This National Recycling Week show everyone what a hero you are by making your own Recycling Superhero Symbol.

Get some old paper, cardboard, plastic or cloth and follow the steps below.

You’ll need:
- Material
- Scissors and
- A safety pin or blu tac.

To start with cut the material into thin lengths. For best results your strip should be 40cm or longer. Then follow these steps...

1. [Image of a long strip of material]
2. [Image of a curved strip of material]
3. [Image of a curved strip of material with a line drawn on it]
4. [Image of a symbol made from the curved strip]

Then pin or blu tac the symbol to your chest so everyone knows you’re a Recycling Superhero.
