WRAPAROUND*

Wraparound is a planning process that helps children

and their families function more effectively. This process results in a unique set of community services and supports that are individualized for a child their family.

The people offering these services and supports are chosen by the child and family and are identified as the **Wraparound Team**.

The Wraparound Team meets with the family to develop a plan which builds on the family's strengths and helps them achieve their desired outcomes.
