.	High paying jobs and quality neighborhoods in west valley. People here park along the street leaving oil stains, park cars in their front yard grass, and generally have regard for their neighbors and keeping their lawns, homes, and surrounding areas clean and curb appeal
West Valley City		Information			Listening to a more diverse people	Education, after school and senior services
West Valley City	Lack of high paying jobs	no close bus services	to many gangs	only living on social security	[Left blank]	[Left blank]
West Valley City	Lack of well paid employment	That is expensive and take a long time	Increase vigilance in the streets		[Left blank]	Probably there will over population and lacking in services
West Valley City	Lack of education, unstable jobs, low wages		Legal status, no speak English, no education, unstable work and low wages	No legal status in this country, lack of knowledge and education of services available.	Lack of provision of services to prevent and treat mental health programs. Programs to prevent suicide in young people in the Hispanic community.	Absence of medical care specialized in mental health.
West Valley City	Poor pay	Bus routes	Homeless and drugs	This is a rambling state so renters don't have much rights.	That renters are treated better	Not much will change.
West Valley City	Child care	Limited bus service.	The police officers can never seem to help when you have a problem e.g. Harassment, people speeding, reckless driving etc.	Mental health problems	After school programs	After school programs and elderly assistance.
West Valley City	Lack of information	The snow when they are late in cleaning the streets	Not knowing the people and have no help from the police	They spend more than they earn and get debt	No	Accessible transportation for all
West Valley City		cost of buses		lack of skills	not enough through streets	not enough through streets

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Valley City	Access to close nearby economic development, meaning commercial businesses and light industry	The bus schedule is not reliable and the routes change without the change being posted.	Everyone knows that laws are selectively enforced, especially traffic laws. Everyone is afraid to drive on the street because someone will flagrantly violate the rules of the road with impunity and cause an accident while they drive away.	Not educated on how to handle money. Rich kids grow up rich, mostly because they have been raised with an understanding of how to manage money.	Street and road surfaces in disrepair.	Recycling. It is 3/5 of my trash but only gets picked up every other week. I end up putting recyclables in the trash because the bin is full.
West Valley City	Tax rates are too high.	Too many bike lanes.	Too many government regulations.	Lack of motivation to change.	Work training	Work training programs
West Valley City	Language barriers, racism, lack of education		Lots of crime, lots of drug activity, lots of police brutality and racism	Lack of education	Homelessness	Homelessness and racism
West Valley City	After school programs, reinforce more in education and security	The schedules and are too far	Be more informed about services and what to do to stay safe	Lack of work & childcare. Many are unable to work and care for the children	On diseases related to the heart, sexuality among others	Improve the neighborhood and security
West Valley City	Low paying jobs	I don't think there is one	Less violence	Lack of work and education	Education opportunities	I don't know
West Valley City	Over priced housing	Trax going further West, pot holes on 4100 S	High crime level	Lack of affordable college	A sense of community that is not faith based	LGBTQ assistance

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Valley City	city council	udot doesn't care about road conditions; only the big projects, Mountain View	Gang bangers	Politicians who don't give a damn unless they can expect a big check	WVC council finds very easy to ignore seniors and the elderly.	Housing, viable roads,
West Valley City	lower income city		crime, gangs, homeless	they don't have the education for a better paying job	would love the city to look nice - but most of the city just looks run down and old - I don't do much shopping in West Valley and I've only been to the stores around the mall as needed: Petco, Smashburger, Ulta - I don't go in the mall and would rather go to the theater off of 5600.	I'm not sure. Because of the community - I really don't plan to be here in 5 years.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Valley City	Magna water takes them a year to approve because there older employee looses paperwork again and again. Took me 1 year to get water to my property. Other business have left magna because of it.	Buses are not bad. When they put the 240 new housing development off 9200 west at top of hill. This will be a problem .We already have speeders on this street also buses. Especially at 7 a.m. and 4 and 5 in the afternoon apparently nothing is being done about it.	Drug houses are reported nothing done. To many older cops in magna making friends with the drug people. They need to be changed out.	Refusal to work. If they can afford to get tattoos and buy drugs they should be made to work in a road gang. Everyone on welfare should half to pass a urine test. In magna it generational poverty it passes from one generation to another actually teach them how to get around the system.	Drug addiction	Repairing the roads
West Valley City	Lack of resources to find economic opportunities.	Damage roads	More police presence and neighborhood watch programs	No safety net for families living paycheck to paycheck	Homeless prevention	Employment and housing
West Valley City	Equal pay for equal work	Poor East-West routes	Single family homes with more than single families in them	To low of a living wage	Crime	Safety
West Valley City	Education	UTA poor/lack of services - not enough routes & not on time		Lack of education	Drop out rates	Transportation

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Valley City			We might need more police presents	Opportunity and Education	I think it's trying to be addressed, but I would say crime. We have apartment buildings that have a lot of crime. You can't get a pizza delivered after dark. I think we should have more police presents in high crime areas.	Good people don't want to live in high crime areas.
West Valley City		Do not pass the bus over there		For not working		
West Valley City						
West Valley City						
West Valley City	Not to consider a degree, because education is very expensive			Lack of education	Safety in the neighborhoods	Public transportation
West Valley City				Lack of work	Work	School transportation
West Valley City	Time/schedule			High prices for everything we consume	Medicare	Health/Medicare
West Valley City	The credit	N/A	Much theft in homes	They spend money they don't have	N/A	N/A
West Valley City	Have a job that pay \$8.00/hr		Sometimes it feels much racism	Lack of employment or there are job,s, but is it difficult to get them	[Left blank]	[Left blank]
West Valley City	The immigration status			The information	[Left blank]	The traffic
West Valley City	Lack of study			Lack of preparation	[Left blank]	[Left blank]
West Valley City		That the transport pass more often	That has more safety	The opportunities that the person does not have when they don't have a legal residence	Safety in the streets and in the schools	Have the stability that we don't have and being in another country
West Valley City	Jobs with good salaries	None	Hasty response by police	Education	[Left blank]	[Left blank]
West Valley City		No buses in neighborhood	Gangs	Loss of Jobs	Affordable/Low income housing	[Left Blank]
West Valley City	Language	None on the bus route	Gangs	Because welfare is free	Illegals	American jobs
West Valley City	Education	Money	Drugs	Drugs at least in our community. A lack of motivation.	Parental Education	Get the young people educated and a reason to do better
West Valley City	language	public transport is not cheap	not sure	ignorance of available resources, family culture, poor education	education	education

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
West Valley City	So many forms and complicated	Don't know	So many drug houses. And nothing is done	Education, Not willing to try and work. Afraid they might lose there benefit	Childcare	Need all day kindergarten for all children not just the Spanish speaking children.
West Valley City	Transportation & money			They don't make enough to live comfortably	??????????	?
West Valley City					better transportation. better communication about road work in my area.	affordable health care and affordable housing.
West Valley City	Employment	None	Theft	Employment	Debt relief	Debt relief
West Valley City	Affordable child care			Unforeseen circumstances IE medical costs & funeral expenses	Affordable child care	Healthcare
White City	Not sure.	Bus service used to come thru our neighborhood but doesn't any longer.	Our community seems fairly safe, although there are issues with drugs and home breakins in some areas.	Unemployment and lack of education to get good jobs	Neighborhood cleanup efforts more than once a year.	S L County does a good job with trash collection and snow removal, but better access to emergency services and better response time (police, fire, medical) may be the greatest need.
	Spanish/English	Time of bus early	Crime area	Pay	People	
Midvale	Discrimination		Isolation	Low minimum wage and pay in general	Income	Involvement and awareness of issues by citizens
Midvale				Poor education.	Affordability in higher education.	Cheaper health care.
Millcreek					x	x
Millcreek		We all have cars but if we want to take public transportation, it isn't feasible. There are not enough routes.		Generational.	Fully funding education. This means school nurses, counselors, teachers, instructional coaches, time for authentic professional development, community outreach at schools, translators as needed, and all of the arts.	Fully funded education.
Millcreek	Low minimum wage, high cost of housing	Lack of dedicated bike paths on major arterial roads	Lack of sidewalks for pedestrians; lack of street lighting.	Low paying jobs, high cost of living and raising kids	Economic development	Lots of vacant retail and office space. Now that Millcreek is a new city we need a Reliable and sustainable source of tax revenue.

Where do you live?	What is the largest barrier to economic opportunity for residents in your community?	What is the largest barrier to transportation for residents in your community?	What is the largest barrier to residents feeling stable and safe in your community?	What do you think is the single most common reason people experience poverty?	What is your single greatest need that is not currently being addressed in your community?	What do you think will be the greatest need or gap in services for your community over the next 5-10 years?
Millcreek			We have been infested with drug house which have created crime and safety issues. It is difficult for law enforcement to taken action unless the offenders are caught in the act of making the drugs	Lack of skills and motivation.	Road repair on the side streets	Road on the side streets
Millcreek	Wages	We don't have a great transportation system.	Lately, the horrible air quality is the biggest worry.	Wages are too low.	Air quality ch	Changes in the education system and air pollution solutions
Salt Lake City					Environment	Environmental/air quality
Salt Lake City					Tax relief	Senior services
Salt Lake City					Grocery stores	Housing
Salt Lake City					family home	family homes
South Jordan	Affordable housing, affordable quality child care	Lack of public transportation, lack of efficient transportation going east-west.			Education funding- from affordable child care to building new public schools. Our schools are crammed with too many students and our teachers are over worked and underpaid. I honestly would support an increase in my taxes in order to provide more education funding.	Education resources and public transportation
South Salt Lake	Access to supporting services and understanding of how to proceed with business concepts to ensure sustainable start-ups and growth.			Lack of access to education and skills development opportunities that could allow them to improve their capacity to earn a livable wage	Access to economic opportunity with a livable wage	opportunities for advancement for one's professional self
Taylorville	Lack of knowledge of how or where to access opportunities.	Cost of public transportation, easier way to travel East and West.	There is some ethnic diversity and I don't think they feel safe with the current presidential opinion on people of color. There doesn't seem to be an easily accessible option for those who could use some state assistance.	Lack of resources that are easy to understand and are realistic for these individuals to succeed with.	There has been a stigma surrounding the West side of SLC. Bringing in new businesses that are more common on the East side of SLC and access to public transportation at an affordable rate, also easing travel West of I-215.	Making state/job/elderly/pove rty assistance easier and more accessible to those in need.
West Jordan	Incomplete studies	Don't drive	The vulnerability	Lack of education, incomplete studies	More educational programs for children in schools
