

Linking a Business License to your e360 Account.

This explains how to connect a Business License to an e360 account you did not create the License with.

Open a web browser and go to saltlake.co.ut.eprocess360.com.

Login to e360.

If you need to create an account see the instructions on [Registering / Creating an account](#).

After entering your information go to the Home section at the top left  Home .

Select the BUSINESS LICENSE APPLICATION button on the right.

Business License Application

[Mayor's Office] Apply for a new business license, a renewal for an existing business license, changes to an existing business license, or close a Business License.

Next select the Renew Business License or Change License Information button.

● Renew Business License or Change License Information

Enter your Business License # and your PIN. If you do not have it you will need to come in to the office to verify your identity.

● Renew Business License or Change License Information

If you want to renew an existing business license or change license information, you will need to provide your business license number and PIN. If you do not know your PIN, please contact the jurisdiction.

Note: Event and Solicitor licenses cannot be renewed.

License Number

PIN

Select / Save your changes .

This connects the Business License you entered to this account.

The license can be accessed by going the home page and looking at the **Existing** section.

License information can also be seen by selecting the projects tab at the top **Projects** and selecting

the Business License group **Business License**.
