Dear Ms. Peters:

We are responding to your request for verification of an Aquatic Resource delineation for the 7200 West site. The approximately 433-acre project site is located along 7200 West between SR-201 and 700 North, Latitude 40.75434°, Longitude -112.06296°, Salt Lake County, Utah (enclosure 1).

Based on available information, we concur with your aquatic resources delineation for the site, which consists of approximately 68.9 acres of palustrine emergent wetland, 17.2 acres of playa/open water, 12,066 linear feet of ditches/canals, as depicted on the enclosed May 6, 2018, "Delineation Detail 7200 West, SR-201 to 700 North, Maps 4 through 24," drawings prepared by Wetland Resources (enclosure 2).

This verification letter does not constitute a determination of jurisdiction (JD). A JD is not required to process an application for a Department of the Army permit. If you do not require a JD for the site, your permit application may be processed sooner.

You may request a JD for this site at any time prior to starting work in aquatic resources, including after a permit decision is made. To request a JD for this site, complete the attached *Request for Jurisdictional Determination Form* (enclosure 3) and return it to this office at the address listed below.

Please refer to identification number SPK-2019-00610 in any correspondence concerning this project.
