Dear Landfill commercial customer:

Beginning January 1, 2019, the Salt Lake Valley Landfill is enacting a Tier Pricing Structure for our large volume customers. You will pay the rate listed on the table below that you project will be hauled directly to the Landfill. This rate structure does NOT apply to our Transfer Station.

There will be an agreement to fill out and the tonnages will be tracked for the year-end adjustment, while the pricing will start at the beginning of the year.
