When registering your child, please consider the following questions as it does not benefit your child to put them into an Intermediate Class when Foundations are needed.

Is this their first year?

How many times did they play last year?

Do they miss the ball very often? Do they three putt very often?

What is their average score? Do they count their shots when they miss the ball?

Have they ever had lessons that have covered both short game and swing?

If you are not sure, please call the Riverbend Golf Shop (385) 468-1460 and speak to Adam or Diane for any advice or questions you may have. We want your children to excel, and being in the right class will mean a lot to their development. If they do well in the Foundations Class, they can graduate to the Intermediate Class in a following session. Would you like to sign them up for both right now?
