1. Provide a description that addresses the entire scope of the proposed project and how the Collaborative Applicant will use grant funds to comply with the provisions of 24 CFR 578.7.

Activities (listed 1 - 6 below) will directly assist Salt Lake CoC with complying with the provisions 24 CFR 578.7.

1. Developing a CoC System. Salary, benefits, and space costs for 1 FTE support staff. Focus on tracking and improving performance on HUD system measures and HUD ending homelessness goals. Position will also support CoC funded program development and management.
2. Project Evaluation. Salary, benefits and space costs for .33 FTE planning staff. Position will be responsible for evaluating CoC and ESG funded programs. Key position benchmarks which directly relate to HEARTH responsibilities include: Consult with recipients and sub recipients to establish performance targets appropriate for population and program type and evaluate outcomes.
3. Monitoring. Salary, benefits and space costs for .33 FTE planning staff. Project and/or fiscal monitoring of CoC funded project will be performed. Key position benchmarks which directly relate to HEARTH responsibilities include: monitor grantee compliance with written standards for providing Continuum of Care assistance, monitor grantee compliance with HUD draw down

requirements and expense eligibility.

4. Grant Application. Salary, benefits and space costs for .5 FTE planning staff. Activities will include coordination of the CoC Consolidated application: CoC (collaborative) application, Project Applications, and Priority listing. This will include dissemination of HUD requirements/guidance, ranking committee staffing and material development, project applicant training material development and conducting training meetings, collaborative application project management, as well as post-competition debriefing meetings.

5. Coordination. Salary, benefits, and space costs for .5 FTE planning staff. Activities will include using data and system planning tools to identify dedicated homeless housing need projections as well as cost per positive outcome analysis. Activities will be centered on creating and disseminating data visualization/data analysis between various CoC groups.

6. HUD Compliance. Salary, benefits and space costs for .33 FTE planning staff position. Activities will focus on coordinated entry planning and compliance.

In addition, Salt Lake County will provide match dollars to the HUD CoC Planning Grant. The match dollars will be used, in part, to assist the CoC with the following core responsibilities of operating a continuum of care outlined in HEARTH regulation 24 CFR 578.7:

- Help conduct full membership meeting
- Coordinate annual invitation for new members
- Annually approved governance charter

Match dollars will be used to provide supervision of the positions funded by the HUD Planning grant as well as cover space and/or benefits costs for the planning grant positions that are above the grant budget.

2. Describe the estimated schedule for the proposed activities, the management plan, and the method for assuring effective and timely completion of all work.

ESTIMATED SCHEDULE: Planning activities will be divided among 2 FTE and 2 PTE to allow year round focus and prioritization within each position. To ensure the project stays on track as a whole Salt Lake County will develop 90 day work plans and disseminate work plans to the CoC.

MANAGEMENT PLAN: If awarded, this will be the fifth year the Salt Lake County Continuum of Care receives a HUD planning grant. Therefore, much of the implementation structure will be in place. This includes a job description(s), office space, and designated supervisor.

Salt Lake County Government understands the need to quickly and effectively implement the HEARTH recommendations; as backbone agency, we are highly motivated to quickly implement the planning grant which would greatly assist in these efforts.

METHOD FOR ASSURING EFFECTIVE AND TIMELY COMPLETION OF

WORK: Salt Lake County will include a more detailed timeline of activities that will be accomplished during the 12 month period with systematic reviews occurring each quarter to ensure accountability, with regular updates at CoC meetings. In addition, staff will receive ongoing supervision from Salt Lake County supervisor as well as quarterly review of activities vs.grant goals.

3. How will the requested funds improve the CoC's ability to evaluate the outcome of CoC and ESG projects?

Planning funds will allow for the implementation of a more capable system for monitoring and evaluation. Salt Lake County government currently administers and monitors ESG projects in the same geographic area served by the Salt Lake County Continuum of Care. Planning funds will support the collaboration to establish the Salt Lake County CoC monitoring and evaluation system within the existing County structure. This change in administrative structure will benefit the Continuum in a number of ways. The collaboration will further encourage the coordination between ESG and CoC projects and funding, shift monitoring and evaluation to an already established system, and reduce the duplication of activities in Salt Lake County.

The CoC will access the expertise and infrastructure of Salt Lake County government. A regular and routine process for evaluation of outcomes will be in place and operational. Technical assistance will be available to help new programs and to strengthen existing programs. The CoC will have available the expertise to evaluate outcomes and access to County staff that already administer ESG funding, and will tap into their monitoring and evaluation outcomes.

4. How will the planning activities continue beyond the expiration of HUD financial assistance?

Salt Lake County will continue to seek out additional funding sources to perform backbone agency activities, including those which are eligible under the HUD Continuum of Care Planning project. Potential sources for funding include: 1) increased local funding support and staffing collaboration or 2) funding support from local United Way (which is also actively engaged as a backbone agency in the collective impact model for poverty).

4B. Funding Request

Instructions:

Is it feasible for the project to be under grant agreement by September 30, 2018: Select "Yes" or "No" to indicate whether the grant agreement will be executed and the project will begin operating by September 30, 2018. The FY 2016 HUD Appropriations Act requires HUD to obligate FY 2016 CoC Program funds by this date. A selection of "No" may result in the rejection of a project application during the HUD assessment. Further, if a CoC Planning award is not obligated with the grant execution by September 30, 2018, the conditional award will be terminated and the funds recaptured.

Does this project propose to allocate funds according to an indirect cost rate? This is a required field. Select 'Yes' or 'No' to indicate whether the project either has an approved indirect cost plan in place or will propose an indirect cost plan by the time of conditional award. For more information concerning indirect costs plans, please 2 CFR Part 200.56, Part 200.413 and Part 200.414, FY 2016 NOFA and contact your local HUD office. The following questions become visible if "Yes" is selected:

- Please complete the indirect cost rate schedule below: Applicant must complete at least one row in the grid.
- Has this rate been approved by your cognizant agency?: Select "Yes" or "No" from the dropdown menu.
- Do you plan to use the 10% de minimis rate?: Select "Yes" or "No" from the dropdown menu.

Select a grant term: This field is populated with the value "1 Year" and cannot be edited.

Eligible Costs: For items 1 through 8, enter a "Quantity AND Description" and amount of assistance for each activity for which funds are being requested. "Quantity AND Description" details should be thorough, and failure to enter adequate "Quantity AND Detail" may result in conditions being placed on an award and a delay of grant funding. Once a "Quantity AND Detail" and an amount have been entered into one or more of the items, click "Save" and e-snaps will total the assistance requested and determine the total Match amount required.

Total Costs Requested: This field is automatically calculated based total amount requested for each eligible cost.

Cash Match: This field is automatically populated. If it needs to be changed, return to Screen "4A. Sources of Match" to make changes to this field.

In-Kind Match: This field is automatically populated. If it needs to be changed, return to Screen "4A. Sources of Match" to make changes to this field.

Total Match: This field will automatically calculate the total combined value of the Cash and In-Kind Match. The total match must equal 25% of the request listed in the field "Total Eligible Costs Request" minus the amount requested for Leased Units and Leased Structures. There is no upper limit for Match. If an ineligible amount is entered, the system will report an error and prevent application submission. To correct an inadequate level of match, return to Screen "4A. Sources of Match" to make changes.

Cash and In-Kind Match entered into the budget must qualify as eligible program expenses under the CoC program regulations. Compliance with eligibility requirements will be verified at grant agreement. The Total Budget automatically calculates when you click the "Save" button.
