History Note

The Salt Lake County Assessor's office is responsible for listing and maintaining records on each piece of taxable "real" and "personal property" in Salt Lake County. The position of assessor and collector was appointed at the first official meeting of the Salt Lake County government on March 15, 1852. The assessor and collector remained the same position until 1878 when the county collector position was created by the territorial legislature as a separate position in counties with over \$40,000 in total revenue. The collector position ended with statehood in 1896 when the county treasurer became responsible for collecting taxes.
