RE: *SLCPD Det. Jeff Payne, et al.; Arrest and Detention of Alex Wubbels*

Dear Special Agent Barnhart:

The Salt Lake County District Attorney's Office, Sim Gill, Salt Lake County District Attorney, formally requests the Federal Bureau of Investigation to investigate the circumstances surrounding Salt Lake City Police Department Detective Jeff Payne's July 26, 2017 arrest and detention of Alex Wubbels in Salt Lake City, Utah. We request you investigate the actions of Det. Payne, other police officers and law enforcement personnel and anyone else acting under the color of authority, or failing to act when imposed with a duty to act.

We request your investigation to examine and consider whether actions by Det. Payne, other police officers and law enforcement personnel and anyone else acting under the color of authority constitutes criminal conduct, criminal civil rights violations, or other violations of law.

We request an investigation in addition to any other criminal or other investigation of the matter. In order to be thorough, and given the gravity of the rights potentially implicated, all issues must be completely examined to restore the public trust currently compromised by the actions depicted in the publicly released video recordings of the incident. It is essential that all individuals and institutions associated with this incident should be investigated to document the roles they played in the incident to prevent such a thing from happening again. Our community and its citizens deserve nothing less. Thank you for your cooperation with this request.

Very Truly Yours;

/S/
Sim Gill,
Salt Lake County District Attorney
