

tips for Lead-Safe Cleaning

Follow these easy steps
to protect your children
from lead poisoning

- Wet-mop hard floor surfaces
- Change bucket water frequently to prevent the spread of lead
- Rinse mops and sponges thoroughly after cleaning

- Regularly keep window frames and blinds free of dust with a moistened rag and all-purpose cleaner
- If possible, use a vacuum with a HEPA filter on carpeted flooring and furniture
- Wash children's toys, stuffed animals, and pacifiers often

- Remove any fallen paint chips with a wet rag and all-purpose cleaner
- Remove shoes before you enter the house
- Wash children's hands frequently
- NEVER use a broom or dry rag to remove dust from surfaces
