

The National Solid Wastes Management Association found that the average national tipping fee for private companies was about \$42.50 per ton in 2008. Our survey, which included municipal landfills, shows an average of \$49.27 per ton.

At least one landfill in North Carolina does not charge!

Methodology:

WRN surveyed up to five landfills in each state, asking for the one-time, per-ton tipping fee for municipal solid waste. We used these numbers to find each state's average. At landfills that charge in cubic yards, we multiplied by the industry standard of 3.3
