This Plan represents a three year cooperative effort between Salt Lake County, Stantec Consulting Inc., the Salt Lake County Council of Governments (COG), numerous sub-consultants, and various stakeholders. We wish to express thanks to the staff at Stantec Consulting Inc. for their unwavering commitment to making this document accurate, innovative, and relevant to water quality concerns in Salt Lake County. Additionally, we've had an exceptional team of sub-consultants that have provided invaluable technical expertise and insight. Finally, but not least, we've had a fantastic team of County staff that have supported this Plan with acumen and understanding that only come through years of experience. Together, we've compiled a document that will support water quality stewardship efforts for years to come. Thanks!
